2. May not receive any share of the proceeds of the action.

(ii) The dismissal of the person initiating the action in accordance with this paragraph does not prejudice the right of the State to continue the action.

(e) “Overpayment” means a payment that:

§2-702.

(a) Subject to the requirements of this subtitle, the Inspector General, or a contractor or an agent acting on behalf of the Inspector General, may use extrapolation during an audit to recover an overpayment from a provider if:

(1) The federal government has also conducted an audit of the program for overpayment; and

(2) The monetary recovery amount determined to be due by the program to the federal government is based on the federal government's use of extrapolation.

(b) An audit conducted by the Inspector General or a contractor or agent acting on behalf of the Inspector General under subsection (a) of this section shall be limited to the scope of the federal audit, including claims for the same audit time period and the same type of claims.

§2-703.

(a) On a finding of an overpayment to a provider, the Inspector General may not use extrapolation unless there is a determination of a sustained or high level of payment error, as defined by regulation.

(b) When using extrapolation to determine an overpayment, the sample to be used may not include claims:

(1) In which the alleged overpayment would have no fiscal impact on the entire sample;

(2) That were submitted in accordance with the Department's, Inspector General's, or program's directives, policies, guidelines, or regulations; or

(3) That are the result of an unintentional overlap in services among unrelated providers caused by circumstances beyond the control of the provider that is subject to the audit, in which case the Inspector General may recover the original overpayment.

§2-704.

(a) The Inspector General or a contractor or an agent of the Inspector General that conducts an audit under this subtitle in which extrapolation may be used shall:

(1) Perform the audit in accordance with a methodology used by the federal government or conducted in accordance with Generally Accepted Auditing Standards (GAAS) and the Statement on Accounting Standards (SAS);

(2) The individual included in the audit team under paragraph (1) of this subsection shall have significant knowledge of the audited procedure but is not required to be in the same specialty or practice area as the audited provider.

(2) During the exit conference, the Inspector General shall:

(i) Present the provider with the audit draft written findings and conclusions and the estimated amount of recovery due as a result of overpayment to the provider; and

(ii) Give the provider the following information in writing:

1. A clear description of the universe from which the sample was drawn;

2. The sample size and the method used to select the sample;

3. The formulas and calculation procedures used to determine the amount to be recovered;

4. The list of claims that were reviewed;

5. A description of each claim, noting the errors that resulted in an overpayment; and

6. A specific list of the regulations, statutes, and transmittals on which the Inspector General relied in determining that the claim was improper.

(3) (i) A provider may challenge the draft findings and conclusions within 30 days after the exit conference unless, because of the size and scope of the audit, the provider:

1. Has negotiated a longer period with the Inspector General through a mutual good faith process; and

2. Has submitted additional information regarding the claims to the Inspector General.

(ii) The additional information submitted under subparagraph (i) of this paragraph may include evidence showing that:

1. The claims used in the sample were either paid properly or paid in accordance with § 2–703 of this subtitle; or

2. The audit does not meet applicable requirements or reach valid findings and conclusions.

(4) Failure to challenge the draft findings and conclusions contained in the preliminary report does not preclude a provider from appealing the final report and recovery letter under subsection (d) of this section.

(c) (1) The Inspector General shall review any additional documentation submitted by the provider under subsection (b) of this section or presented at any time during the audit.

(2) After review of any additional documentation submitted by the provider, the Inspector General shall, when appropriate, recalculate the error rate used in extrapolation and issue its final report and recovery letter.

(3) The final report and recovery letter shall state that the provider has 30 days after the date of the recovery letter to appeal the findings in the report in accordance with § 2–207 of this title, Title 10, Subtitle 2 of the State Government Article, and COMAR 10.01.03 and 28.02.01.

(d) (1) On appeal, the provider may present evidence of a second audit using the same sampling methodology but based on a different sample of claims identified and produced by the Inspector General.

(2) On request of the provider, the Inspector General shall provide a new sample of claims to the provider within 30 days after receipt of the request.

(3) The provider shall have 60 days after receipt of the new sample to conduct the audit and provide the results to the Inspector General, unless the provider has negotiated a longer period with the Inspector General.

(4) The Inspector General may review the provider's audit for compliance with the requirements of this subtitle.

(e) The recovery shall be stayed until completion of the administrative appeal process.

(f) This subtitle does not limit a provider from challenging the accuracy of the Inspector General's audit, including:

- (1) The statistical and extrapolation methodology used in the audit;
- (2) The credentials of any individual who performed or reviewed the audit; or
- (3) Any other reasonable basis.

(g) (1) The Department may adopt the findings of the federal government, including the error rate, if the federal government conducts an audit that:

- (i) Concludes that a provider received an overpayment;
 - (ii) Uses an error rate that is specific to a single provider;
 - (iii) Derives the overpayment from a statistically valid sample;
- and
- (iv) Provides all supporting documentation of the audit.

(2) If the Department adopts the findings of the federal government, the Department shall provide to the provider a copy of the federal government's audit report and supporting documentation with the preliminary recovery letter stating the amount due to the State and the provider's appeal rights.

(3) (i) Within 30 days after receipt of the preliminary recovery letter, the provider may challenge the draft findings and conclusions unless, due to the size and scope of the audit, the provider:

1. Has negotiated a longer period with the Inspector General through a mutual good faith process; and
2. Has submitted additional information to the Inspector General.

(ii) The additional information submitted under subparagraph (i) of this paragraph may include evidence showing that:

1. The claims used in the sample were either paid properly or paid in accordance with § 2-703 of this subtitle; or

2. The audit did not meet applicable requirements or reach valid findings and conclusions.

(4) Failure to challenge the draft findings and conclusions contained in the preliminary recovery letter does not preclude a provider from appealing the final report and recovery letter under subsection (d) of this section.

(h) This subtitle does not apply to audits conducted in response to federal audits initiated before October 1, 2016.

§5–602.1.

(a) In this section, “mental health services” has the meaning stated in § 4–301(k)(1) of this article.

Maryland Advance Directive:

Planning for Future Health Care Decisions

By: _____ Date of Birth: _____
(Print Name) (Month/Day/Year)

Using this advance directive form to do health care planning is completely optional. Other forms are also valid in Maryland. No matter what form you use, talk to your family and others close to you about your wishes.

This form has two parts to state your wishes, and a third part for needed signatures. Part I of this form lets you answer this question: If you cannot (or do not want to) make your own health care decisions, who do you want to make them for you? The person you pick is called your health care agent. **Make sure you talk to your health care agent (and any back-up agents) about this important role.** Part II lets you write your preferences about efforts to extend your life in three situations: terminal condition, persistent vegetative state, and end-stage condition. In addition to your health care planning decisions, you can choose to become an organ donor after your death by filling out the form for that too.

You can fill out Parts I and II of this form, or only Part I, or only Part II. Use the form to reflect your wishes, then sign in front of two witnesses (Part III). If your wishes change, make a new advance directive.

Make sure you give a copy of the completed form to your health care agent, your doctor, and others who might need it. Keep a copy at home in a place where someone can get it if needed. Review what you have written periodically.

PART I: SELECTION OF HEALTH CARE AGENT

A. Selection of Primary Agent

I select the following individual as my agent to make health care decisions for me:

Name: _____

Address: _____

Telephone Numbers: _____

(home and cell)

B. Selection of Back-up Agents

(Optional; form valid if left blank)

1. If my primary agent cannot be contacted in time or for any reason is unavailable or unable or unwilling to act as my agent, then I select the following person to act in this capacity:

Name:

Address:

Telephone

Numbers: _____

(home and cell)

2. If my primary agent and my first back-up agent cannot be contacted in time or for any reason are unavailable or unable or unwilling to act as my agent, then I select the following person to act in this capacity:

Name:

Address:

Telephone

Numbers: _____

(home and cell)

C. Powers and Rights of Health Care Agent

I want my agent to have full power to make health care decisions for me, including the power to:

1. Consent or not consent to medical procedures and treatments which my doctors offer, including things that are intended to keep me alive, like ventilators and feeding tubes;

2. Decide who my doctor and other health care providers should be; and

3. Decide where I should be treated, including whether I should be in a hospital, nursing home, other medical care facility, or hospice program.

I also want my agent to:

1. Ride with me in an ambulance if ever I need to be rushed to the hospital;
and
2. Be able to visit me if I am in a hospital or any other health care facility.

This advance directive does not make my agent responsible for any of the costs of my care.

This power is subject to the following conditions or limitations:
(Optional; form valid if left blank)

D. How My Agent Is to Decide Specific Issues

I trust my agent's judgment. My agent should look first to see if there is anything in Part II of this advance directive that helps decide the issue. Then, my agent should think about the conversations we have had, my religious or other beliefs and values, my personality, and how I handled medical and other important issues in the past. If what I would decide is still unclear, then my agent is to make decisions for me that my agent believes are in my best interest. In doing so, my agent should consider the benefits, burdens, and risks of the choices presented by my doctors.

E. People My Agent Should Consult
(Optional; form valid if left blank)

In making important decisions on my behalf, I encourage my agent to consult with the following people. By filling this in, I do not intend to limit the number of people with whom my agent might want to consult or my agent's power to make these decisions.

Name(s)	Telephone Number(s)
<hr/>	
<hr/>	

F. In Case of Pregnancy

(Optional, for women of child-bearing years only; form valid if left blank)

If I am pregnant, my agent shall follow these specific instructions:

G. Access to My Health Information – Federal Privacy Law (HIPAA) Authorization

1. If, prior to the time the person selected as my agent has power to act under this document, my doctor wants to discuss with that person my capacity to make my own health care decisions, I authorize my doctor to disclose protected health information which relates to that issue.

