13–516.

EXPLANATION: CAPITALS INDICATE MATTER ADDED TO EXISTING LAW.
[Brackets] indicate matter deleted from existing law.
Subject to the rules, regulations, protocols, orders, and standards of the EMS Board, a paramedic may administer:

(1) Influenza and hepatitis B immunizations and tuberculosis skin testing, in a nonemergency environment, to public safety or ambulance service personnel within the jurisdiction of the paramedic, if the services are:

   (i) Authorized by a written agreement between the provider’s jurisdictional EMS operational program medical director or ambulance service medical director and the county or city health department in whose jurisdiction the services are performed, which shall include provisions for documentation, referral and follow-up, and storage and inventory of medicine;

   (ii) Under the direction of the jurisdictional EMS operational program medical director or ambulance service medical director; and

   (iii) Approved by the Institute; and

(2) Influenza and 2019CoV immunizations, if the immunizations are:

   (i) 1. Provided under the direction of the EMS operational program medical director, ambulance service medical director, or other qualified physician; and

        2. Authorized by the Institute;

   (ii) Part of a population health outreach effort conducted by the appropriate local health department or a hospital or health system in the State; and

   (iii) Provided in accordance with a written agreement between the paramedic’s EMS operational program or ambulance service and the county or city health department in the jurisdiction in which the services are performed or a hospital or health system in the State, which includes provisions for:

          1. The administration of a vaccine to an individual at least 18 years old;

          2. Storage and inventory of medication;

          3. Distribution of appropriate Vaccine Information Statements;

          4. Documentation of patient consent;

          5. Recognition of adverse effects;
