10. Description and Purpose of Organization (Limit length to visible area)		
We are a nonprofit organization For st Stephen baptist church (SSBC) mission addressing poverty, food insecurity, and community well-being. Our food distribution program provides essential nutrition to individuals and families in need. We also operate the Seed to Table Community Garden, promoting access to fresh, healthy food while educating youth and families on gardening, nutrition, and sustainability. By growing tomatoes, cucumbers, zucchini, collard greens, and more, we offer nutritious options and empower residents to make healthier choices. Our mission is to serve, uplift, and build self-sufficiency by ensuring access to fresh food, fostering unity, and creating long-term solutions to food insecurity through education, partnerships, and community engagement.		

11. Description and Purpose of Project (Limit length to visible area)

The Project Bright Future Mentoring Program Inc. at SSBC is dedicated to fighting food insecurity by providing fresh, nutritious food to families in need. To enhance our operations, we seek funding for a commercial refrigerator and freezer, parking lot repairs, and pallet jacks. A commercial refrigerator and freezer will allow us to store more fresh and frozen food, reducing waste and increasing distribution capacity. Parking lot repairs are essential due to damage from 18-wheeler food deliveries, ensuring safety for volunteers and recipients. Pallet jacks will improve efficiency by making it easier to unload and transport heavy food pallets. This project will increase food storage, improve safety, and streamline distribution, allowing us to serve more families effectively. Funding will strengthen our mission to provide sustainable food access and build a healthier community.

28. Comments	
<p>This project is crucial for ensuring that Saint Stephens Baptist Church continues to serve the community in the best way possible. The repaving of our parking lot is not just a cosmetic update, but a necessity. The current condition of the parking lot, which has suffered significant wear and tear due to the constant use of large delivery trucks for our food distribution program, poses a safety hazard. This repair is essential to ensure the safety of all individuals who come to our church for services, events, and community outreach programs. It will also help improve accessibility and prevent further damage to our vehicles and infrastructure.</p> <p>Additionally, the acquisition of pallet jacks, refrigerators, and freezers will directly improve our ability to provide essential services. The demand for food distribution continues to rise, and these tools are essential for handling large deliveries, properly storing food, and ensuring that we meet the needs of the community with efficiency and care. Without these items, we are limited in how much we can store and distribute, hindering our mission to combat food insecurity.</p> <p>As a community-focused organization, we aim to be a model for service, not just in words but in action. This project will allow us to better serve the growing needs of our community, provide a safer environment, and continue our mission of supporting those in need. We are deeply committed to this cause, and these upgrades will make a profound difference in the lives of many.</p> <p>Thank you for your consideration and support of this important project.</p>
