10. Description and Purpose of Organization (Limit length to visible area)		
<p>GORC is a recreational sports organization that lies in the community of Piney Orchard. Its hosts 12 sports for kids 5-14 and has an annual membership of approximately 3000 families. We are committed to having recreational sports available to all who want to play and strive to do as much community outreach/ engagement as possible. GORC is fortunate to be attended by those in the communities it neighbors, as well as those from surrounding areas that do not have all sports programs available such as Fort Meade, Crofton, and Old Mill.</p>		

11. Description and Purpose of Project (Limit length to visible area)

We are requesting a new, updated scoreboard on the main field. Current board is outdated, non functional, and has our incorrect name showcased. Our hope is that this new board will not only benefit the sports its serves, but also increase our opportunities for community events. The larger, standard size board will allow us to stream movies which will be another fantastic way to bring the community together! GORC has had great success with community events and this digital board will allow us to increase our options to gain even more community engagement.... Our park had a renovation approximately 5 years ago, and while it looks great, the updates are almost exclusively on one side of our park. This updated scoreboard will bring a more cohesive aesthetic and will go wonderfully with updates we have already done (field goals, fencing, tower repair), and what we are in process of doing (painting buildings in collaboration with Kyle at TunnelVison).

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.
