Analysis

Current Law: USM must gain legislative approval to use academic revenue bond (ARB) proceeds for certain capital improvement projects at academic facilities.

Background: The maximum aggregate principal amount of bonds that USM may issue was increased by \$200.0 million, from \$1.2 billion to \$1.4 billion, by Chapter 357 of 2011. This bill does not affect the cap on bond principal; it only authorizes the issuance of bonds within the existing limit for specific capital projects.

The Governor's fiscal 2017 CIP proposes \$24.5 million in ARBs in fiscal 2017 and \$32.0 million in fiscal 2018 and 2021, \$24.0 million in fiscal 2019, and \$34.0 million in fiscal 2020. The 2011 Capital Debt Affordability Committee (CDAC) final report approved a \$5.0 million annual increase in USM ARB authorizations from \$27.0 million to \$32.0 million beginning in fiscal 2013. The 2014 CDAC report approved an increase to \$34.5 million for fiscal 2016 only. Chapter 471 of 2015 stated the General Assembly's intent that CDAC reduce the recommended maximum amount of academic facilities bonds for fiscal 2017 and 2018 by \$10.0 million in each year.

The proposed fiscal 2017 capital budget includes \$24.5 million in ARBs: \$17.0 million for facilities renewal projects budgeted within the USM System Office; and \$7.5 million for the New Bioengineering Building at the University of Maryland, College Park.

State Fiscal Effect: USM revenues and expenditures from bond proceeds increase by \$24.5 million in fiscal 2017. The revenues and expenditures are included in the Governor's proposed fiscal 2017 capital budget. Beginning in fiscal 2018, USM expenditures to pay debt service on the revenue bonds increase by an estimated \$2.04 million annually for 20 years, assuming a 5.50% interest rate.