2. Once my agent has full power to act under this document, my agent may request, receive, and review any information, oral or written, regarding my physical or mental health, including, but not limited to, medical and hospital records and other protected health information, and consent to disclosure of this information.

3. For all purposes related to this document, my agent is my personal representative under the Health Insurance Portability and Accountability Act (HIPAA). My agent may sign, as my personal representative, any release forms or other HIPAA-related materials.

H. Effectiveness of This Part

(Read both of these statements carefully. Then, initial one only.)

My agent's power is in effect:

1. Immediately after I sign this document, subject to my right to make any decision about my health care if I want and am able to.

((or))

2. Whenever I am not able to make informed decisions about my health care, either because the doctor in charge of my care (attending physician) decides that I have lost this ability **temporarily**, or my attending physician and a consulting doctor agree that I have lost this ability **permanently**.

If the only thing you want to do is select a health care agent, skip Part II. Go to Part III to sign and have the advance directive witnessed. If you also want to write your treatment preferences, use Part II. Also consider becoming an organ donor, using the separate form for that.

PART II: TREATMENT PREFERENCES (“LIVING WILL”)

A. Statement of Goals and Values
(Optional; form valid if left blank)

I want to say something about my goals and values, and especially what's most important to me during the last part of my life:

B. Preference in Case of Terminal Condition
(If you want to state your preference, initial one only. If you do not want to state a preference here, cross through the whole section.)

If my doctors certify that my death from a terminal condition is imminent, even if life-sustaining procedures are used:

1. Keep me comfortable and allow natural death to occur. I do not want any medical interventions used to try to extend my life. I do not want to receive nutrition and fluids by tube or other medical means.

((or))

2. Keep me comfortable and allow natural death to occur. I do not want medical interventions used to try to extend my life. If I am unable to take enough nourishment by mouth, however, I want to receive nutrition and fluids by tube or other medical means.

((or))

3. Try to extend my life for as long as possible, using all available interventions that in reasonable medical judgment would prevent or delay my death. If I am unable to take enough nourishment by mouth, I want to receive nutrition and fluids by tube or other medical means.

C. Preference in Case of Persistent Vegetative State

(If you want to state your preference, initial one only. If you do not want to state a preference here, cross through the whole section.)

If my doctors certify that I am in a persistent vegetative state, that is, if I am not conscious and am not aware of myself or my environment or able to interact with others, and there is no reasonable expectation that I will ever regain consciousness:

1. Keep me comfortable and allow natural death to occur. I do not want any medical interventions used to try to extend my life. I do not want to receive nutrition and fluids by tube or other medical means.

((or))

D. Preference in Case of End-Stage Condition

(If you want to state your preference, initial one only. If you do not want to state a preference here, cross through the whole section.)

If my doctors certify that I am in an end-stage condition, that is, an incurable condition that will continue in its course until death and that has already resulted in loss of capacity and complete physical dependency:

1. Keep me comfortable and allow natural death to occur. I do not want any medical interventions used to try to extend my life. I do not want to receive nutrition and fluids by tube or other medical means.

((or))

2. Keep me comfortable and allow natural death to occur. I do not want medical interventions used to try to extend my life. If I am unable to take enough nourishment by mouth, however, I want to receive nutrition and fluids by tube or other medical means.

((or))

3. Try to extend my life for as long as possible, using all available interventions that in reasonable medical judgment would prevent or delay my death. If I am unable

to take enough nourishment by mouth, I want to receive nutrition and fluids by tube or other medical means.

E. Pain Relief

No matter what my condition, give me the medicine or other treatment I need to relieve pain.

F. In Case of Pregnancy

(Optional, for women of child-bearing years only; form valid if left blank)

If I am pregnant, my decision concerning life-sustaining procedures shall be modified as follows:

—

—

—

—

G. Effect of Stated Preferences

(Read both of these statements carefully. Then, initial one only.)

1. I realize I cannot foresee everything that might happen after I can no longer decide for myself. My stated preferences are meant to guide whoever is making decisions on my behalf and my health care providers, but I authorize them to be flexible in applying these statements if they feel that doing so would be in my best interest.

((or))

2. I realize I cannot foresee everything that might happen after I can no longer decide for myself. Still, I want whoever is making decisions on my behalf and my health care providers to follow my stated preferences exactly as written, even if they think that some alternative is better.

§5-604.

(a) (1) Except as provided in paragraph (2) of this subsection, an advance directive may be revoked at any time by a declarant by a signed and dated written or electronic document, by physical cancellation or destruction, by an oral statement to a health care practitioner or by the execution of a subsequent directive.

(2) A declarant, knowingly and voluntarily, may elect in an advance directive to waive the right under paragraph (1) of this subsection to revoke any part or all of the advance directive, including the appointment of an agent, during a period in which the declarant has been certified incapable of making an informed decision under § 5–602(e) of this subtitle.

(b) If a declarant revokes an advance directive by an oral statement to a health care practitioner, the practitioner and a witness to the oral revocation shall document the substance of the oral revocation in the declarant’s medical record.

(c) It shall be the responsibility of the declarant, to the extent reasonably possible, to notify any person to whom the declarant has provided a copy of the directive.

§5–604.1.

(a) An advance directive may contain a statement by a declarant that the declarant consents to the gift of all or any part of the declarant’s body for any one or more of the purposes specified in Title 4, Subtitle 5 of the Estates and Trusts Article.

(b) Notwithstanding any other provision of law, an anatomical gift in an advance directive is valid and effective for all purposes under Title 4, Subtitle 5 of the Estates and Trusts Article, including the immunity from civil or criminal liability set forth in § 4–514 of the Estates and Trusts Article.

§5–605.

(a) (1) (i) In this subsection the following words have the meanings indicated.

(ii) “Person eligible for relief” has the meaning stated in § 4–501 of the Family Law Article.

(iii) “Unavailable” means:

1. After reasonable inquiry, a health care provider is unaware of the existence of a health care agent or surrogate decision maker;

2. After reasonable inquiry, a health care provider cannot ascertain the whereabouts of a health care agent or surrogate decision maker;

3. A health care agent or surrogate decision maker has not responded in a timely manner, taking into account the health care needs of the individual, to a written or oral message from a health care provider;

4. A health care agent or surrogate decision maker is incapacitated; or

5. A health care agent or surrogate decision maker is unwilling to make decisions concerning health care for the individual.

(2) Subject to paragraph (4) of this subsection, the following individuals or groups, in the specified order of priority, may make decisions about health care for a person who has been certified to be incapable of making an informed decision and who has not appointed a health care agent in accordance with this subtitle or whose health care agent is unavailable. Individuals in a particular class may be consulted to make a decision only if all individuals in the next higher class are unavailable:

(i) A guardian for the patient, if one has been appointed;

(ii) The patient's spouse or domestic partner;

(iii) An adult child of the patient;

(iv) A parent of the patient;

(v) An adult brother or sister of the patient; or

(vi) A friend or other relative of the patient who meets the requirements of paragraph (3) of this subsection.

(3) A friend or other relative may make decisions about health care for a patient under paragraph (2) of this subsection if the person:

(i) Is a competent individual; and

(ii) Presents an affidavit to the attending physician stating:

1. That the person is a relative or close friend of the patient; and

2. Specific facts and circumstances demonstrating that the person has maintained regular contact with the patient sufficient to be familiar with the patient's activities, health, and personal beliefs.

(5) The attending physician shall include the affidavit presented under paragraph (3) of this subsection in the patient's medical record.

(6) A person who obtains new information that would prohibit an individual from making health care decisions for a patient under paragraph (4) of this subsection shall provide the information to any health care provider or health care facility providing services to the patient.

(b) (1) If persons with equal decision making priority under subsection (a) of this section disagree about a health care decision, and a person who is incapable of making an informed decision is receiving care in a hospital or related institution, the attending physician or an individual specified in subsection (a) of this section shall refer the case to the institution's patient care advisory committee, and may act in accordance with the recommendation of the committee or transfer the patient in accordance with the provisions of § 5-613 of this subtitle. A physician who acts in accordance with the recommendation of the committee is not subject to liability for any claim based on lack of consent or authorization for the action.

(2) If a person who is incapable of making an informed decision is not in a hospital or related institution, a physician may not withhold or withdraw life-sustaining procedures if there is not agreement among all the persons in the same class.

(c) (1) Any person authorized to make health care decisions for another under this section shall base those decisions on the wishes of the patient and, if the wishes of the patient are unknown or unclear, on the patient's best interest.

(2) In determining the wishes of the patient, a surrogate shall consider the patient's:

(4) A surrogate shall inform the patient, to the extent possible, of the proposed procedure and the fact that someone else is authorized to make a decision regarding that procedure.

(d) A surrogate may not authorize:

(1) Sterilization; or

(2) Treatment for a mental disorder.

§5-606.

(a) (1) Prior to providing, withholding, or withdrawing treatment for which authorization has been obtained or will be sought under this subtitle, the attending physician and a second physician or a nurse practitioner, one of whom shall have examined the patient within 2 hours before making the certification, shall certify in writing that the patient is incapable of making an informed decision

regarding the treatment. The certification shall be based on a personal examination of the patient.

(2) If a patient is unconscious, or unable to communicate by any means, the certification of a second physician or a nurse practitioner is not required under paragraph (1) of this subsection.

