Preamble

WHEREAS, The financial crisis of 2008 created the worst worldwide economic downturn since the Great Depression, leaving millions of Americans without jobs, pensions, or homes; and

WHEREAS, The U.S. Congress concluded that the failures of the nation's financial regulatory system were a major cause of the Great Recession; and

WHEREAS, To prevent future financial crises, the U.S. Congress enacted a number of initiatives including the Dodd–Frank Wall Street Reform and Consumer Protection Act of 2010 (Dodd–Frank Act); and

WHEREAS, The Dodd–Frank Act was designed to prevent the excessive risk–taking that led to the financial crisis and provide commonsense protections for American families, including the Consumer Financial Protection Bureau (CFPB) to prevent financial firms from exploiting consumers; and

WHEREAS, Over the last 6 years, the CFPB has helped more than 27 million consumers receive relief from illegal financial practices and has helped provide \$11.7 billion in relief to consumers as a result of their enforcement actions; and

WHEREAS, Since the 2008 financial crisis, the Securities and Exchange Commission has adopted new rules and increased enforcement to protect investors and promote market integrity and stability; and

WHEREAS, Other federal agencies, including the Commodity Futures Trading Commission, the Department of Education, the Department of Labor, the Federal Reserve Board, and the Pension Benefit Guaranty Corporation, have adopted new regulations and policies to protect pensions, investments, student loans, and other financial products and services; and

WHEREAS, Various members of the new federal administration and the U.S. Congress are proposing to repeal provisions of the Dodd–Frank Act and weaken other key components of federal regulation of the financial services industry, thereby endangering America's economic security and prosperity; and

WHEREAS, Efforts to reduce the transparency essential to healthy capital markets and weaken the regulatory oversight needed to maintain the integrity of these markets dramatically increase the risk of fraud, market manipulation, and financial crises, putting all Americans at risk; now, therefore,
