The Secretary may determine, in accordance with this section, that any threatened species is an endangered species throughout all or any portion of the range of the species within the State.

(b) In addition to the species deemed to be endangered or threatened pursuant to the Endangered Species Act, the Secretary, by rule or regulation, shall determine whether any species of fish normally occurring within the State is an endangered or threatened species due to any of the following factors:

(1) The present or threatened destruction, modification, or curtailment of its habitat or range;

(2) Overutilization for commercial, sporting, scientific, educational, or other purposes;

(3) Disease or predation;