(3) When authorization is sought for treatment of a mental illness, the second physician or the nurse practitioner may not be otherwise currently involved in the treatment of the person assessed.

(4) The cost of an assessment to certify incapacity under this subsection shall be considered for all purposes a cost of the patient's treatment.

(b) A health care provider may not withhold or withdraw life-sustaining procedures on the basis of an advance directive where no agent has been appointed or on the basis of the authorization of a surrogate, unless:

(1) The patient's attending physician and a second physician or a nurse practitioner have certified that the patient is in a terminal condition or has an end-stage condition; or

(2) Two physicians, one of whom is a neurologist, neurosurgeon, or other physician who has special expertise in the evaluation of cognitive functioning, certify that the patient is in a persistent vegetative state.

(3) The attending physician determines that:

(i) There is a substantial risk of death or immediate and serious harm to the patient; and

(4) An order contained in a “Medical Orders for Life–Sustaining Treatment” form.

(d) (1) Except as provided in paragraph (2) of this subsection, in addition to the immunity provided in § 5–609 of this subtitle and any other immunity provided by law, an emergency medical services provider is not subject to criminal or civil liability, or deemed to have engaged in unprofessional conduct as determined by the appropriate licensing or certifying authority, arising out of a claim concerning the provision of health care if:

§11–102.

The Interstate Compact on Mental Health is enacted into law and entered into with all other states joining in it in the form substantially as it appears in § 11-103 of this title.

§11–103.

The contracting states solemnly agree that:

Article I

The party states find that the proper and expeditious treatment of the mentally ill and mentally deficient can be facilitated by cooperative action, to the benefit of the patients, their families, and society as a whole. Further, the party states find that the necessity of and desirability for furnishing such care and treatment bear no primary relation to the residence or citizenship of the patient but that, on the contrary, the controlling factors of community safety and humanitarianism require that facilities

and services be made available for all who are in need of them. Consequently, it is the purpose of this compact and of the party states to provide the necessary legal basis for the institutionalization or other appropriate care and treatment of the mentally ill and mentally deficient under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states in terms of such welfare.

Article II

As used in this compact:

(1) "Sending state" shall mean a party state from which a patient is transported pursuant to the provisions of the compact or from which it is contemplated that a patient may be so sent.

(2) "Receiving state" shall mean a party state to which a patient is transported pursuant to the provisions of the compact or to which it is contemplated that a patient may be so sent.

(3) "Institution" shall mean any hospital or other facility maintained by a party state or political subdivision thereof for the care and treatment of mental illness or mental deficiency.

(4) "Patient" shall mean any person subject to or eligible as determined by the laws of the sending state, for institutionalization or other care, treatment, or supervision pursuant to the provisions of this compact.

(5) "After-care" shall mean care, treatment and services provided a patient, as defined herein, on convalescent status or conditional release.

(6) "Mental illness" shall mean mental disease to such extent that a person so afflicted requires care and treatment for his own welfare, or the welfare of others, or of the community.

(7) "Mental deficiency" shall mean mental deficiency as defined by appropriate clinical authorities to such extent that a person so afflicted is incapable of managing himself and his affairs, but shall not include mental illness as defined herein.

(8) "State" shall mean any state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

Article III

(a) Whenever a person physically present in any party state shall be in need of institutionalization by reason of mental illness or mental deficiency, he shall be eligible for care and treatment in an institution in that state irrespective of his residence, settlement or citizenship qualifications.

(b) The provisions of paragraph (a) of this article to the contrary notwithstanding, any patient may be transferred to an institution in another state whenever there are factors based upon clinical determinations indicating that the care and treatment of said patient would be facilitated or improved thereby. Any such institutionalization may be for the entire period of care and treatment or for any portion or portions thereof. The factors referred to in this paragraph shall include the patient's full record with due regard for the location of the patient's family, character of the illness and probable duration thereof, and such other factors as shall be considered appropriate.

(c) No state shall be obliged to receive any patient pursuant to the provisions of paragraph (b) of this article unless the sending state has given advance notice of its intention to send the patient; furnished all available medical and other pertinent records concerning the patient; given the qualified medical or other appropriate clinical authorities of the receiving state an opportunity to examine the patient if said authorities so wish; and unless the receiving state shall agree to accept the patient.

(d) In the event that the laws of the receiving state establish a system of priorities for the admission of patients, an interstate patient under this compact shall receive the same priority as a local patient and shall be taken in the same order and at the same time that he would be taken if he were a local patient.

(e) Pursuant to this compact, the determination as to the suitable place of institutionalization for a patient may be reviewed at any time any such further transfer of the patient may be made as seems likely to be in the best interest of the patient.

Article IV

(a) Whenever, pursuant to the laws of the state in which a patient is physically present, it shall be determined that the patient should receive after-care or supervision, such care or supervision may be provided in a receiving state. If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state shall have reason to believe that after-care in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of affording the patient such after-care in said receiving state, and such investigation shall be made with all reasonable

speed. The request for investigation shall be accompanied by complete information concerning the patient's intended place of residence and the identity of the person in whose charge it is proposed to place the patient, the complete medical history of the patient, and such other documents as may be pertinent.

(b) If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state and the appropriate authorities in the receiving state find that the best interest of the patient would be served thereby, and if the public safety would not be jeopardized thereby, the patient may receive after-care or supervision in the receiving state.

(c) In supervising, treating, or caring for a patient on after-care pursuant to the terms of this article, a receiving state shall employ the same standards of visitation, examination, care, and treatment that it employs for similar local patients.

Article V

Whenever a dangerous or potentially dangerous patient escapes from an institution in any party state, that state shall promptly notify all appropriate authorities within and without the jurisdiction of the escape in a manner reasonably calculated to facilitate the speedy apprehension of the escapee. Immediately upon the apprehension and identification of any such dangerous or potentially dangerous patient, he shall be detained in the state where found pending disposition in accordance with law.

Article VI

The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the patient shall be permitted to transport any patient being moved pursuant to this compact through any and all states party to this compact, without interference.

Article VII

(a) No person shall be deemed a patient of more than one institution at any given time. Completion of transfer of any patient to an institution in a receiving state shall have the effect of making the person a patient of the institution in the receiving state.

(b) The sending state shall pay all costs of and incidental to the transportation of any patient pursuant to this compact, but any two or more party states may, by making a specific agreement for that purpose, arrange for a different allocation of costs as among themselves.

(c) No provision of this compact shall be construed to alter or affect any internal relationships among the departments, agencies and officers of and in the government of a party state, or between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

(d) Nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to any provision of this compact.

(e) Nothing in this compact shall be construed to invalidate any reciprocal agreement between a party state and a non-party state relating to institutionalization, care or treatment of the mentally ill, mentally deficient, or any statutory authority pursuant to which such agreement may be made.

Article VIII

(a) Nothing in this compact shall be construed to abridge, diminish, or in any way impair the rights, duties, and responsibilities of any patient's guardian on his own behalf or in respect of any patient for whom he may serve, except that where the transfer of any patient to another jurisdiction makes advisable the appointment of a supplemental or substitute guardian, any court of competent jurisdiction in the receiving state may make such supplemental or substitute appointment and the court which appointed the previous guardian shall upon being duly advised of the new appointment, and upon the satisfactory completion of such accounting and other acts as such court may by law require, relieve the previous guardian of power and responsibility to whatever extent shall be appropriate in the circumstances; provided, however, that in the case of any patient having settlement in the sending state, the court of competent jurisdiction in the sending state shall have the sole discretion, to relieve a guardian appointed by it or continue his power and responsibility, whichever it shall deem advisable. The court in the receiving state may in its discretion, confirm or reappoint the person or persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.

(b) The term "guardian" as used in paragraph (a) of this article shall include any guardian, trustee, legal committee, conservator, or other person or agency however denominated who is charged by law with power to act for or responsibility for the person or property of a patient.

Article IX

(a) No provision of this compact except Article V shall apply to any person institutionalized while under sentence in a penal or correctional institution or while subject to trial on a criminal charge, or whose institutionalization is due to the

commission of an offense for which, in the absence of mental illness or mental deficiency, said person would be subject to incarceration in a penal or correctional institution.

(b) To every extent possible, it shall be the policy of states party to this compact that no patient shall be placed or detained in any prison, jail or lockup, but such patient shall, with all expedition, be taken to a suitable institutional facility for mental illness or mental deficiency.

Article X

(a) Each party state shall appoint a “compact administrator” who, on behalf of his state, shall act as general coordinator of activities under the compact in his state and who shall receive copies of all reports, correspondence, and other documents relating to any patient processed under the compact by his state either in the capacity of sending or receiving state. The compact administrator or his duly designated representative shall be the official with whom other party states shall deal in any matter relating to the compact or any patient processed thereunder.

(b) The compact administrators of the respective party states shall have power to promulgate reasonable rules and regulations to carry out more effectively the terms and provisions of this compact.

Article XI

The duly constituted administrative authorities of any two or more party states may enter into supplementary agreements for the provision of any service or facility or for the maintenance of any institution on a joint or cooperative basis whenever the states concerned shall find that such agreements will improve services, facilities, or institutional care and treatment in the fields of mental illness or mental deficiency. No such supplementary agreement shall be construed so as to relieve any party state of any obligation which it otherwise would have under other provisions of this compact.

Article XII

This compact shall enter into full force and effect as to any state when enacted by it into law and such state shall thereafter be a party thereto with any and all states legally joining therein.

