10. Description and Purpose of Organization (Limit length to visible area)		
<p>Clifton Park Baptist Church's Outreach Ministry goal is to serve the everchanging needs of the community. We serve 1,000-1,700 households each week with groceries and seek a holistic approach by also providing health clinics, began case management on-site, diaper distributions, clothing distributions, kids coat give-a-ways, voter registration, prepared meals, backpacks filled with school supplies. Community partners and our church partner to fill classes such as Job Readiness, First-Aid and CPR, and College Prep. Because we serve so many households, we struggle to have enough food. We have been growing our own food using aeroponic towers to provide fresh local foods to community members who do not always have that fresh clean food access. The Young Growers Club is our new program to connect local youth to growing healthy foods.</p>		

11. Description and Purpose of Project (Limit length to visible area)

Sustainability for our communitys needs is essential. Most weeks we are forced to make food stretch so everyone gets something. Our doors had to close before, we strive to never do that again. Our plan for the Freight Farm is for a reliable source of food for weekly harvests and have the youth involved in the process. With local youth organizations, groups, and schools, we will partner to grow food in this innovative, progressive technique. Traditional agriculture leaves a heavy footprint, but a shipping container is where the future of farming is moving. This farm grows about 2.5 acres of food, uses 5 gallons of water daily, and with solar, its off the grid. Our community will benefit from food that would never have pesticides or herbicides, would be nutrient dense because its receiving exactly what is needed, no floods or droughts. And our students would be learning math, science, health, community, and unlocking imaginations and possibilities.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

28. Comments	
---------------------	--

The container farm would be set in the church's parking lot with the solar panels installed on the top. The farm takes a couple months to arrive once the order is made, and there will be a few weeks for the solar to be installed.

We served 297,430 packages of food over the last year, a good portion to repeat people. We have 2,457 households registered which represents 12,416 people. Having more fresh food would help us to provide healthy packages during our weekly food distributions along with adding more people who only come to the distributions for fresh produce. The word of mouth is strong in our community so if we do not have adequate produce, people do not come that week. Our goal for the youth being involved is to have them take home food to their households and for them to know they are making a difference in serving the community to rest.
