6 Preamble

WHEREAS, The proportion of Maryland's population age 60 and older is growing more rapidly than other components of the population. The U.S. Census Bureau estimates that 22% of Maryland's population will be 60 and older by the year 2030, an increase of 26% from 2012, and the number of Marylanders 65 or older is expected to double by 2030 (about 1.2 million people, or nearly one in every five Marylanders). The fastest growing population are people age 85 and older – people who are at increased risk for a variety of illnesses and dementias resulting in greater risk for abuse and exploitation; and

WHEREAS, According to the National Center for Biotechnology Information, only 4.5% of older adults live in nursing homes; only 2% in assisted living facilities; and the majority of older adults, 93.5%, live in the community; and

WHEREAS, According to the Governor's Office of Crime Prevention, Youth, and Victim Services, in 2015, an older adult is abused every 5 seconds in Maryland; and

WHEREAS, According to the National Council on Aging, 1 in 10 adults age 60 and older are being abused; and

WHEREAS, The National Council on Aging reports that only 1 in 24 cases of elder abuse are reported to authorities, and the National Adult Protective Services Association reports that only 1 in 44 cases of financial abuse are ever reported. True Link Financial estimates that 37% of seniors are affected by financial abuse in any 5—year period and the
