Senate Bill 141 (Senator Hester)  
Education, Energy, and the Environment

---

**Election Law - Election Misinformation, Election Disinformation, and Deepfakes**

---

This bill prohibits a person from knowingly or with reckless disregard using or disseminating a specified “deepfake” to produce materially false information relating to elections, with violations subject to criminal penalties of a fine of up to \$5,000 and/or imprisonment for up to five years. The bill also (1) requires the State Administrator of Elections to take certain actions to correct and/or remove (from any online platform) election misinformation or election disinformation and (2) authorizes the State Board of Elections (SBE), in consultation with the State Administrator, to file a civil action to recover any costs of correction of election misinformation or election disinformation. **The bill takes effect June 1, 2026.**

---

**Fiscal Summary**

**State Effect:** Special fund (Fair Campaign Financing Fund) and general fund revenues may increase annually beginning in FY 2027, as discussed below. Expenditures are not directly affected.

**Local Effect:** The bill does not directly affect local government finances.

**Small Business Effect:** Minimal.

---

**Analysis**

**Bill Summary:**

*Prohibition Against Use of Deepfakes to Produce Materially False Information*

The bill prohibits a person from knowingly or with reckless disregard using or disseminating a deepfake to produce materially false information if the person has the

intent to use the deepfake to (1) impede, influence, prevent, or attempt to impede, influence, or prevent a voter's decision to cast a ballot; (2) misrepresent facts relating to voter registration, voting methods, election results, electoral processes, or official duties of an election official; or (3) induce or attempt to induce another individual to sign or not sign a petition for a question to appear on a ballot.

A person who violates the prohibition is guilty of a misdemeanor and subject to a fine of up to \$5,000 and/or imprisonment for up to five years.

“Deepfake” means an image, an audio recording, or a video recording that has been intentionally created or manipulated with the use of generative artificial intelligence or other digital technology to create a realistic but false depiction of a person that an ordinary person would conclude is an actual visual or audio representation of the person depicted.

“Influence” includes the use of pressure, deception, trickery, or direct or indirect authority to induce action or to change the decision or act of another, regardless of the medium used.

The bill's prohibition does not apply:

- to a deepfake that is satire or parody;
- to a specified radio or television broadcast of a deceptive and fraudulent deepfake (1) that is part of a candidate advertisement the broadcaster is required to broadcast under federal law; (2) that is part of a news broadcast that clearly identifies that the deepfake may contain deceptive audio or visual media; or (3) that the broadcaster has been paid to broadcast, if the broadcaster made a good faith effort to establish that it is not a deceptive and fraudulent deepfake; or
- to a deceptive and fraudulent deepfake published by a website or regularly published newspaper, magazine, or other periodical of general circulation (including an Internet or electronic publication) that routinely carries news and commentary of general interest, if the website or periodical clearly states that the materially deceptive audio or visual media does not accurately represent the speech or conduct of the candidate.

#### *Efforts to Correct and/or Remove Election Misinformation or Disinformation*

If the State Administrator receives a credible report that election misinformation or election disinformation, including a deepfake, has been or is being communicated, disseminated, or distributed, the State Administrator (1) must communicate, disseminate, or distribute to the public accurate information to correct the election misinformation or election disinformation; (2) may seek an injunction for the removal of the election misinformation or election disinformation from any online platform; and (3) may issue a subpoena for

records related to the dissemination or distribution of the election misinformation or election disinformation, including information related to the targeted audience.

“Election misinformation” means incorrect or misleading information regarding the time, place, or manner of an election, election results, or voting rights in the State.

“Election disinformation” means incorrect or misleading information regarding the time, place, or manner of an election, election results, or voting rights in the State *that is knowingly and deliberately disseminated*.

The bill authorizes SBE, in consultation with the State Administrator, to file a civil action against a person, campaign, political action committee, or other legal entity if SBE (1) finds that the entity published election misinformation or election disinformation and (2) incurs costs to communicate, disseminate, or distribute to the public accurate information to correct the election misinformation or election disinformation. SBE may seek damages, court costs, and attorney’s fees in such an action.

### **Current Law:**

#### *Influencing or Attempting to Influence a Voter’s Decision Whether to Vote*

A person may not willfully and knowingly influence or attempt to influence (1) a voter’s voting decision through the use of force, threat, menace, intimidation, bribery, reward, or offer of reward or (2) a voter’s decision whether to go to the polls to cast a vote or vote by other lawful means, through the use of force, fraud, threat, menace, intimidation, bribery, reward, or offer of reward.

Chapter 126 of 2024 defines “influence,” under those prohibitions, to include the use of pressure, deception, trickery, or direct or indirect authority to induce action or to change the decision or act of another, regardless of the medium used.

A person who violates the prohibitions is guilty of a misdemeanor and subject to a fine of up to \$5,000 and/or imprisonment for up to five years. A person who violates the prohibition against influencing or attempting to influence, through specified means, a voter’s decision whether to vote, without knowing that the act is illegal, is subject to a civil penalty of up to \$5,000.

#### *Portal to Report Election Misinformation and Disinformation*

Chapter 126 of 2024 also requires that SBE (1) maintain a portal on its website that the public may use to report election misinformation and election disinformation and (2) conduct a periodic review of material submitted by the public through the portal and,

to the extent necessary, issue corrective information or refer submissions to the State Prosecutor.

**State Revenues:** Special fund revenues may increase annually beginning in fiscal 2027 to the extent criminal penalties are collected under the bill. Fines imposed for criminal violations of the Election Law Article are distributed to the Fair Campaign Financing Fund, which holds funds for public campaign financing of gubernatorial tickets under the Public Financing Act. The extent of any increase cannot be reliably estimated.

General fund revenues may also increase annually beginning in fiscal 2027 to the extent SBE recovers damages, in a civil action, for any costs incurred to correct election misinformation or disinformation that were supported by general funds. SBE indicates that it currently monitors and corrects election misinformation and disinformation, but the bill would allow the board to recover damages for any costs incurred for corrections. The extent of any increase cannot be reliably estimated.

---
