Preamble

WHEREAS, A 2017 report of the U.S. Department of Health and Human Services Inspector General shows that the State is 7th worst in the nation for on-time investigations of nursing home complaints; and

WHEREAS, The U.S. Department of Health and Human Services Inspector General report shows that the State did not investigate 74% of high-level nursing home complaints within the federal deadline of 10 days; and

WHEREAS, Almost 19 years ago, the U.S. General Accounting Office found that the State did not investigate 79% of high priority nursing home complaints within the federal deadline of 10 days, including investigations not occurring for months despite an urgency in the nature of the complaints; and

WHEREAS, The Maryland Department of Health reported in 2016 that it takes 47 days to initiate an on-site investigation, which demonstrates a lack of commitment to investigating complaints about nursing homes and other facilities; and

WHEREAS, The lack of commitment to investigating complaints regarding nursing homes and other facilities by the State is evident in the longstanding understaffing of nurse surveyors in the Maryland Office of Health Care Quality; and

WHEREAS, There appears to be no commitment to change the deficient and dangerous conditions in terms of the timeliness of investigating nursing home complaints, which affects the health and well-being of vulnerable Marylanders who reside in nursing homes; and

WHEREAS, These conditions cannot be permitted to continue; now, therefore,
