No part of a grantee's matching fund may be provided, either directly or indirectly, from funds of the State, whether appropriated or unappropriated. Except as otherwise provided, no part of the fund may consist of real property, in kind contributions, or funds expended prior to the effective date of this Act. In case of any dispute as to what money or assets may qualify as matching funds, the Board of Public Works shall determine the matter, and the Board's decision is final. ~~Grantees have until June 1, 2028, to present evidence satisfactory to the Board of Public Works that the matching fund will be provided. (c) The easement must be in form, substance, and duration acceptable to the Director of the Trust.

(d) (i) A recipient may administratively appeal to the Maryland Historical Trust Board of Trustees a determination made by the Director of the Trust under subparagraph (a) of this paragraph.

Upon each issuance of State bonds in fiscal ~~year~~ years 2026 and 2027, the Treasurer shall notify the Comptroller of the Treasurer's determination and the Comptroller shall credit the premium accordingly. Premium from the sale of bonds in fiscal ~~year~~ years 2026 and 2027 that is not transferred to the Annuity Bond Fund may, upon approval of the Board of Public Works, be expended by the Comptroller for any of the public purposes set forth in Section 1(3) of this Act, including any applicable architects' and engineers' fees.

Section 1(11)

Notwithstanding §§ 8–125(e) and 8–132 of the State Finance and Procurement Article, the State Treasurer shall determine the amount of premium from the sale of bonds in fiscal years 2024 [and], 2025, AND 2026 to be transferred to the Annuity Bond Fund. Upon each issuance of State bonds in fiscal years 2024 [and], 2025, AND 2026, the Treasurer shall notify the Comptroller of the Treasurer’s determination and the Comptroller shall credit the premium accordingly. Premium from the sale of bonds in fiscal years 2024 [and], 2025, AND 2026 that is not transferred to the Annuity Bond Fund may, upon approval of the Board of Public Works, be expended by the Comptroller for any of the public purposes set forth in Section 1(3) of this Act, including any applicable architects’ and engineers’ fees.

SECTION 3. AND BE IT FURTHER ENACTED, That the General Assembly declares that it is the public policy of this State to manage State general obligation bond debt in a manner that will maintain Maryland’s high quality credit rating. The General Assembly further declares that legislative oversight, control, and review of all forms of State obligations are essential to maintenance of the State’s existing bond rating and protection of the fiscal integrity of the State.

SECTION 4. AND BE IT FURTHER ENACTED, That, before work may commence pursuant to any supplement to any appropriation contained in this Act, satisfactory evidence must be given to the Board of Public Works that the project can be completed with the aggregate of the funds in this Act and previously appropriated for the stated purpose.

SECTION 5. AND BE IT FURTHER ENACTED, That:

(1) with the approval of the Department of Budget and Management, any appropriation for design provided in this Act may be used to fund construction if the amount of the appropriation exceeds the amount required for design expenses, including allowances for contingencies; and

(2) with the approval of the Department of Budget and Management, any appropriation for construction provided in this Act may be used to purchase capital equipment if the amount of the appropriation exceeds the amount required for construction expenses, including allowances for contingencies.

SECTION 6. AND BE IT FURTHER ENACTED, That, except as otherwise provided in this Act, before a State agency or institution named in this Act as responsible for an individual item may begin work with funds appropriated by this Act, the agency or institution shall provide satisfactory evidence to the Board of Public Works that the work described in the individual item can be completed with the funds specified for that item.

SECTION 7. AND BE IT FURTHER ENACTED, That, with the approval of the Department of Budget and Management, any appropriation under the provisions of this Act that is in excess of the amount needed for a project may be credited to the Construction Contingency Fund under § 3–609 of the State Finance and Procurement Article. Notwithstanding the fund balance restriction set forth in § 3–609(c) of the State Finance and Procurement Article, any funds credited to the Fund may cause the total balance in the Fund to exceed 1.25% of the capital debt affordability limit as determined under Title 8 of the State Finance and Procurement Article, in fiscal year 2027.

SECTION 8. AND BE IT FURTHER ENACTED, That, if federal funds are available to help accomplish any project identified in this Act, the State agency or institution responsible for the project shall make efforts through proper administrative procedures to obtain these federal funds. Before spending any funds appropriated by this Act, the agency or institution shall certify its efforts to the Board of Public Works and state the reason for any failure to obtain federal funds. If federal funds are obtained, they shall be used to defray the costs of the project described in this Act and not to expand its scope.

SECTION 9. AND BE IT FURTHER ENACTED, That:

(1) for any appropriation for the planning of a State–owned project provided in this Act, if a program required by § 3–602(d) of the State Finance and Procurement Article has not been submitted, the State agency or institution responsible for the project shall submit a program to the Department of Budget and Management for approval before funds may be expended from the appropriation; and

(2) for any appropriation for the construction of a State–owned project provided in this Act, if preliminary plans and outline specifications required by § 3–602(f)(2)(i) of the State Finance and Procurement Article have not been prepared, the State agency or institution responsible for the project shall submit preliminary plans and outline specifications to the Department of Budget and Management for approval before funds may

be expended from the appropriation.

SECTION 10. AND BE IT FURTHER ENACTED, That no portion of the proceeds of a loan or any of the matching funds provided for a project funded under this Act may be used for the furtherance of an essentially religious endeavor. Upon the request of the Board of Public Works, a recipient of the proceeds of a loan under this Act shall submit evidence satisfactory to the Board that none of the proceeds of the loan or any matching funds have been or are being used for a purpose prohibited by this Act.

SECTION 11. AND BE IT FURTHER ENACTED, That the Comptroller may advance funds to any loan funds account established pursuant to a general obligation bond loan enabling Act for any expenditure authorized by that Act, provided that if general obligation bonds have not been issued under the authority of that Act, the next ensuing sale of general obligation bonds shall include the issuance of bonds under the authority of that Act in an amount at least equivalent to the amount of the funds so advanced.
