Small Business Effect: USM has determined that this bill has minimal or no impact on small business (attached). The Department of Legislative Services (DLS) concurs with this assessment.

Analysis

Current Law/Background: USM must gain legislative approval to use academic revenue bond (ARB) proceeds for certain capital improvement projects at academic facilities.

The maximum aggregate principal amount of bonds that USM may issue was increased by \$200.0 million, from \$1.2 billion to \$1.4 billion, by Chapter 357 of 2011. This bill does not affect the cap on bond principal; it only authorizes the issuance of bonds within the existing limit for specific capital projects.

[The Governor's fiscal 2022](#) CIP proposes \$30.0 million in ARBs in fiscal 2022 and \$30.0 million each year from fiscal 2023 through 2026. The proposed amount of debt is consistent with the Capital Debt Affordability Committee recommendation for fiscal 2022.

State Fiscal Effect: USM revenues and expenditures from bond proceeds increase by \$30.0 million in fiscal 2022. The revenues and expenditures are included in the Governor's proposed fiscal 2022 capital budget. Beginning in fiscal 2023, USM expenditures to pay debt service on the ARBs increase by an estimated \$2.5 million annually for 20 years. USM advises that total annual debt service does not increase overall since at least an equal amount of previously authorized debt will be retired. However, DLS advises that, absent the bill, annual debt service payments by USM would decrease as outstanding debt is retired unless new debt is authorized. Thus, debt service costs increase due to the bill.
