28. Comments

Securing funding for this project is essential to finally transform a long-vacant, blighted property into a safe, vibrant, and productive community asset. Without investment, the site will continue to detract from neighborhood quality of life and limit recreational opportunities for residents. Funding will allow the City to complete critical demolition, safety, and infrastructure upgrades, while creating multi-use courts, a splash pad, and community gardens that support health, youth engagement, environmental sustainability, and food access. This project is not simply about redevelopment it is about restoring community pride, improving public safety, and delivering long-promised amenities that New Carrollton residents deserve.
