State Fire Marshal – Sprinkler Systems Enforcement

This bill requires the State Fire Marshal to enforce any requirements relating to the installation of automatic sprinkler systems in new one- and two-family dwellings.

Fiscal Summary

State Effect: The State Fire Marshal can implement the bill with existing resources.

Local Effect: The bill is not anticipated to materially affect local operations or finances.

Small Business Effect: None.

Analysis

Current Law/Background: The State Fire Marshal must enforce all laws of the State relating to, among other things, the installation and maintenance of *all* kinds of equipment intended to control, detect, or extinguish fire.

The State Fire Prevention Commission within the Department of State Police must adopt comprehensive regulations as a State Fire Prevention Code. The commission adopted by reference, subject to some exceptions noted in the regulations, the National Fire Protection Association (NFPA) 1 Fire Code (2018 Edition), the NFPA 101 Life Safety Code (2018 Edition), and some requirements of the International Building Code as the State Fire Prevention Code.

The Office of the State Fire Marshal advises that it does not currently exercise the authority provided in current law to enforce requirements relating to the installation of automatic

sprinkler systems in new one- and two-family dwellings and believes such authority should be made more explicit.
