11. Description and Purpose of Project (Limit length to visible area)

Utilization of excess land at the Poolesville Golf Course and development of a custom crush facility, new event facility, and 20+acres devoted to a vine incubator. The project will support education through partnerships with the University of Maryland, Universities at Shady Grove, and other educational institutions. It will develop new programs and support existing ones in viticulture and enology science, hospitality, marketing and culinary arts. The goal is to provide residents throughout the State with job skills leading to employment. The project includes an area of land where entrepreneurs who are interested in the wine industry will be able to lease small parcels to start their businesses. This will significantly reduce the barriers to enter into the wine industry by lowering the cost of land and eliminating the cost of equipment.
