Senate Bill 635 (Senator Hayes)
Education, Health, and Environmental Affairs

Minority Business Enterprises – Calculation of Participation Rates – Exemption
for Procurements From Maryland Correctional Enterprises – Repeal

This bill requires each State procurement unit to include the dollar value of its contracts with Maryland Correctional Enterprises (MCE) in the *total* dollar value of its procurements for the purpose of calculating the unit’s performance relative to the State’s minority business enterprise (MBE) goal.

Fiscal Summary

State Effect: The bill is generally procedural in nature and has no direct effect on governmental finances. The bill’s effect on the State’s performance relative to its MBE goal is uncertain, as discussed below.

Local Effect: None.

Small Business Effect: Potential meaningful.

Analysis

Current Law: For an overview of the State’s MBE preference program, please see the **Appendix – Minority Business Enterprise Program**.

State procurement law defines a “preferred provider” to be a provider of supplies or services that is given preference in specified provisions of current State procurement law. Chapter 313 of 2016 consolidated certain procurement preferences such that, currently, a State or State-aided or -controlled entity must buy supplies and services from MCE first, then from Blind Industries and Services of Maryland and finally from the Employment

Works Program, in that order of preference. Only if none of those entities produces or provides the desired supplies or services may a State agency issue a competitive procurement.

An agency's MBE performance for a given fiscal year is derived by dividing the total dollar value of contracts or subcontracts *awarded to MBEs* in a fiscal year (the numerator) by the total dollar value of *all* contracts awarded during the fiscal year (the denominator). In calculating the total dollar value of all contracts awarded (the denominator), an agency does not need to include the dollar value of any contracts awarded to preferred providers (including MCE).

State Fiscal Effect: By including the dollar value of MCE contracts in the total dollar value of all procurements, the bill increases the denominator used to calculate each agency's (and the State's) performance relative to the MBE goal. The bill has no effect on the numerator (value of MBE contracts and subcontracts). As a result, it lowers each agency's (and the State's) performance relative to the MBE goal. As agencies are required to purchase available goods and services from MCE, the bill likely has no effect on MCE sales. Similarly, the bill does not require, nor provide an incentive, for MCE to subcontract more of its business to MBEs.

Instead, the bill creates an incentive for State agencies to increase the use of MBEs on all other contracts to offset the decrease in MBE performance that results from the bill. To the extent that they are able to do so, the bill has little or no effect on agencies' MBE performance relative to the goal. To the extent they are not able to do so, statewide MBE performance relative to the goal decreases.

Small Business Effect: The bill may enhance opportunities for MBEs to participate in State procurement.

Appendix – Minority Business Enterprise Program

The State’s Minority Business Enterprise (MBE) program requires that a statewide goal for MBE contract participation be established biennially through the regulatory process under the Administrative Procedure Act. The biennial statewide MBE goal is established by the Special Secretary for the Governor’s Office of Small, Minority, and Women Business Affairs (GOSBA), in consultation with the Secretary of Transportation and the Attorney General. In a year in which there is a delay in establishing the overall goal, the previous year’s goal applies. The Special Secretary is also required to establish biennial guidelines for State procurement units to consider in deciding whether to establish subgoals for different minority groups recognized in statute. In a year in which there is a delay in issuing the guidelines, the previous year’s guidelines apply.

In August 2013, GOSBA announced a new statewide goal of 29% MBE participation that applied to fiscal 2014 and 2015; as no new goal has been established, the 29% goal remains in effect for fiscal 2021. GOSBA issued subgoal guidelines in July 2011 and then updated them effective August 2020, as summarized in **Exhibit 1**. The guidelines state that subgoals may be used only when the overall MBE goal for a contract is greater than or equal to the sum of all recommended subgoals for the appropriate industry, plus two. In June 2014, new regulations took effect allowing MBE prime contractors to count their own work for up to 50% of a contract’s MBE goal and up to 100% of any contract subgoal. Previously, certified MBE prime contractors could not count their own participation toward any goal or subgoal on an individual contract, but their participation was counted toward the State’s MBE goal.

