(2015 Replacement Volume and 2017 Supplement)

Preamble

WHEREAS, One in five Americans experienced mental illness in the past year, but only 25% of these individuals received effective mental health care; and

WHEREAS, Many of the individuals who experienced mental illness, but did not receive effective mental health care, received care in primary care settings, which is the usual setting in which a majority of individuals receive mental health care; and

WHEREAS, Three decades of research and over 80 randomized control trials have identified one model in particular, the Collaborative Care Model, as being effective in delivering care for substance use and mental health treatment in primary care settings; and

WHEREAS, The Collaborative Care Model consists of three core elements delivered in the primary care practice: care coordination and management; regular, proactive outcome monitoring and treatment for outcome targets using standardized outcome measurement rating scales and electronic tools, such as patient tracking; and regular systematic psychiatric caseload reviews and consultation with a psychiatrist or other psychiatric provider; and

WHEREAS, Economic studies demonstrate that the Collaborative Care Model saves money, with a recent actuarial analysis estimating savings of 5% to 10% of total health care costs for individuals with behavioral health conditions; and

WHEREAS, The Centers for Medicare and Medicaid Services approved reimbursement codes for the Collaborative Care Model in its 2017 Medicare Physician Fee Schedule; and

WHEREAS, Given the potential of the Collaborative Care Model to control costs, improve access and clinical outcomes, and increase patient satisfaction, the Maryland Department of Health indicated its interest in moving forward with a pilot program in its January 2017 response to the Joint Chairmen's Report on Opportunities to Adopt Collaborative Care in the HealthChoice Program; now, therefore,

SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND, That the Laws of Maryland read as follows:

Article – Health – General

15–140.

(A) (1) IN THIS SECTION THE FOLLOWING WORDS HAVE THE MEANINGS INDICATED.

1 (2) “COLLABORATIVE CARE MODEL” MEANS AN EVIDENCE-BASED
2 APPROACH FOR INTEGRATING SOMATIC AND BEHAVIORAL HEALTH SERVICES IN
3 PRIMARY CARE SETTINGS THAT INCLUDES:

4 (I) CARE COORDINATION AND MANAGEMENT;

5 (II) REGULAR, PROACTIVE OUTCOME MONITORING AND
6 TREATMENT FOR OUTCOME TARGETS USING STANDARDIZED OUTCOME
