SENATE BILL 966

M5  2lr3125

By: Senator Feldman
Introduced and read first time: February 15, 2022
Assigned to: Rules

A BILL ENTITLED

1 AN ACT concerning

2 Public Utilities – Energy Efficiency and Conservation Programs – Alterations

3 FOR the purpose of requiring energy efficiency and conservation programs and services
4 provided by gas companies and electric companies to encourage and promote the
5 electrification of certain products and beneficial electrification beginning with a
6 certain calendar year; prohibiting the energy efficiency and conservation programs
7 and services from providing financial assistance for equipment or appliances that
8 use fossil fuel; requiring the Public Service Commission to consider the social cost of
9 greenhouse gases when determining whether the energy efficiency and conservation
10 programs and services are cost–effective; requiring electric companies to increase
11 their annual incremental gross energy savings through certain energy efficiency and
12 conservation programs and services for certain program cycles; and generally
13 relating to energy efficiency and conservation programs.

14 BY repealing and reenacting, with amendments,
15 Article – Public Utilities
16 Section 7–211(d), (f), (g), and (k)
17 Annotated Code of Maryland
18 (2020 Replacement Volume and 2021 Supplement)

19 SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND,
20 That the Laws of Maryland read as follows:

21 Article – Public Utilities

22 7–211.

23   (d)   (1)   Subject TO PARAGRAPH (2) OF THIS SUBSECTION AND SUBJECT to
24 review and approval by the Commission, each gas company and electric company shall

EXPLANATION: CAPITALS INDICATE MATTER ADDED TO EXISTING LAW.
[Brackets] indicate matter deleted from existing law.
develop and implement programs and services to encourage and promote the efficient use and conservation of energy by consumers, gas companies, and electric companies.

(2) BEGINNING WITH CALENDAR YEAR 2024, THE PROGRAMS AND SERVICES PROVIDED UNDER THIS SUBSECTION SHALL:

(I) ENCOURAGE AND PROMOTE THE REPLACEMENT OR ENHANCEMENT OF GAS, OIL, OR PROPANE HEATING SYSTEMS WITH ELECTRIC HEAT PUMPS, GIVING PRIORITY TO LOW–INCOME HOUSEHOLDS AND CONSUMERS; AND

(II) ENCOURAGE AND PROMOTE BENEFICIAL ELECTRIFICATION FOR THE PURPOSES OF REDUCING ENERGY CONSUMPTION, REDUCING CONSUMER COSTS, AND REDUCING GREENHOUSE GAS EMISSIONS.

(3) BEGINNING WITH CALENDAR YEAR 2024, THE PROGRAMS AND SERVICES PROVIDED UNDER THIS SUBSECTION MAY NOT PROVIDE FINANCIAL ASSISTANCE FOR EQUIPMENT OR APPLIANCES THAT USE FOSSIL FUEL.

(f) (1) The Commission shall:

[(1)] (I) require each gas company and electric company to establish any program or service that the Commission deems appropriate and cost effective to encourage and promote the efficient use and conservation of energy ITEMS SPECIFIED IN SUBSECTION (D) OF THIS SECTION;

[(2)] (II) adopt rate–making policies that provide cost recovery and, in appropriate circumstances, reasonable financial incentives for gas companies and electric companies to establish programs and services that encourage and promote the efficient use and conservation of energy ITEMS SPECIFIED IN SUBSECTION (D) OF THIS SECTION; and

[(3)] (III) ensure that adoption of electric customer choice under Subtitle 5 of this title does not adversely impact the continuation of cost–effective energy efficiency and conservation THE programs PROVIDED UNDER SUBSECTION (D) OF THIS SECTION.

(2) IN DETERMINING WHETHER A PROGRAM OR SERVICE PROVIDED UNDER SUBSECTION (D) OF THIS SECTION IS COST–EFFECTIVE, THE COMMISSION SHALL CONSIDER THE SOCIAL COST OF GREENHOUSE GASES, USING EITHER THE RATE ADOPTED BY THE DEPARTMENT OF THE ENVIRONMENT OR THE RATE ADOPTED BY THE U.S. ENVIRONMENTAL PROTECTION AGENCY, WHICHEVER IS GREATER.

(g) (1) Except as provided in subsection (e) of this section, on or before December 31, 2008, by regulation or order, the Commission shall:
(i) to the extent that the Commission determines that cost–effective energy efficiency and conservation programs and services are available, for each affected class, require each electric company to procure or provide for its electricity customers cost–effective energy efficiency and conservation programs and services with projected and verifiable electricity savings that are designed to achieve a targeted reduction of at least 5% by the end of 2011 and 10% by the end of 2015 of per capita electricity consumed in the electric company’s service territory during 2007; and

(ii) require each electric company to implement a cost–effective demand response program in the electric company’s service territory that is designed to achieve a targeted reduction of at least 5% by the end of 2011, 10% by the end of 2013, and 15% by the end of 2015, in per capita peak demand of electricity consumed in the electric company’s service territory during 2007.

(2) (i) Except as provided in subsection (e) of this section, for the duration of the [2018–2020 and] 2021–2023 AND 2024–2026 program cycles, by regulation or order, the Commission shall, to the extent that the Commission determines that cost–effective energy efficiency and conservation programs and services are available, for each affected class, require each electric company to procure or provide for its electricity customers cost–effective energy efficiency and conservation programs and services with projected and verifiable electricity savings that are designed on a trajectory to achieve a targeted annual incremental gross energy savings of at least 2.0% per year, calculated as a percentage of the electric company’s 2016 weather–normalized gross retail sales and electricity losses:

THE FOLLOWING ANNUAL PERCENTAGES, CALCULATED AS A PERCENTAGE OF THE ELECTRIC COMPANY’S 2016 WEATHER–NORMALIZED GROSS RETAIL SALES AND ELECTRICITY LOSSES:

1. 2.25% PER YEAR IN 2025 AND 2026;
2. 2.5% IN 2027; AND
3. 2.75% PER YEAR IN 2028 AND THEREAFTER.

(ii) The savings trajectory shall use the approved 2016 plans submitted under subsection (h)(2) of this section as a baseline for an incremental increase of a rate of .20% per year until the minimum 2.0% per year savings rate SPECIFIED IN SUBPARAGRAPH (I) OF THIS PARAGRAPH is achieved.

(iii) The gross retail sales against which the savings are measured shall:

1. reflect sales associated with customer classes served by utility–administered programs only; and
2. be updated by the Commission for each plan submitted under subsection (h)(2) of this section.

(iv) The targeted annual incremental gross energy savings shall be achieved based on the 3–year average of an electric company’s plan submitted under subsection (h)(2) of this section.

(k) On or before May 1 of each year, the Commission, in consultation with the Maryland Energy Administration, shall report, subject to § 2–1257 of the State Government Article, to the General Assembly on:

(1) the status of programs and services to encourage and promote the efficient use and conservation of energy ITEMS SPECIFIED IN SUBSECTION (D) OF THIS SECTION, including an evaluation of the impact of the programs and services that are directed to low–income communities, low– to moderate–income communities to the extent possible, and other particular classes of ratepayers;

(2) a recommendation for the appropriate funding level to adequately fund these programs and services; and

(3) in accordance with subsection (c) of this section, the per capita electricity consumption and the peak demand for the previous calendar year.

SECTION 2. AND BE IT FURTHER ENACTED, That this Act shall take effect June 1, 2022.