Article XIII

(a) A state party to this compact may withdraw therefrom by enacting a statute repealing the same. Such withdrawal shall take effect one year after notice

thereof has been communicated officially and in writing to the governors and compact administrators of all other party states. However, the withdrawal of any state shall not change the status of any patient who has been sent to said state or sent out of said state pursuant to the provisions of the compact.

(b) Withdrawal from any agreement permitted by Article VII (b) as to costs or from any supplementary agreement made pursuant to Article XI shall be in accordance with the terms of such agreement.

Article XIV

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

§11–104.

(b) If a supplementary agreement requires or contemplates the use of any institution or facility of this State or the provision of any service by this State, the

agreement is not effective until approved by the head of the agency under whose jurisdiction the institution or facility is operated or whose agency will be charged with providing the service.

§11–106.

The Compact Administrator may make or arrange for any payment necessary to discharge a financial obligation that is imposed on this State by the Interstate Compact on Mental Health or by any supplementary agreement entered into under the Compact.

§13-1502.

(a) The General Assembly finds that:

(1) Children in the State face an array of preventable exposures to environmental hazards in their schools, homes, and communities;

(2) In certain cases children are at greater risk than adults for exposure to and possible illness from environmental hazards because children:

(i) Have a decreased ability to detoxify certain substances;

(ii) Have a greater sensitivity to environmental hazards during the stages of development and growth as a result of their immature body organs and tissues and immature immune systems;

(iii) Have different exposure behavior patterns, such as hand-to-mouth behavior, spending a greater amount of time outdoors near hazards, and spending more time on the floor and on the ground where contaminants can concentrate; and

(iv) Take in a greater amount of contaminants due to their eating proportionately more food, breathing proportionately more air, and drinking proportionately more fluids than adults;

(3) Higher rates of poverty are one of the factors that place children of ethnic and minority communities at disproportionate risk for environmental exposures, due to inadequate housing, poor nutrition, and limited access to health care;

(4) Solutions to complex environmental health problems require the ongoing communication, collaboration, and cooperation of affected communities and many disciplines including science, medicine, public health, economics, planning, law, and policy; and

(5) As recommended by the Advisory Council on Environmental Justice in its report pursuant to Chapter 741 of the Acts of the General Assembly of 1997, as amended, it is necessary to assess the impacts of State policies, programs, and activities on affected communities and, in this instance, children are the affected community.

(b) (1) The General Assembly recognizes its responsibilities:

(i) To enable all children to grow up in a safe and healthy environment; and

(ii) To use its resources to ensure that every child is provided with an environmentally safe and healthy learning environment in which to grow, develop, and mature into a productive and healthy adult.

(2) The General Assembly seeks to meet these responsibilities by creating an Advisory Council to:

(i) Identify environmental hazards that may affect children's health; and

§20–1602.

This subtitle may not be construed to require a covered entity to make a referral or recommendation for or perform a medically inappropriate organ transplant.

§20–1603.

The General Assembly finds that:

(1) A mental or physical disability does not diminish an individual's right to health care;

(2) The federal Americans with Disabilities Act prohibits discrimination against individuals with disabilities, yet many individuals with disabilities still experience discrimination in accessing critical health care services;

(3) In other states nationwide, individuals with mental and physical disabilities have historically been denied life-saving organ transplants based on assumptions that their lives are less worthy, that they are incapable of complying with posttransplantation medical requirements, or that they lack adequate support systems to ensure compliance with posttransplantation medical requirements;

(4) Although organ transplant centers must consider medical and psychosocial criteria when determining if a patient is suitable to receive an organ transplant, transplant centers that participate in Medicare, the Maryland Medical Assistance Program, and other federally funded programs are required to use patient selection criteria that result in a fair and nondiscriminatory distribution of organs; and

(5) State residents in need of organ transplants are entitled to assurances that they will not encounter discrimination on the basis of a disability.

§20–1604.

This subtitle applies to each part of the organ transplant process.

§20–1605.

(a) A covered entity may not solely on the basis of an individual's disability:

(1) Consider a qualified individual ineligible to receive an anatomical gift or organ transplant;

(2) Deny medical and other services related to organ transplantation, including evaluation, surgery, counseling, and posttransplantation treatment and services;

(3) Refuse to refer the individual to a transplant center or a related specialist for the purpose of evaluation or receipt of an organ transplant;

(4) Refuse to place a qualified individual on an organ transplant waiting list; or

(5) Place a qualified individual at a lower-priority position on an organ transplant waiting list than the position at which the qualified individual would have been placed if not for the disability.

(b) (1) Subject to paragraph (2) of this subsection, a covered entity may take an individual's disability into account when making treatment or coverage recommendations or decisions, solely to the extent that the disability has been found by a physician, following an individualized evaluation of the individual, to be medically significant to the provision of the anatomical gift.

(2) If an individual has the necessary support system to assist the individual in complying with posttransplantation medical requirements, a covered entity may not consider the individual's inability to independently comply with the posttransplantation medical requirements to be medically significant for the purposes of paragraph (1) of this subsection.

(c) A covered entity shall make reasonable modifications in policies, practices, or procedures, when the modifications are necessary to allow an individual with a disability access to services, including transplantation-related counseling, information, coverage, or treatment, unless the covered entity can demonstrate that making the modifications would fundamentally alter the nature of the services.

(d) A covered entity shall take such steps as may be necessary to ensure that an individual with a disability is not denied services, including transplantation-related counseling, information, coverage, or treatment, due to the absence of auxiliary aids and services, unless the covered entity can demonstrate that taking the steps would fundamentally alter the nature of the services being offered or would result in an undue burden.

§20-1606.

(a) If a covered entity violates this subtitle, the affected individual may bring an action in the appropriate circuit court for injunctive or other equitable relief.

(b) In an action brought under subsection (a) of this section, the circuit court shall:

(1) Schedule a hearing as soon as possible; and

(2) Apply the same standards in rendering a judgment in the action as would be applied in an action brought in federal court under the federal Americans with Disabilities Act.

§20–1701.

(a) A health care provider licensed in the State who draws the blood of a patient to perform a laboratory test for Lyme disease or a medical laboratory, as defined in § 17–201 of this article, that performs a laboratory test for the presence of Lyme disease shall provide the following written notice to the patient at the time the patient’s blood is drawn:

“Your health care provider has ordered a laboratory test for the presence of Lyme disease for you. Current laboratory testing for Lyme disease can be problematic and standard laboratory tests often result in false negative and false positive results and, if done too early, you may not have produced enough antibodies to be considered positive because your immune response requires time to develop antibodies. If you are tested for Lyme disease and the results are negative, this does not necessarily mean you do not have Lyme disease. If you continue to experience unexplained symptoms, you should contact your health care provider and inquire about the appropriateness of retesting or initial or additional treatment.”.

(b) If the Department finds significant differences between the content of the notice required by subsection (a) of this section and current medical evidence on Lyme disease testing, the Department may adopt regulations that change the content of the notice.

(c) The Department shall provide written notice to the Senate Finance Committee and the House Health and Government Operations Committee before submitting any proposed regulation under subsection (b) of this section to the Maryland Register for publication.

(d) The provision by a health care provider or medical laboratory of the notice required by subsection (a) of this section may not be the sole basis for a cause of action.

(3) It is in package form and it does not bear a label that contains the name and place of business of the manufacturer, packer, or distributor;

(4) Any word, statement, or other information required under this subtitle to appear on its labeling is not placed prominently on the labeling in a manner that is:

(i) Conspicuous, as compared with other words, statements, designs, or devices on the labeling; and

(ii) In terms likely to be read and understood by the ordinary individual under customary conditions of purchase and use;

(5) It purports to be or is represented as a food for which a definition and standard of identity has been set by a rule or regulation as provided under § 21-237 of this subtitle and:

(i) The food does not conform to the definition or standard; or

(ii) Its label either does not bear the name of the food specified in the definition and standard or, contrary to the rule or regulation, it does not bear the common name of an optional ingredient, other than spices, flavoring, and coloring, that is in the food;

(6) It purports to be or is represented as a food for which a standard of quality has been set by a rule or regulation under § 21-237 of this subtitle and its quality falls below that standard, unless its label bears, in the manner and form that the rule or regulation specifies, a statement that the food falls below the standard;

(7) It is not subject to item (5) of this subsection and does not bear labeling that clearly gives:

(i) The common or usual name of the food, if there is such a name; and

(ii) Except as provided under subsections (d) and (e) of this section, if the food is made from 2 or more ingredients, the common or usual name of each ingredient;

(8) It purports to be or is represented for special dietary uses, unless its label bears the information about its vitamin, mineral, and other dietary properties that the Secretary determines by a rule or regulation adopted under § 21-213 of this subtitle to be necessary to inform purchasers fully of its value for those uses;

(9) Except as provided under subsections (c) and (e) of this section, it contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling that states that fact;

(10) It is a color additive and its packaging and labeling do not conform to the applicable requirements of the federal act;

(11) After it was manufactured, processed, or packaged, the food was in a frozen state and it then is offered for sale in an unfrozen state, unless its labeling clearly and conspicuously states that the food was previously frozen and should not be refrozen;

(12) It is a product that:

(i) Is intended to be used as an ingredient of another food; and

(ii) If used according to the directions of the supplier, would result in the final food product being adulterated or misbranded; or

(13) It is offered for sale under the name of another food.

(c) As they relate to the use of artificial coloring, the provisions of subsection (b)(7), (9), and (10) of this section do not apply to butter, cheese, or ice cream.

