Analysis

Current Law: Commission counties do not have the legislative power to create debt; General Assembly authorization is required before any bonds can be sold. Carroll County is one of six counties that still operate under the commission form of government.

Background: Since 2009, Carroll County has received authorization by the General Assembly to issue up to \$258.7 million in general obligation bonds for public facilities, as shown in **Exhibit 1**. **Exhibit 2** shows the planned capital projects in Carroll County for fiscal 2020.

Local Fiscal Effect: Carroll County revenues increase by up to \$28.5 million from bond proceeds. Annual debt service costs for the bonds total approximately \$1.9 million. This estimate is based on a 2.84% interest rate and a 20-year term of maturity. To the extent that the bond issuance, interest rate, or term of maturity deviate from this assumption, debt service expenditures would adjust accordingly.

At the end of fiscal 2017, Carroll County had approximately \$321.9 million in total outstanding debt, which represents approximately 1.7% of the county's assessable base and \$1,926 on a per capita basis. The county currently has an AAA credit rating from Standard and Poor's, an Aa1 credit rating from Moody's Investors Service, and an AAA credit rating from Fitch Ratings.

Information on local debt measures for Maryland counties and Baltimore City can be found in Chapter 9 of the [*Overview of Maryland Local Governments*](#) report. A copy of the report can be found on the Department of Legislative Services website.
