WHEREAS, No process exists in this State for the confidential identification, investigation, or dissemination of findings regarding suicide deaths; and

WHEREAS, Goal number one in the Maryland Center for Preventive Health Services and the Partnership for a Safer Maryland's Strategic Plan is to expand and refine the current surveillance efforts to assess injury risks, inform intervention development, and evaluate the impacts of injury prevention initiatives; and

WHEREAS, The U.S. National Strategy for Suicide Prevention, as issued by the U.S. Office of the Surgeon General, recommends that suicide deaths be investigated through state-based suicide mortality reviews to institute the systemic changes needed to decrease suicide mortality; and

WHEREAS, There is a need to establish a statewide program to review suicide deaths among persons in this State and to develop strategies for the prevention of suicide deaths in this State; now, therefore,
