Additional comments for items 16 and 17:

We are currently serving 175 players on 10 different teams. With the addition of stadium lighting, we should increase that total to at least 250 players and 15 teams, with the possibility of adding more. Not only would the players and teams benefit from the lighting added to the field, but their families as well.

The addition of the lights would also offer more field availability for camps, clinics, showcases, tournaments, and league play. Other organizations outside of GAC would have the opportunity to host events there as well.