(d) Notwithstanding the provisions of subsection (b)(7)(ii) of this section, regarding the labeling requirements for a food that is made from 2 or more ingredients, spices, flavorings, and coloring ingredients may be designated as “spices”, “flavorings”, and “colorings”, without naming each specific item. However, this exception does not apply if the food product itself is sold as a spice, flavoring, or food coloring.

(e) (1) If, as applied to a particular food, compliance with the requirement that each of the 2 or more ingredients in the food be set forth in its labeling is impractical or results in deception or unfair competition, the Secretary shall adopt a rule or regulation that exempts that food product from the provisions of subsection (b)(7)(ii) of this section.

(2) If, as applied to a particular food product, it is impractical to comply with the requirement that the labeling disclose the presence of an artificial flavoring, an artificial coloring, or a chemical preservative, the Secretary shall adopt a rule or regulation that, to the extent appropriate, exempts that food product from any appropriate provision of subsection (b)(9) of this section.

§21–211.

(a) By the issuance, denial, or suspension of permits as provided in this section, the Secretary may regulate the distribution in this State of any class of food that may be contaminated with microorganisms.

(b) (1) The Secretary shall adopt rules and regulations that provide for the issuance of permits to food manufacturers, processors, or packers in any locality if, on investigation, the Secretary finds:

(i) That the distribution in this State of any class of food manufactured, processed, or packed in that locality may be injurious to health because of possible contamination with microorganisms; and

(ii) That the danger imposed by the food normally would not be determinable after the food has entered commerce.

(2) For whatever temporary period of time that may be necessary, the rules and regulations shall specify the conditions necessary to govern the manufacturing, processing, and packing of the class of food in question in order to protect the public from the dangers imposed by that food. These conditions shall be attached to and be considered part of any permit that is issued under this section.

(c) A person may not introduce or deliver for introduction into commerce in this State any food that was manufactured, processed, or packed by an establishment that was required by rule or regulation adopted under this section to hold a permit, unless each manufacturer, processor, and packer of the food held the required permit.

(d) (1) At any reasonable time, a representative of the Secretary may enter any establishment that holds a permit issued under this section and inspect the establishment to determine if it is in compliance with the permit conditions.

(2) If access for inspection is denied to a representative of the Department who is acting under this subsection, the Secretary may suspend the permit of the establishment involved until access is allowed.

(e) (1) If the Secretary finds that an establishment has violated any condition of a permit issued under this section, the Secretary may suspend the permit immediately after giving notice to the permit holder.

(2) The holder of a suspended permit may apply to the Secretary at any time for reinstatement of the permit.

(3) On receipt of an application for reinstatement, the Secretary shall hold a hearing and have the establishment inspected.

(4) If the Secretary finds that adequate measures have been taken to assure compliance with the permit, the Secretary immediately shall reinstate the permit:

(i) As originally issued; or

(ii) With any amendment that, under the provisions of this section, the Secretary considers proper.

§21-212.

(c) In addition to the State adopted federal rules and regulations, the Secretary shall adopt rules and regulations to exempt from the labeling requirements of this subtitle any food that is to be transported in substantial quantities from one establishment to another, if:

(1) In accordance with the practice of the trade, the food is to be processed, labeled, or repacked at the second establishment; and

(2) The Secretary has a reasonable basis to believe that the food will not be misbranded or adulterated when it is removed from the second establishment.

§21-213.

(a) Subject to the provisions of § 21-241 of this subtitle, any special dietary use rule or regulation that is adopted by the federal government under the federal act automatically is adopted as a rule or regulation of this State.

(b) Whether or not in accordance with any rule or regulation adopted under the federal act, the Secretary may adopt special dietary use rules or regulations if the Secretary finds that it is necessary to inform purchasers of the value of a food for special dietary use.

§21-214.

(1) Any part of its container is composed of any poisonous or otherwise deleterious substance that reasonably would be expected to have caused the drug to be injurious to health;

(4) Any substance has been substituted for any part of the drug;

(7) Although not purported to be a drug recognized in an official compendium, the strength of the drug differs from, or the quality or purity of the drug falls below that which the drug purports to possess.

(d) (1) For purposes of administering subsection (c)(6) of this section, any determination as to whether the strength of a drug differs from or as to whether its quality or purity falls below the standard set in an official compendium shall be made in accordance with the tests or methods of assay set forth in the official compendium, or, in the absence of or inadequacy of those tests or methods of assay, those provided under the federal act.

(2) (i) Except as provided in subparagraph (ii) of this paragraph, if a drug is recognized in both the United States Pharmacopoeia and National

Formulary and in the Homeopathic Pharmacopoeia of the United States, it is subject to the requirements of the United States Pharmacopoeia and National Formulary.

(ii) If the drug is labeled and offered for sale as a homeopathic drug, it is subject to the provisions of the Homeopathic Pharmacopoeia of the United States and not to those of the United States Pharmacopoeia and National Formulary.

3. Unsafe dosages, methods of administration, or duration of administration of the drug or device;

(6) It is dangerous to health when used in the dosage, with the frequency, or for the duration specified, recommended, or suggested in the labeling of the drug or device; or

(7) The trademark, trade name, imprint, symbol, or other identifying mark of another drug or any likeness of any of these markings of another drug or device is placed on the drug or device or its container with the intent to defraud.

(i) A rule or regulation adopted under the federal act; or

(ii) A rule or regulation adopted by the Secretary under this subsection.

(2) If the Secretary finds that, as applied to a particular drug or device, any requirement of subsection (b)(5)(i) of this section is not necessary for the protection of the public health, the Secretary shall adopt a rule or regulation to exempt the drug or device from that requirement.

(2) It has an established name and, to the exclusion of any other nonproprietary name except the applicable systematic chemical name or the chemical formula of the drug, its label does not bear the established name of the drug;

(ii) The Secretary may not adopt a rule or regulation under subparagraph (i) of this paragraph before the Secretary has informed the appropriate body that is charged with the revision of the official compendium of the need for the packaging or labeling requirements and that body has failed to adopt the requirements within a reasonable time.

§21–219.

(a) A drug or device is not subject to the labeling or packaging requirements of this subtitle if a rule or regulation is adopted under the federal act or as provided under this section to exempt it.

(b) The Secretary shall adopt rules and regulations to exempt from the labeling requirements of this subtitle any drug or device that is to be transported in substantial quantities from one establishment to another, if in accordance with the practice of the trade, the drug or device is to be processed, labeled, or repacked at the second establishment.

§21–220.

(a) A drug that is intended for use by human beings and is in any of the following classifications may be dispensed by a pharmacist only on a written prescription, an electronic prescription, as defined in § 5–101 of the Criminal Law Article, or an oral prescription from a health practitioner authorized by law to prescribe the drug:

(1) A habit-forming drug to which § 21–218(b)(1) of this subtitle applies.

(2) A drug that because of its toxicity or other potentiality for harmful effect, the method of its use, or the collateral measures necessary to its use, is not safe for use except under the supervision of a health practitioner who is authorized by law to administer such a drug.

(3) A drug that is limited by an approved application under § 355 of the federal act or § 21–223 of this subtitle to use under the professional supervision of a health practitioner authorized by law to administer such a drug.

(b) (1) Subject to paragraph (2) of this subsection and subsection (c) of this section, a prescription may be written or oral or made through an electronic prescription.

(2) A pharmacist may not dispense a drug on an oral prescription unless the pharmacist promptly writes out and files the prescription.

(c) (1) Except as provided in paragraph (2) of this subsection, a health practitioner authorized by law to prescribe a controlled dangerous substance within the meaning of Title 5 of the Criminal Law Article shall issue a prescription for a controlled dangerous substance using an electronic prescription, as defined in § 5–101 of the Criminal Law Article.

(2) A health practitioner may issue a written or, if authorized by State and federal law, oral prescription for a controlled dangerous substance only if:

(xv) The prescription is issued by a health practitioner under circumstances in which, although the practitioner has the ability to issue an electronic prescription as required by paragraph (1) of this subsection, the health practitioner reasonably determines that:

1. It would be impracticable for the practitioner to prescribe the drug or device by electronic prescription in a timely manner; and

2. The delay would adversely impact the patient's medical condition.

(3) This subsection may not be construed to limit the right of a patient to designate a specific pharmacy to dispense a prescribed drug or device to the individual.

(d) (1) The Secretary shall adopt regulations, in collaboration with the Maryland Health Care Commission, to establish a process for the Department to issue a waiver from the electronic prescription requirements in subsection (c)(1) of this section.

(ii) The circumstances under which a health practitioner is exempt from the requirement to issue an electronic prescription under subsection (c)(1) of this section because the prescription will be dispensed by a pharmacy located outside the State.

(e) The appropriate health occupations board established under the Health Occupations Article may take disciplinary action against a health practitioner who violates subsection (c) of this section.

(f) (1) A pharmacist may dispense a drug on a written or oral prescription for a controlled dangerous substance that meets the requirements of this section.

(2) A pharmacist who receives a written or oral prescription is not required to verify that the prescription is an authorized exception to the electronic prescription requirement under subsection (c)(2) of this section.

(g) (1) If a prescription for a controlled dangerous substance within the meaning of Title 5 of the Criminal Law Article is written, it may not be written on a preprinted prescription form that states the name, quantity, or strength of the controlled dangerous substance.

