Analysis

Current Law/Bill Summary: By December 31 annually, an employer must provide specified electronic or written notice to an employee who may be eligible for the federal and/or Maryland earned income tax credit. The Comptroller must prepare such notice and mail the notice to all employers in the State. Under the bill, the Comptroller may provide this notice to employers by mail or by electronic means.

Background: The Comptroller’s Office advises that it incurs about \$140,000 in mailing costs annually to mail the aforementioned notice to employers in the State, many of which are returned undelivered. The bill allows the Comptroller’s Office to realize cost savings

and reach more employers by providing such notice electronically via Maryland Tax Connect, the Comptroller's new integrated tax system. The Comptroller's Office further advises that businesses without electronic means of communication would still be contacted by mail.

State Expenditures: General fund expenditures for the Comptroller's Office may decrease due to cost savings beginning in fiscal 2026. In fiscal 2026, cost savings are likely offset by one-time programming costs; in the out-years, however, general fund expenditures may decrease by more than \$100,000 annually. As noted above, the Comptroller's Office currently spends about \$140,000 annually on the required mailings to Maryland employers.
