4 agrees to lease the property back to the county board and, on a specified date, transfer title
5 back to the county board;

6 (ii) Lease–leaseback arrangements, in which a county board leases
7 a property to a private entity that improves the property and leases the property, with the
8 improvements, back to the county board;

9 (iii) Public–private partnership agreements, in which a county board
10 contracts with a county revenue authority or a private entity for the acquisition, design,
11 construction, improvement, renovation, expansion, equipping, or financing of a public
12 school, and may include provisions for cooperative use of the school or an adjacent property
13 and generation of revenue to offset the cost of construction or use of the school;

14 (iv) Performance–based contracting, in which a county board enters
15 into an energy performance contract to obtain funding for a project with guaranteed energy
16 savings over a specified time period;

17 (v) Preference–based arrangements, by which a local governing body
18 gives preference first to business entities located in the county and then to business entities
19 located in other counties in the State for any construction that is not subject to prevailing
20 wage rates under Title 17, Subtitle 2 of the State Finance and Procurement Article;

21 (vi) Design–build arrangements, that permit a county board to
22 contract with a design–build business entity for the combined design and construction of
23 qualified education facilities, including financing mechanisms where the business entity
24 assists the local governing body in obtaining project financing; and

25 (vii) Design–construct–operate–maintain–finance arrangements that
26 permit a county board to contract with a county revenue authority or a private entity for
27 the design, construction, operation, and maintenance of a public school under terms agreed

11 this subsection may include reserves sufficient to cover operation, facility renewal,