(2) When a prescription is written, a separate prescription form is required for each controlled dangerous substance. If a pharmacist is otherwise satisfied that a prescription is valid the pharmacist may fill the prescription if the pharmacist promptly writes out and files a prescription for each substance and also files the original prescription.

(3) A written prescription shall be legible.

(h) A pharmacist may not refill and dispense a prescription unless the refilling is authorized by:

(1) The health practitioner's specification in the original prescription as to how many times it may be refilled; or

(2) An oral order of the health practitioner that promptly is written out and filed by the pharmacist.

(i) The dispensing of a drug without complying with the requirements of this section is the dispensing of a misbranded drug.

(j) (1) A drug that is subject to the prescription requirements of this section is misbranded if, at any time before it is dispensed, its label does not bear the statement "Caution: Federal Law Prohibits Dispensing Without Prescription", or "Caution: State Law Prohibits Dispensing Without Prescription".

(2) A drug to which the prescription requirements of this section do not apply is misbranded if, at any time before it is dispensed, its label bears the caution statement quoted in paragraph (1) of this subsection.

(k) (1) The prescription requirements of this section do not apply to any drug that is exempted under a rule or regulation adopted by the Secretary.

(2) The Secretary, by rule or regulation, may exempt any drug from the requirements of this section if the Secretary finds that, as to the drug, the requirements of this section are not necessary for the protection of the public health.

(3) The Secretary, by rule and regulation, may exempt from the requirements of this section any drug that is removed from the prescription requirements of the federal act by a rule or regulation adopted under that act.

§21-222.

Nothing in § 21-220 or § 21-221 of this subtitle relieves any person from any requirement imposed by law with respect to any drug that is classified as a controlled

dangerous substance within the meaning of Title 5 of the Criminal Law Article or the applicable federal law.

§21–223.

(a) This section does not apply to any drug that:

(1) Was sold in this State or introduced into interstate commerce at any time before the enactment of the federal act, if its labeling contained the same representations concerning the conditions of its use; or

(2) Is licensed under the Public Health Service Act of July 1, 1944 or under the Animal Virus, Serum, Toxin, Antitoxin Act of March 4, 1913.

(b) A person may not sell, give away, or deliver any new drug:

(1) Unless an approved application for the drug is in effect under § 355 of the federal act; or

(2) Unless an application has been approved by the Secretary and is in effect under this section, if the drug is not subject to the federal act.

(c) To have an application approved by the Secretary, an applicant shall file with the Secretary an application that sets forth:

(1) Full reports of the investigations that have been made to show whether the drug is safe for use and whether the drug is effective in use;

(2) A full statement of the composition of the drug;

(3) A full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of the drug;

(4) Any sample of the drug and of any article used as a component of the drug that the Secretary requires; and

(5) A specimen of the labeling that is proposed to be used for the drug.

(d) The Secretary may not approve an application filed under this section unless the drug has been tested and, under the conditions specified, recommended, or suggested in the proposed labeling of the drug, has been found to be safe for and effective in use.

(e) An application filed with the Secretary under this section shall be considered approved on the 180th day after it is filed, unless before that day and after giving the applicant notice and an opportunity for a hearing, the Secretary issues an order of disapproval under subsection (f) of this section on a finding that:

(1) The drug has not been tested properly, as required by subsection (d) of this section;

(2) Under the conditions specified, recommended, or suggested in the proposed labeling of the drug, it is not safe for or effective in use;

(3) The methods used in, and the facilities and controls used for, the manufacture, processing, and packing of the drug are inadequate to preserve its identity, strength, quality, and purity; or

(4) Based on a fair evaluation of all material facts, the proposed labeling is false or misleading in any way.

(1) Keep records; and

(2) Submit reports to the Secretary.

(i) (1) The Secretary may adopt rules and regulations that apply generally to persons whose applications for drugs have been approved or, as to a particular person whose application has been approved, issue an order that requires an applicant:

(ii) The investigator will not supply the drug to any other investigator, or to any clinic, for administration to a human being; and

(3) The manufacturer of a new drug or the sponsor of the investigation of the drug keep records of, and make reports to the Secretary of, the information obtained from the investigational use of the drug, including analytical reports by investigators, as the Secretary finds will assist in the evaluation of the safety and effectiveness of the drug if an application for the drug is filed under § 21-223 of this subtitle.

(3) If the information submitted by the petitioner is not sufficient to allow the Secretary to determine whether, under the standards set forth in subsection (e) of this section, the rule or regulation should be adopted, the Secretary may require that additional information be submitted. Failure by the petitioner to comply with the Secretary's request is a sufficient ground to deny the petition.

The tag or other marking also shall warn all persons not to remove or dispose of the article, by sale or otherwise, until permission for removal or disposal is given by the Secretary, an authorized agent of the Secretary, or a court.

(d) (1) The Secretary may proceed further against any article as to which there is a ground for action by filing a petition for an order with the circuit court for the county in which the article is located. The petition may request any relief permitted by this subsection.

(2) If the court finds that there is a valid ground for action against the article, the court may proceed by issuing an order:

- (i) Of forfeiture for destruction; or

(ii) To have the article delivered to its claimant and have the violation corrected by proper labeling or processing.

(3) If the court issues an order of forfeiture for destruction, the article shall be destroyed under the supervision of the Secretary and the owner shall pay all court, storage, and destruction costs, and any other cost that is incurred through the enforcement of this subtitle against the article.

The views of the alleged violator may be presented by counsel.

(c) If the Secretary believes that there has been a violation of this subtitle, but that the violation was minor and the public interest would be served adequately in the circumstances by a written notice or warning, the Secretary may issue a written notice or warning instead of reporting the violation to the State's Attorney.

§24-604.

(b) (1) State funds may be used only for the construction, acquisition, renovation, and equipping of facilities including the reports, plans, specifications, site improvements, surveys, and other related programs.

(2) Any federal grant that is available for this purpose shall be applied first to the cost of construction, acquisition, renovation, or equipping of a facility.

(3) A State grant shall provide up to 75% of the eligible cost remaining after the federal grant has been applied.

(4) For projects designated under federal regulations, State plans, or the departmental regulations as eligible for poverty area funding, State grants shall amount to up to 90% of the eligible cost remaining after the federal grant has been applied.

(5) For purposes of this subtitle, community development block grant funds shall be considered as local matching funds and may not be considered as federal grant funds.

(c) The amount of the State grant for any project shall be determined after consideration of all eligible applications, the total of unallocated State funds available at the time the application is received, and the priorities of area need as may be established by the Department.

(d) (1) No portion of the proceeds of a State grant may be used:

(c) The Board may adopt regulations for receiving and considering applications and for disbursing funds to applicants.

§24-606.

(a) In accordance with this section, the State:

(1) Shall have the right to recover funds disbursed under this subtitle; and

(2) May not:

(i) Recover funds disbursed under this subtitle from the federal government if the federal government is the lessor of real property on which a project is constructed or a facility is operated; or

(ii) Create a lien against real property that is leased from the federal government on which a project is constructed or a facility is operated.

(b) Subject to subsection (a)(2) of this section, in the event of failure to complete a project or failure to commence operation of a facility, the State may recover from the recipient of the funds disbursed for the project or facility or the owner of the property an amount equal to the amount of State funds disbursed for the project, together with all costs and reasonable attorneys' fees incurred by the State in the recovery proceedings.

(c) Subject to subsection (a)(2) of this section, if, within 30 years after completion of a project, a community mental health facility, addiction facility, or developmental disabilities facility with respect to which funds have been paid under this subtitle is sold or transferred to any person, agency, or organization that would not qualify as an applicant under this subtitle, or that is not approved as a transferee by the Board of Public Works, or if, within the same period, a community mental health facility, addiction facility, or developmental disabilities facility ceases to be a "facility" as defined in this subtitle, then the State may recover from either the transferor or transferee or, in the case of a community mental health facility, addiction facility, or developmental disabilities facility that has ceased to be a "facility" as defined in this subtitle, from the owner, an amount bearing the same ratio to the then current fair market value of so much of the property as constituted an approved project as the amount of the State participation bore to the total eligible cost of the approved project, together with all costs and reasonable attorneys' fees incurred by the State in the recovery proceedings.

(d) (1) The Department shall cause notice of the State's right of recovery to be recorded in the land records of the county or Baltimore City in which the property is located before the State makes any funds available for the approved project.

(2) The recording of the notice shall not create any lien against the property; however, subject to subsection (a)(2) of this section, it shall constitute notice to any potential transferee, potential creditor, or other interested party of the possibility that the State may obtain a lien under this subtitle.

(e) (1) In the event of a failure to complete the project or commence operations of the facility as described in subsection (b) of this section, or in the event of an alleged sale or transfer as described in subsection (c) of this section, or in the event that a property is alleged to have ceased to be a “facility” as defined in this subtitle, the Secretary of the Board of Public Works may authorize the Department to file, in the circuit court of the county or Baltimore City in which the property is located, a claim under this subtitle (styled as a civil action against the owner of the property and any other interested parties, including any transferor that the State wishes to make a party), together with a sworn affidavit stating facts on which the allegations of default are based, as well as a detailed justification of the amount claimed.

(2) If the circuit court determines from the State’s initial filing that there is probable cause to believe that a default has occurred, the court shall authorize a temporary lien on the property, in the amount of the State’s claim, plus any additional amount estimated to be necessary to cover the costs and reasonable attorney’s fees incurred by the State, or other amounts as the court determines to be reasonable, pending full determination of the State’s claim.

