18 (b) It is the intent of the General Assembly that the purpose of this section is to
19 [accelerate] PROMOTE gas infrastructure improvements in the State, WHEN NECESSARY
20 AND APPROPRIATE TO ENSURE THE SAFETY OF THE GAS SYSTEM AND TO PROVIDE
21 CONSISTENCY WITH STATE CLIMATE POLICY, by establishing a mechanism for gas
22 companies to promptly recover reasonable and prudent costs of investments in eligible
23 infrastructure replacement projects separate from base rate proceedings.

24 (c) This section does not apply to a gas cooperative.

25 (d) (1) A gas company may file with the Commission:

26 (i) a plan to invest in eligible infrastructure replacement projects;
27 and

28 (ii) in accordance with paragraph (4) of this subsection, a

31 replacement projects.

32 (2) A plan under this subsection shall include:

1 (i) A DESCRIPTION OF EACH ELIGIBLE PROJECT, INCLUDING
2 THE PROJECT'S EXPECTED USEFUL LIFE;

18 necessary to evaluate the plan.

19 (3) (i) When calculating the estimated cost of a project under paragraph

22 in the project;

23 2. depreciation associated with the project, based on new

25 3. property taxes associated with the project, based on new
26 assets less retired plant.

27 (ii) The estimated project costs described in subparagraph (i) of this
28 paragraph are collectible at the same time the eligible infrastructure replacement is made.

29 (iii) The pretax rate of return under subparagraph (i)1 of this

1 paragraph shall:

3 and weighted average cost of capital as the Commission approved in the gas company's

13 than the fixed annual surcharge applicable to a residential customer account, but shall be
14 capped under item (ii) of this paragraph; and

15 (ii) to create a surcharge cap for all customer classes, costs shall be
16 allocated to nonresidential and residential customers consistent with the proportions of
17 total distribution revenues that those classes bear in accordance with the most recent base
18 rate proceeding for the gas company.

19 (5) In a base rate proceeding after approval of a plan, the Commission
20 shall, in establishing a gas company's revenue requirements, take into account any benefits
21 the gas company realized as a result of a surcharge approved under the plan.

22 (6) Any adjustment for return on equity based on an approved plan only
23 shall be considered and determined in a subsequently filed base rate case.

24 (e) (1) Within 180 days after a gas company files a plan, the Commission:

10 associated with the plan at the same time that it approves the plan.

11 (ii) Costs recovered under the schedule approved in subparagraph (i)
12 of this paragraph may relate only to the projects within the plan approved by the
13 Commission.

14 (5) The Commission may not consider a revenue requirement or
15 rate-making issue that is not related to the plan when reviewing a plan for approval or
16 denial unless the plan is filed in conjunction with a base rate case.

17 (f) (1) Subject to paragraph (2) of this subsection, if the Commission does not
18 take final action on a plan within the time period required under subsection (e) of this
19 section, the gas company may implement the plan.

20 (2) If a gas company implements a plan that the Commission has not
21 approved, the gas company shall refund to customers any amount of the surcharge that the
22 Commission later determines is not reasonable or prudent, including interest.

23 (g) (1) (i) A surcharge under this section shall be in effect for 5 years from
24 the date of initial implementation of an approved plan.

30 in accordance with a final Commission order on the base rate case shall be removed from a
31 surcharge; and

32 B. the surcharge mechanism shall continue for eligible future
33 infrastructure project costs that are not included in the base rate case.

1 (2) (i) If the actual cost of a plan is less than the amount collected under
2 a surcharge, the gas company shall refund to customers the difference on customer bills,
3 including interest.

4 (ii) If the actual cost of a plan is more than the amount collected
5 under the surcharge and the Commission determines that the higher costs were reasonably
6 and prudently incurred, the Commission shall authorize the gas company to increase the
7 surcharge to recover the difference, subject to the rate limit under subsection (d)(4) of this
8 section.

9 (h) Each year a gas company shall file with the Commission a reconciliation to
10 adjust the amount of a surcharge to account for any difference between the actual cost of a
11 plan and the actual amount recovered under the surcharge.

12 (i) If, after approving a surcharge in a plan, the Commission establishes new base
13 rates for the gas company that include costs on which the surcharge is based, the gas
14 company shall file a revised rate schedule with the Commission that subtracts those costs
15 from the surcharge.

16 (j) (1) The Commission may review a previously approved plan.

17 (2) If the Commission determines that an investment of a project or cost of
18 a project no longer meets the requirements of subsection (e)(3) of this section, the
19 Commission may:

20 (i) reduce future base rates or surcharges; or

21 (ii) alter or rescind approval of that part of the plan.

22 SECTION 2. AND BE IT FURTHER ENACTED, That this Act shall take effect
