2 subtitle “Subtitle 46. Maryland Age-Appropriate Design Code Act”
3 Annotated Code of Maryland
4 (2013 Replacement Volume and 2023 Supplement)

5 Preamble

6 WHEREAS, The United Nations Convention on the Rights of the Child recognizes
7 that children need special safeguards and care in all aspects of their lives, specifying how
8 children’s rights apply in the digital environment in General Comment No. 25; and

9 WHEREAS, As children spend more of their time interacting with the online world,
10 the impact of the design of online products on their well-being has become a focus of
11 significant concern; and

12 WHEREAS, There is widespread agreement at the international level, and
13 bipartisan agreement in the United States, that more needs to be done to create a safer
14 online space for children to learn, explore, and play; and

15 WHEREAS, Lawmakers around the globe have taken steps to enhance privacy
16 protections for children based on the understanding that, in relation to data protection,
17 greater privacy necessarily means greater security and well-being; and

18 WHEREAS, Children should be afforded protections not only by online products and
19 services specifically directed at them, but by all online products they are likely to access,
20 and thus covered entities should take into account the unique needs of different age ranges,
21 including the following developmental stages: 0 to 5 years of age, or “preliterate and early
22 literacy”; 6 to 9 years of age, or “core primary school years”; 10 to 12 years of age, or
23 “transition years”; 13 to 15 years of age, or “early teens”; and 16 to 17 years of age, or
24 “approaching adulthood”; and

25 WHEREAS, While it is clear that the same data protection regime may not be
26 appropriate for children of all ages, children of all ages should nonetheless be afforded
27 privacy and protection, and online products should adopt data protection regimes
28 appropriate for children of the ages likely to access those products; and

29 WHEREAS, According to the Pew Research Center, in 2022, 97% of American
30 teenagers aged 13–17 used the Internet every day, with 46% responding they used the
31 Internet almost constantly; and, additionally, 36% of teens reported being concerned about
32 their social media use, while an earlier Pew Research Center study found that 59% of teens
33 have been bullied or harassed online; and

34 WHEREAS, The findings of the Pew Research Center are not surprising, given what
35 is known about controllers’ use of personal data and how it is utilized to inform
36 manipulative practices, to which children are particularly vulnerable; and

1 WHEREAS, Online products that are likely to be accessed by children should offer
2 strong privacy protections that, by design, prevent the use of children’s personal data to
3 offer elements that the covered entity offering the online product knows, or has reason to
4 know, are likely to be materially detrimental to the physical health, mental health, or
5 well-being of children; and

6 WHEREAS, Ensuring robust privacy, and thus safety, protections for children by
7 design is consistent with federal safety laws and policies applied to children’s products,
8 regulating everything from toys to clothing to furniture and games; and

9 WHEREAS, The consumer protections that federal safety laws apply to children’s
10 products require these products to comply with certain safety standards by their very
11 design, so that harms to children, and in some cases other consumers, are prevented; and

12 WHEREAS, It is the intent of the Maryland General Assembly that the Maryland
13 Age-Appropriate Design Code Act promote innovation by covered entities whose online
14 products are likely to be accessed by children by ensuring that those online products are
15 designed in a manner that recognizes the distinct needs of children within different age
16 ranges; ~~and now, therefore,~~

17 ~~WHEREAS, It is the intent of the Maryland General Assembly that covered entities~~
18 ~~covered by the Maryland Age-Appropriate Design Code Act may look to guidance and~~
19 ~~innovation in response to the Age-Appropriate Design Code established in the United~~
20 ~~Kingdom and California when developing online products that are likely to be accessed by~~
21 ~~children; now, therefore,~~