(3) The temporary lien takes effect on the date of the court’s authorization if the State records a notice of temporary lien in the land records of the county or Baltimore City in which the property is located within 10 days thereafter; otherwise, the temporary lien takes effect on the date a notice of temporary lien is recorded. While the temporary lien is in effect, neither the owner nor any person who acquired an interest in the property after the State first made funds available in connection with the property under this subtitle may take any action that would affect the title to the property or institute any proceedings to enforce a security interest or other similar rights in the property, without the prior written consent of the State.

(4) The owner of the property or any other interested party may obtain release of this temporary lien at any time by filing with the court a bond securing the payment in full of the State’s claim any additional amount necessary to cover the costs and reasonable attorneys’ fees incurred by the State. The owner or other interested party may cause the release to be recorded in the land records.

(f) (1) Proceedings to determine the State’s right to recover and the amount of its recovery under this subtitle shall have priority over other civil proceedings in the circuit courts.

(2) At the conclusion of full adversary proceedings on the issue of default and on any disputes over the amount of the State’s recovery, the circuit court shall, if it finds that a default has occurred, issue a final judgment for the amount it

finds to be recoverable by the State. All parties involved in the default, including in every case the owner of the property, shall be held jointly and severally liable to the State for the amount of the judgment. This amount, if it remains unpaid after the expiration of 30 days following the court's final order, shall be a lien on the property, superior (except as the State may by written subordination agreement provide otherwise) to the lien or other interest of any mortgagee, pledgee, purchaser, or judgment creditor whose interest became perfected against third persons after the State first made funds available in connection with the property under this subtitle.

(3) This lien takes effect on the 31st day following the court's final order if the State records a notice of lien in the land records of the county or Baltimore City in which the property is located on or before the 41st day following the final order; otherwise, the lien takes effect on the date a notice of lien is recorded. At the time this lien takes effect, any temporary lien then in effect shall be automatically and fully released, and the recorded notice of this lien shall constitute notice of the release of the temporary lien.

(4) This lien may be enforced and foreclosed in accordance with the procedures prescribed in the Maryland Rules, except that neither the State nor any agent appointed by the State to sell the property need file a bond.

(5) The owner or any other interested party may obtain release of this lien at any time by paying the State the full amount of the judgment rendered by the circuit court, together with interest from the date of judgment. On payment in full, the State shall cause a release to be recorded in the land records.

(6) If the circuit court finds that there has been no default or if the full amount of the court's judgment is paid to the State within 30 days after the court's final order, any temporary lien then in effect shall be released immediately and the State shall cause a release to be recorded in the land records.

(g) (1) All funds recovered as a result of the State's right of recovery shall be deposited in the Annuity Bond Fund and applied to the debt service requirements of the State.

(2) The Board of Public Works may waive the State's right of recovery if the Board determines that there is good cause for releasing the transferor, transferee, or owner from this obligation.

(b) State funds may be used to acquire an existing building or part of a building for use as an adult day care center, or to plan, design, and construct an adult day care center, only if the local government and the Department certify to the Board of Public Works that no surplus school building or other public building appropriate for use as an adult day care center exists in the area where it is desired to locate a center.

(c) Any federal or other grant that is received for an eligible project shall be applied first to the cost of the project.

(d) Except as provided in subsections (e) and (f) of this section, a State grant may not exceed \$400,000 or 50 percent of the cost of eligible work remaining unpaid after all federal and other grants have been applied, whichever is less.

(e) At the discretion of the Board of Public Works, a State grant may exceed 50 percent of the cost of eligible work remaining unpaid after all federal and other grants have been applied, if:

(1) The project involves the conversion of a public building or part of a building to an adult day care center, the renovation of an adult day care center, or the planning, design, and construction of an adult day care center;

(2) The value of real property and improvements made available by the local government, or the value of the center to be renovated, equals or exceeds the amount of the State grant;

(4) The State is not responsible for any bonded indebtedness in connection with any real property and improvements made available by the local government or any building to be converted or renovated.

(f) For a project designated under federal regulations, State plans, or departmental regulations as eligible for poverty area funding, a State grant may cover up to 75 percent of the cost of eligible work remaining unpaid after all federal and other grants have been applied.

(g) The amount of the State grant for any project shall be determined after consideration of all eligible applications, the total of unallocated State funds available at the time the application is received, and the priorities of area need as may be established by the Department.

(h) No portion of the proceeds of a State grant may be used for the furtherance of sectarian religious instruction, or in connection with the design, acquisition, or construction of any building used or to be used as a place of sectarian religious worship or instruction, or in connection with any program or department of divinity for any religious denomination. Upon the request of the Board of Public Works, the applicant shall submit evidence satisfactory to the Board that none of the proceeds of the grant have been or are being used for a purpose prohibited by this subtitle.

§24-705.

(a) The Board of Public Works shall make allocations from funds available under this subtitle in accordance with this subtitle.

(b) The Board shall certify the allocations to the proper State officers, and the Treasurer shall make payments to or on behalf of the applicant, when needed, for the approved project.

(c) The Board of Public Works may adopt regulations to implement this section.

§24-706.

(a) If, within 30 years after completion of a project, a property with respect to which funds have been paid under this subtitle is sold or transferred to any person, agency, or organization that would not qualify as an applicant under this subtitle, or that is not approved as a transferee by the Board of Public Works, or if, within the same period, the property ceases to be a “facility” as defined in this subtitle, then the State may recover from either the transferor or transferee or, in the case of a property that has ceased to be a “facility” as defined in this subtitle, from the owner, an amount bearing the same ratio to the then-current value of so much of the property as constituted an approved project as the amount of the State participation bore to the total eligible cost of the approved project, together with all costs and reasonable attorneys’ fees incurred by the State in the recovery proceedings.

(b) (1) Before the State makes any funds available for an approved project, the Department shall cause a notice of this right of recovery to be recorded in the land records of the county or Baltimore City in which the property is located.

(2) The recording of the notice:

(i) Does not create any lien against the property; but

(ii) Shall constitute notice to any potential transferee, potential transferor, potential creditor, or other interested party of the possibility that the State may obtain a lien under this subtitle.

(c) (1) In the event of an alleged sale or transfer as described in subsection (b) of this section, or in the event that a property is alleged to have ceased to be a “facility” as defined in this subtitle, the Secretary of the Board of Public Works may file, in the circuit court for the county or Baltimore City in which the property is located, a claim under this subtitle (styled as a civil action against the owner of the property and any other interested parties, including any transferor that the State wishes to make a party), together with sworn affidavits stating facts on which the allegations of default are based, as well as a detailed justification of the amount claimed.

(2) If the circuit court determines from the State’s initial filing that there is probable cause to believe that a default has occurred, the court shall authorize a temporary lien on the property, in the amount of the State’s claim (plus any additional amount estimated to be necessary to cover the costs and reasonable attorneys’ fees incurred by the State) or in other amounts as the court determines to be reasonable, pending full determination of the State’s claim.

(3) The temporary lien shall take effect on the date of the court’s authorization if the Secretary of the Board of Public Works records a notice of temporary lien in the land records of the county or Baltimore City in which the property is located within 10 days thereafter, otherwise, the temporary lien shall take effect on the date a notice of temporary lien is recorded. While the temporary lien is in effect, neither the owner nor any person who acquired an interest in the property after the State first made funds available in connection with the property under this subtitle, may take any action that would affect the title to the property or institute any proceedings to enforce a security interest or other similar rights in the property, without the prior written consent of the State.

(4) The owner of the property or any other interested party may obtain release of this temporary lien at any time by filing with the court a bond securing the payment in full of the State’s claim and any additional amount necessary to cover the costs and reasonable attorneys’ fees incurred by the State. The owner or other interested party may cause the release to be recorded in the land records.

(d) (1) Proceedings to determine the State’s right to recover and the amount of its recovery under this subtitle shall have priority over other civil proceedings in the circuit courts.

(2) At the conclusion of full adversary proceedings on the issue of default and on any disputes over the amount of the State’s recovery, the circuit court

shall, if it finds that a default has occurred, issue a final judgment for the amount it finds to be recoverable by the State. All parties involved in the default, including in every case the owner of the property, shall be held jointly and severally liable to the State for the amount of the judgment. This amount, if it remains unpaid after the expiration of 30 days following the court's final order, shall be a lien on the property, superior (except as the State may by written subordination agreement provide otherwise) to the lien or other interest of any mortgagee, pledgee, purchaser, or judgment creditor whose interest became perfected against third persons after the State first made funds available in connection with the property under this subtitle.

(3) This lien takes effect on the 31st day following the court's final order if the Secretary of the Board of Public Works records a notice of lien in the land records of the county or Baltimore City in which the property is located on or before the 41st day following the final order, otherwise, the lien takes effect on the date a notice of lien is recorded. At the time this lien takes effect, any temporary lien then in effect shall be automatically and fully released, and the recorded notice of this lien shall constitute notice of the release of the temporary lien.

(4) This lien may be enforced and foreclosed in accordance with the procedures prescribed in the Maryland Rules, except that neither the State nor any agent appointed by the State to sell the property need file a bond.

(5) The owner or any other interested party may obtain release of this lien at any time by paying to the State the full amount of the judgment rendered by the circuit court, together with interest from the date of judgment. On payment in full, the Secretary of the Board of Public Works shall cause a release to be recorded in the land records.

(6) If the circuit court finds that there has been no default or if the full amount of the court's judgment is paid to the State within 30 days after the court's final order, any temporary lien then in effect shall be released immediately and the Secretary of the Board of Public Works shall cause the release to be recorded in the land records.

