11. Description and Purpose of Project (Limit length to visible area)

The project is to stabilize the building due to the building sinking. When the building was first purchased in the late 90s it had previously been used as an outdoor theater. The management and owners had disposed of trash by burying it onsite, unbeknownst to CAWL when they purchased it. CAWL built their existing building and it starts sinking and was noticed due to cracks on the cement floor. After various fixes it has gotten progressively worse and the building now needs to be jacked up to stabilize it and securing the foundation. The total cost of this is \$52,000.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.
