10. Description and Purpose of Organization (Limit length to visible area)		
<p>As a former North High science teacher and the individual who is applying for funding, my purpose is simple, I want to make positive change in my community. If renovated, the track has infinite potential educationally, socially, and economically. My involvement in the community allows me to understand the importance of providing safe spaces for students and members of the community to exercise. After much thought and consideration, I approached the local school board to inquire about the track and how to have it reconditioned. The next step in the process was to apply for a Private Public Partnership through WCPS. Please note that I am in the final stages of obtaining approval.</p>

Track 2023

28. Comments

Question 21: I do own a small business, I do not plan to finanically benefit from this project. The project is to serve the school and community.

Question 24: It is important to note that there will not be an economical impact on North High's budget. The track surrounds a practice field that is already maintanced and mowed by the custodial staff. There will not be increase in the schools budget to maintain the track area.

Question 25 A-D: The track is located on the property of North Hagerstown High School (WCPS Property). The property is owned and maintained by WCPS and will not be leased.

It is hopeful to have the project completed by the end of 2023.