(e) (1) All funds recovered as a result of this right of recovery shall be deposited in the Annuity Bond Fund and applied to the debt service requirements of the State.

(2) The Board of Public Works may waive the State's right of recovery if the Board determines that there is good cause for releasing the transferor, transferee, or owner from this obligation.

(a) The State may recover from either the transferor or transferee or, in the case of a property that has ceased to be a “facility”, from the owner, an amount bearing the same ratio to the then current value of so much of the property as constituted an approved project as the amount of the State participation bore to the total eligible cost of the approved project, together with all costs and reasonable attorney’s fees incurred by the State in the recovery proceedings, if, within 30 years after completion of a project, a property for which funds have been paid under this subtitle:

(1) Is sold or transferred to any person, agency, or organization that would not qualify as an applicant under this subtitle, or that is not approved as a transferee by the Board of Public Works; or

(2) Ceases to be a “facility” as defined in this subtitle.

(b) (1) Before the State makes any funds available for an approved project, the Department shall cause a notice of this right of recovery to be recorded in the land records of the county or Baltimore City in which the property is located.

(2) The recording of the notice:

(i) Does not create a lien against the property; but

(ii) Shall constitute notice to any potential transferee, potential transferor, potential creditor, or other interested party of the possibility that the State may obtain a lien under this subtitle.

(c) (1) (i) The Secretary of the Board of Public Works may file a civil claim under subsection (b) of this section, in the circuit court for the county or Baltimore City in which the property is located, against the owner of the property and any other interested parties, including any transferor that the State wishes to make a party.

(ii) The claim shall be filed with:

1. Sworn affidavits stating facts on which the allegations of default are based; and

2. A detailed justification of the amount claimed.

(2) If the circuit court determines from the State's initial filing that there is probable cause to believe that a default has occurred, pending full determination of the State's claim, the court shall authorize a temporary lien on the property:

(i) In the amount of the State's claim plus any additional amount estimated to be necessary to cover the costs and reasonable attorney's fees incurred by the State; or

(ii) In other amounts that the court determines to be reasonable.

(3) (i) A temporary lien shall take effect:

1. On the date of the court's authorization, if the Secretary of the Board of Public Works records a notice of temporary lien in the land records of the county or Baltimore City in which the property is located within 10 days after the court's authorization; or

2. On the date a notice of temporary lien is recorded.

(ii) While the temporary lien is in effect, neither the owner nor any person who acquired an interest in the property after the State first made funds available in connection with the property may without the prior written consent of the State:

1. Take any action that would affect the title to the property; or

2. Institute any proceedings to enforce a security interest or other similar rights in the property.

(4) (i) The owner of the property or any other interested party may obtain release of a temporary lien at any time by filing with the court a bond securing the payment in full of the State's claim and any additional amount necessary to cover the costs and reasonable attorney's fees incurred by the State.

(ii) The owner or other interested party may cause the release to be recorded in the land records.

(d) Proceedings to determine the State's right to recover and the amount of its recovery under this subtitle shall have priority over other civil proceedings in the circuit courts.

(e) (1) (i) At the conclusion of full adversary proceedings on the issue of default and of any disputes over the amount of the State's recovery, the circuit court shall, if it finds that a default has occurred, issue a final judgment for the amount it finds to be recoverable by the State.

(ii) All parties involved in the default, including in every case the owner of the property, shall be held jointly and severally liable to the State for the amount of the judgment.

(2) (i) Except as the State may otherwise provide by a written subordination agreement, if the amount of the final judgment remains unpaid after 30 days following the court's final order, the final judgment shall constitute a lien on the property, superior to the lien or other interest of a mortgagee, pledgee, purchaser, or judgment creditor whose interest became perfected against third persons after the State first made funds available under this subtitle.

(ii) 1. Except as provided in item 2 of this item, a lien takes effect on the date a notice of lien is recorded.

2. A lien takes effect on the 31st day following the court's final order if the Secretary of the Board of Public Works records a notice of lien in the land records of the county or Baltimore City in which the property is located on or before the 41st day following the final order.

(3) (i) The owner or any other interested party may obtain release of a lien at any time by paying to the State the full amount of the judgment rendered by the circuit court, together with interest from the date of judgment.

(ii) On payment in full, the Secretary of the Board of Public Works shall cause a release to be recorded in the land records.

(4) If the circuit court finds that there has been no default or if the full amount of the court's judgment is paid to the State within 30 days after the court's final order, a temporary lien then in effect shall be released immediately and the Secretary of the Board of Public Works shall cause the release to be recorded in the land records.

(a) The State may recover from either the transferor or transferee or, in the case of a property that has ceased to be a community dental clinic, from the owner, an amount bearing the same ratio to the then current value of so much of the property as constituted an approved project as the amount of the State participation bore to the total eligible cost of the approved project, together with all costs and reasonable attorney's fees incurred by the State in the recovery proceedings, if, within 30 years after completion of a project, a property for which funds have been paid under this subtitle:

(1) Is sold or transferred to any person, agency, or organization that would not qualify as an applicant under this subtitle, or that is not approved as a transferee by the Board of Public Works; or

(2) Ceases to be a community dental clinic as defined in this subtitle.

(b) (1) Before the State makes any funds available for an approved project, the Department shall cause a notice of this right of recovery to be recorded in the land records of the county or Baltimore City where the property is located.

(2) The recording of the notice:

(i) Does not create a lien against the property; but

(ii) Shall constitute notice to any potential transferee, potential transferor, potential creditor, or other interested party of the possibility that the State may obtain a lien under this subtitle.

(c) (1) (i) The Secretary of the Board of Public Works may file a civil complaint authorized under subsection (a) of this section, in the circuit court for the county or Baltimore City where the property is located, against the owner of the property and any other interested parties, including any transferor that the State wishes to make a party.

(ii) The complaint shall be filed with:

1. Sworn affidavits stating facts on which the allegations of default are based; and

2. A detailed justification of the amount claimed.

(2) If the circuit court determines from the State's initial filing that a default has occurred, pending full determination of the State's claim, the court shall authorize a temporary lien on the property:

(i) In the amount of the State's complaint plus any additional amount estimated to be necessary to cover the costs and reasonable attorney's fees incurred by the State; or

(ii) In other amounts that the court determines to be reasonable.

(3) (i) A temporary lien shall take effect:

1. On the date of the court's authorization, if the Secretary of the Board of Public Works records a notice of temporary lien in the land records of the county or Baltimore City where the property is located within 10 days after the court's authorization; or

2. On the date a notice of temporary lien is recorded.

(ii) While the temporary lien is in effect, neither the owner nor any person that acquired an interest in the property after the State first made funds available in connection with the property may, without the prior written consent of the State:

1. Take any action that would affect the title to the property; or

2. Institute any proceedings to enforce a security interest or other similar rights in the property.

(4) (i) The owner of the property or any other interested party may obtain release of a temporary lien at any time by filing with the court a bond securing the payment in full of the State's claim and any additional amount necessary to cover the costs and reasonable attorney's fees incurred by the State.

(ii) The owner or other interested party may cause the release to be recorded in the land records.

(d) Proceedings to determine the State's right to recover and the amount of the State's recovery under this subtitle shall have priority over other civil proceedings in the circuit courts.

(e) (1) (i) At the conclusion of full adversary proceedings on the issue of default and of any disputes over the amount of the State's recovery, the circuit court shall, if it finds that a default has occurred, issue a final judgment for the amount the circuit court finds to be recoverable by the State.

(ii) All parties involved in the default, including in every case the owner of the property, shall be held jointly and severally liable to the State for the amount of the judgment.

(2) (i) Except as the State may otherwise provide by a written subordination agreement, if the amount of the final judgment remains unpaid after 30 days following the court's final order, the final judgment shall constitute a lien on the property, superior to the lien or other interest of a mortgagee, pledgee, purchaser, or judgment creditor whose interest became perfected against third persons after the State first made funds available under this subtitle.

(ii) 1. Except as provided in subparagraph 2 of this subparagraph, a lien takes effect on the date a notice of lien is recorded.

2. A lien takes effect on the 31st day following the court's final order if the Secretary of the Board of Public Works records a notice of lien in the land records of the county or Baltimore City where the property is located on or before the 41st day following the final order.

(iii) 1. At the time that a lien takes effect, any temporary lien then in effect shall be automatically and fully released.

2. The recorded notice of a lien shall constitute notice of the release of a temporary lien.

(iv) A lien imposed under this subsection may be enforced and foreclosed in accordance with the procedures prescribed in the Maryland Rules, except that neither the State nor any agent appointed by the State to sell the property need file a bond.

(3) (i) The owner or any other interested party may obtain release of a lien at any time by paying to the State the full amount of the judgment rendered by the circuit court, together with interest from the date of judgment.

(ii) On payment in full, the Secretary of the Board of Public Works shall cause a release to be recorded in the land records.

(4) If the circuit court finds that there has been no default or if the full amount of the court's judgment is paid to the State within 30 days after the court's final order, a temporary lien then in effect shall be released immediately and the Secretary of the Board of Public Works shall cause the release to be recorded in the land records.

(f) (1) All funds recovered as a result of this right of recovery shall be deposited in the Annuity Bond Fund and applied to the debt service requirements of the State.

(2) If the Board of Public Works determines that there is good cause for releasing the transferor, transferee, or owner from the obligation imposed under this subtitle, the Board of Public Works may waive the State's right of recovery under this subtitle.
