A BILL ENTITLED

AN ACT concerning

Baltimore East–West Corridor – Transit Study – Requirements

FOR the purpose of requiring the State Department of Transportation to complete certain processes and secure a certain decision for the Red Line and a certain MARC rail extension; requiring the Department to prepare a certain plan; requiring, for certain fiscal years, that the Governor include in the annual budget bill certain appropriations for certain purposes; prohibiting the Maryland Transit Administration, under certain circumstances, from acquiring real property; and generally relating to the Baltimore metropolitan area east–west corridor.

Section 1

BY repealing
Chapter 570 of the Acts of the General Assembly of 2009

Preamble

WHEREAS, The Maryland Transit Administration has undertaken the Baltimore Corridor Transit Study – Red Line for a proposed 10–mile rapid transit line for the Baltimore metropolitan area; and

WHEREAS, The Red Line transit corridor encompasses a large number of residents, small and large businesses, schools, churches, and other community institutions, all of which are deeply concerned about the future of their communities; and

WHEREAS, Effective, high–quality public transportation is important to these communities; and

WHEREAS, Public transit must be frequently available, reliable, and safe, and must provide an efficient and economical means to connect community members to major destinations throughout the Baltimore metropolitan area; and

WHEREAS, First and foremost, the Red Line should improve the public transportation system in the Baltimore metropolitan area and in the communities surrounding the Red Line transit corridor, and should be planned in a manner to serve those communities and foster economic development; and

WHEREAS, It is the intent of the General Assembly that, during the course of planning and constructing the Red Line project, the Administration adhere to the best practices of transit planning and implementation; and

WHEREAS, It is the intent of the General Assembly that community members participate in the planning process for the Red Line project and seek to fairly represent the interests of all community members; now, therefore,

SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND, That the Laws of Maryland read as follows:

Article – Transportation

7–714.

(A) IN THIS SECTION, “RED LINE” MEANS A RAIL TRANSIT FACILITY USING ONE OR MORE VEHICLES OPERATING IN TANDEM ON A FIXED RAIL IN A COMBINATION OF AT–GRADE, ELEVATED, AND UNDERGROUND CONFIGURATIONS
through Baltimore City and Baltimore County along a generally east to west alignment between the terminus of Security Boulevard on the west and the Johns Hopkins Bayview Medical Center on the east, connecting as appropriate to other fixed–route transit services.

(B) (1) Subject to subsection (c) of this section, the Department promptly shall:

(i) undertake all steps necessary to complete planning, preliminary engineering, and the National Environmental Policy Act process and secure a record of decision for:

1. The Red Line; and

2. A MARC rail extension to the Johns Hopkins Bayview Medical Center; and

(ii) prepare a plan for the funding and financing of the construction and operation of:

1. The Red Line; and

2. A MARC rail extension to the Johns Hopkins Bayview Medical Center.

(2) In planning the Red Line and MARC rail extension, the Department shall:

(i) seek to avoid any residential displacement;

(ii) study the economic and employment impacts of constructing and operating the Red Line and MARC rail extension;

(iii) consider measures to protect and enhance the physical and economic well–being of the residents of the study area; and

(iv) make its findings publicly available.

(3) The Department shall give due consideration to previously completed engineering and environmental studies.
(C) (1) Subject to paragraph (2) of this subsection, in each of fiscal years 2024 through 2027, the Governor shall include in the annual budget bill an appropriation from the Transportation Trust Fund of at least $5,000,000, contingent on the receipt of federal funds to be used to provide matching funds needed to conduct an environmental impact study under the National Environmental Policy Act for:

1. The Red Line; and
2. A MARC rail extension to the Johns Hopkins Bayview Medical Center.

(2) An appropriation required under paragraph (1) of this subsection may be reduced by the amount of the total authorized in the prior fiscal year to conduct the environmental impact study.

(D) (1) Subject to paragraph (2) of this subsection, for fiscal year 2024 and each fiscal year thereafter, the Governor shall include in the annual budget bill an appropriation from the Transportation Trust Fund of $200,000 to the Baltimore City Mayor’s Office of Employment Development for workforce development and small, minority, and women-owned business development.

(2) It is the intent of the General Assembly that the funds appropriated to the Baltimore City Mayor’s Office of Employment Development shall supplement, and not supplant, funds otherwise available for the Baltimore City Mayor’s Office of Employment Development.

(E) In conducting the Red Line transit project, the Administration may not acquire any real property for planning, construction, operation, or maintenance of the Red Line if the acquisition would result in involuntary residential displacement.

SECTION 2. AND BE IT FURTHER ENACTED, That it is the intent of the General Assembly that the Maryland Transit Administration, in cooperation with the local governments in the Baltimore metropolitan area and appropriate State agencies, develop and implement workforce development strategies that maximize participation by residents in the east–west corridor in jobs created by and for east–west corridor transit projects.

SECTION 3. AND BE IT FURTHER ENACTED, That it is the intent of the General Assembly that the Maryland Congressional Delegation be requested to advocate changes in federal law and policy that will:
(1) increase the level of federal funding for and formula participation in New Starts transit projects to a level consistent with other surface transportation investments; and

(2) reduce biases in the federal New Starts funding formula against the northeastern and industrial regions of the United States that have smaller public rights–of–way and higher utility relocation and environmental hazard mitigation costs.

SECTION 4. AND BE IT FURTHER ENACTED, That Section(s) 2 of Chapter 2 of the Acts of the General Assembly of the 2006 Special Session be repealed.

SECTION 5. AND BE IT FURTHER ENACTED, That Section(s) 2 of Chapter 3 of the Acts of the General Assembly of the 2006 Special Session be repealed.

SECTION 9. AND BE IT FURTHER ENACTED, That this Act shall take effect July 1, 2022.
