29 Section 1–701
30 Annotated Code of Maryland

EXPLANATION: CAPITALS INDICATE MATTER ADDED TO EXISTING LAW.
[Brackets] indicate matter deleted from existing law.
WHEREAS, The State of Maryland has been a leader in addressing issues of environmental justice from the cumulative effects of disparate impacts on historically burdened and disadvantaged communities, which are often low-income communities, and in developing sustainable communities, through the establishment of a Commission on Environmental Justice and Sustainable Communities and other legislation; and

WHEREAS, The State of Maryland has also been a leader in addressing issues of the environmental and economic impacts of climate change, through legislation requiring the State to participate in the Regional Greenhouse Gas Initiative, establishing a Commission on Climate Change, and the concomitant establishment of greenhouse gas emissions reductions for the State; and

WHEREAS, The effects of climate change loom large over our State as a whole, potentially impairing our ability to develop and maintain sustainable communities, but may also have a disproportionately large impact on historically burdened and disadvantaged communities, particularly low-income communities; and

WHEREAS, It would be beneficial to the State to follow the example of New York State, which is pioneering the Climate Leadership and Community Protection Act in response to increasing and cumulative climate impacts that have had a heightened impact on disadvantaged and low-income communities in that state, particularly from acid rain and increased tropical storm impacts; now, therefore,

SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND, That the Laws of Maryland read as follows:
