10. Description and Purpose of Organization (Limit length to visible area)		
<p>Winter Growth is a nonprofit serving older adults and adults with disabilities through Adult Medical Day, Assisted Living, Memory Care, and Respite services in Howard and Montgomery Counties. For more than 45 years, Winter Growth has helped individuals remain active, connected, and engaged while providing essential relief to family caregivers. Our programs support physical health, cognitive stimulation, and social connection, particularly for individuals living with dementia or complex medical needs. Just as importantly, we serve as a trusted partner for families navigating aging, offering dignity, reassurance, and peace of mind. Winter Growth is nonsectarian and community-based, and our centers function as vital local resources that allow participants to remain rooted in their communities while aging safely and with purpose.</p>		

11. Description and Purpose of Project (Limit length to visible area)

This project will replace aging, inefficient windows at Winter Growths Montgomery County Center, which houses an Adult Medical Day Program and a 16-bed Memory Care community serving older adults with complex medical and cognitive needs. Existing windows have exceeded their useful life and contribute to heat loss, drafts, moisture intrusion, and inconsistent indoor temperatures, conditions that affect resident comfort, safety, and health. For individuals with dementia or chronic illness, stable indoor environments are essential to well-being and infection prevention. This capital improvement has a useful life exceeding 15 years and supports our delivery of licensed, non-sectarian health and supportive services. By improving energy efficiency and protecting the building from air and moisture intrusion, the project will reduce long-term operating strain while preserving a vital community health asset serving Montgomery County residents and caregivers.
