Senate Bill 150

(Senator Watson)

Judicial Proceedings

---

**Real Property - Recordation and Land Records - Requirements**

---

This bill generally alters various statutory provisions related to the filing, maintenance, and transmittal of land records. Among other provisions, the bill (1) alters numerous formatting requirements; (2) authorizes the acceptance of documents received through an electronic recordation system; (3) authorizes court clerks to refuse to record instruments that fail to meet specified requirements; (4) authorizes court clerks to assess additional fees for the recordation of subdivision plats if required by local law; (5) repeals certain requirements and references related to bound books and microfilm; and (6) makes numerous stylistic and technical changes.

**Analysis**

**Current Law:**

*Recording Requirements – Generally*

Clerks of the circuit courts are responsible for the recording of land records. Generally, property may not be transferred on the assessment books or records until (1) all public

taxes, assessments, and charges currently due and owed on the property have been paid to the treasurer, tax collector, or director of finance of the county in which the property is assessed and (2) all taxes on personal property in the county due by the transferor have been paid when all land owned by the transferor in the county is being transferred.

Any printed deed or other instrument submitted for recordation must satisfy specific formatting requirements before being recorded.

*Maryland Uniform Real Property Electronic Recording Act*

Generally, the Maryland Uniform Real Property Electronic Recording Act – Title 3, Subtitle 7 of the Real Property Article – establishes that requirements for documents to be signed as a condition for recording are met by an electronic document or electronic signature under specific circumstances. The Act also authorizes the clerks of the circuit courts and the State Department of Assessments and Taxation to coordinate with appropriate entities on procedures and processes to facilitate the electronic satisfaction of prior approvals and conditions precedent to recording documents or the electronic payment of fees or taxes.
