The holder may sell only wine that the holder produces under its own label for on- and off-premises consumption. **Small Business Effect:** Minimal.

**Analysis**

**Bill Summary/Current Law:**

*Class D Beer and Light Wine Licenses*

Currently, in Washington County, there is a Class D beer and *light* wine license that authorizes a license holder to sell beer and light wine at retail, at the place described in the license, for on- and off-premises consumption. Light wine in Washington County is wine

that contains up to 15.5% alcohol by volume. The license may not be issued for use by a drugstore. The annual license fee is \$150, and the fee for a Sunday permit is \$250.

### *Class 3 Winery License*

Under § 2-205 of the Alcoholic Beverages Article, a Class 3 winery license authorizes the sale and production of wine, as well as the importing of bulk wine from out-of-state. The winery may also provide samples to visitors at the winery and directly sell up to one quart of wine at retail to each individual each year.

**Additional Comments:** As noted above, the bill authorizes the board to issue a Class D beer and wine license to a holder of a Class 3 winery license, as specified. Under current law, there is no Class D beer and wine license in Washington County. However, House Bill 1106 of 2022 would replace the Class D beer and light wine license currently authorized in Washington County with a Class D beer and wine license; that separate legislation would also take effect July 1, 2022. This fiscal and policy note assumes that provisions relating to a Class D beer and light wine license become applicable to a Class D beer and wine license.
