11. Description and Purpose of Project (Limit length to visible area)

The current condition of the Largo High School football field presents a serious hazard to both students and visiting athletes. Uneven playing surfaces and worn-out grass have contributed to an increase in player injuries during both practice and competitive games. Addressing this issue is a matter of both safety and fairness, ensuring that students can participate in sports without undue risk. A well-maintained football field is crucial for the overall development of student-athletes. High-quality athletic facilities foster physical fitness, teamwork, leadership skills, and school spirit. Moreover, an updated and safe field enhances opportunities for hosting games, tournaments, and community events, strengthening the schools connection with its local community.

28. Comments

This renovation will support equity in educational and extracurricular resources. Students deserve access to safe, well-maintained facilities regardless of their schools location or financial standing. By funding this project, we invest not only in infrastructure but in the well-being and future success of our students.

It is essential to prioritize the safety and growth of Largo High Schools student body and athletic programs. Ensuring a safe and effective playing field is an investment in the health, education, and community spirit of our students and their families.