Exhibit 1 Subgoal Guidelines for Minority Business Enterprise Participation

	<u>Construction</u>	<u>Architectural/ Engineering</u>	<u>Maintenance</u>	<u>Information Technology</u>	<u>Services</u>	<u>Supplies/ Equipment</u>
African American	8%	7%	9%	10%	-	6%
Hispanic	-	-	3%	-	2%	2%
Asian	-	-	2%	-	3%	-
Women	11%	10%	-	10%	10%	8%
Total	19%	17%	14%	20%	15%	16%
Total +2	21%	19%	16%	22%	17%	18%

There are no penalties for agencies that fail to reach the statewide target. Instead, agencies are required to use race-neutral strategies to encourage greater MBE participation in State procurements.

History and Rationale of the Minority Business Enterprise Program

In 1989, the U.S. Supreme Court held in the *City of Richmond v. J.A. Croson Co.* that state or local MBE programs using race-based classifications are subject to strict scrutiny under the equal protection clause of the Fourteenth Amendment to the U.S. Constitution. In addition, the ruling held that an MBE program must demonstrate clear evidence that the program is narrowly tailored to address actual disparities in the marketplace for the jurisdiction that operates the program. As a result, prior to each reauthorization of the State's MBE program, the State conducts a disparity study to determine whether there is continued evidence that MBEs are underutilized in State contracting.

The most recent disparity study was completed in 2017 and serves as the basis for the most recent reauthorization of the MBE program. It found continued and ongoing disparities in the overall annual wages, business earnings, and rates of business formation between nonminority males and minorities and women in Maryland. For instance, average annual wages for African Americans (both men and women) were 37% lower than for comparable nonminority males; average annual wages for nonminority women were 33% lower than for comparable nonminority males. It also found continued disparities in the use of MBEs by the State compared to their availability in the marketplace to perform work in designated categories of work. For instance, African American-owned construction businesses were paid 5.1% of State construction contract dollars, but they made up 10.3% of the construction sector in the relevant State marketplace. Nonminority women-owned construction businesses were paid 7.5% of State construction contract dollars but made up 13.7% of the construction sector. According to the analysis, these differences were large and statistically significant.

The MBE program is scheduled to terminate July 1, 2022; it has been reauthorized eight times since 1990, the latest by Chapter 340 of 2017. **Exhibit 2** provides MBE participation rates for major Executive Branch agencies based on contract awards made during fiscal 2019, the most recent year for which data is available.

Requirements for Minority Business Enterprise Certification

An MBE is a legal entity, other than a joint venture, that is:

- organized to engage in commercial transactions;
- at least 51% owned and controlled by one or more individuals who are socially and economically disadvantaged; and
- managed by, and the daily business operations of which are controlled by, one or more of the socially and economically disadvantaged individuals who own it.

A socially and economically disadvantaged individual is defined as a citizen or legal U.S. resident who is African American, Native American, Asian, Hispanic, physically or mentally disabled, a woman, or otherwise found by the State's MBE certification agency to be socially and economically disadvantaged. An MBE owned by a woman who is also a member of an ethnic or racial minority group may be certified as being owned by both a woman and by a member of a racial or ethnic minority, but for the purpose of participating on a contract as an MBE, it can only be counted as one or the other. The Maryland Department of Transportation is the State's MBE certification agency.

A socially disadvantaged individual is someone who has been subject to racial or ethnic prejudice or cultural bias within American society because of his or her membership in a group and without regard to individual qualities. An economically disadvantaged individual is someone who is socially disadvantaged whose ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities compared with those who are not socially disadvantaged. An individual with a personal net worth in excess of \$1.5 million, adjusted annually for inflation, is not considered economically disadvantaged. The inflation-adjusted limit for calendar 2021 is \$1,788,677.
