28. Comments

We have made a difference in Prince Georges County through charitable giving for 55 years. We are parnters with Prince Georges County schools and agencies in assisting those in need. In order to be able to continue providing this support which would otherwise fall to the government to provide, we are requesting assistance to address increases in regulatory activity that we had no way of knowing about and which have significant cost to accomodate.

Prince Georges County Health Department, Fire Marshall, WSSC and EPA regulations are all associated with modifications that need to be completed. We are asking the County Government which we partner with to accomplish a significant amount of charitable giving to assist us in adhering to these new regulations by providing financial assistance to do so.

If we are able to obtain this assistance, we will have a better chance of being able to continue to provide valuable assistance to those in need for many more years.
