<p>KABOOM! is a national nonprofit organization whose mission is to end playspace inequity in communities around the country. Over the course of our 28-year history we have built over 17,000 playspaces in different neighborhoods throughout the United States. Since our launch in 1997, we have worked extensively in Maryland and specifically Baltimore. During this history, we have invested over \$11 million and built over 60 new playspaces. Currently, we are working with Baltimore City Recreation and Parks and Baltimore City Public Schools on ending disparities in their playground infrastructure through our national 25 in 5 initiative. Baltimore City was the inaugural partner in this national campaign to highlight and end racial disparities in playspace access.</p>

28. Comments	
<p>The Gwynns Falls Elementary School playground renovation project is scheduled to be completed next year. KABOOM! is committed to raising private funds to match a public investment to accelerate the pace of BCPSs schoolyard playground improvement project. We are currently raising funds to undertake other projects throughout the district through a combination of public and private funding, with the goal of renovating at least 5 playgrounds in Baltimore in 2026.</p> <p>KABOOM! is working with a number of community partners across Baltimore to ensure that the new playground reflects the design preferences of the children, parents, teachers, and staff. Our community driven design process has been shown to increase childrens engagement with the playground, which results in a wider distribution of the playgrounds health benefits.</p> <p>This will be KABOOM!'s third year in working in Baltimore through a combination of LBI and private funding. Because of the General Assemblys investment KABOOM! has opened over a dozen new playgrounds since the beginning of our 25 in 5 initiative work and the City and School District administrations have invested millions more to improving their outdoor recreation infrastructure.</p>
