MARYLAND GENERAL ASSEMBLY  
SPENDING AFFORDABILITY COMMITTEE  
December 19, 2018

The Honorable Lawrence J. Hogan, Jr.  
Governor, State of Maryland  
State House  
Annapolis, Maryland 21401

Dear Governor Hogan:

We are pleased to submit the fiscal policy recommendations of the Spending Affordability Committee made during the 2018 interim. These recommendations were adopted by the committee at its meeting on December 18, 2018. The committee reviewed data concerning the economic condition of the State, revenue and expenditure trends during the past several years, personnel data, the Transportation Trust Fund, and the results of the Capital Debt Affordability Committee report.

Recommendations were made concerning the fiscal 2020 spending limit, the use of general fund cash balances, reserve fund balances, capital debt limits and the reporting requirements for the Capital Debt Affordability Committee, and State positions.

The Spending Affordability Committee has completed its assigned tasks. As required by law, the recommendations of the committee have been submitted to the Governor and the Legislative Policy Committee.

We are most appreciative of the time and effort expended by each member of the committee. A special note of thanks and appreciation is extended to the members of the Citizens Advisory Committee for their valuable assistance and input.

Sincerely,

A blue ink signature of Delegate Ben Barnes, consisting of stylized initials and a surname.

Delegate Ben Barnes  
Presiding Chair

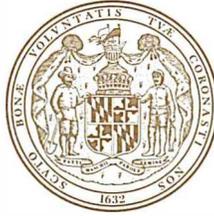

A blue ink signature of Senator Roger Manno, consisting of stylized initials and a surname.

MARYLAND GENERAL ASSEMBLY  
SPENDING AFFORDABILITY COMMITTEE

December 19, 2018

The Honorable Thomas V. Mike Miller, Jr., Co-Chairman  
The Honorable Michael E. Busch, Co-Chairman  
Members of the Legislative Policy Committee

Dear Colleagues:

We are pleased to submit the fiscal policy recommendations of the Spending Affordability Committee made during the 2018 interim. These recommendations were adopted by the committee at its meeting on December 18, 2018. The committee reviewed data concerning the economic condition of the State, revenue and expenditure trends during the past several years, personnel data, the Transportation Trust Fund, and the results of the Capital Debt Affordability Committee report.

Recommendations were made concerning the fiscal 2020 spending limit, the use of general fund cash balances, reserve fund balances, capital debt limits and the reporting requirements for the Capital Debt Affordability Committee, and State positions.

The Spending Affordability Committee has completed its assigned tasks. As required by law, the recommendations of the committee have been submitted to the Governor and the Legislative Policy Committee.

We are most appreciative of the time and effort expended by each member of the committee. A special note of thanks and appreciation is extended to the members of the Citizens Advisory Committee for their valuable assistance and input.

Sincerely,

A blue ink signature of Delegate Ben Barnes, consisting of stylized initials "BB".

Delegate Ben Barnes  
Presiding Chair

A blue ink signature of Senator Roger Manno, consisting of stylized initials "RM".

Senator Roger Manno

# 2018 Spending Affordability Committee Report and Recommendations to the Governor and the Legislative Policy Committee

---

The Spending Affordability Committee was created in 1982 (Chapter 585). The committee is composed of equal numbers of senators and delegates and includes the Presiding Officers, the majority and minority leaders, the chairmen of the fiscal committees (or their designees), and other members appointed by the Presiding Officers. A citizen advisory committee assists the committee.

The committee's primary responsibility is to recommend to the Governor and the General Assembly a level of spending for the State operating budget that is reflective of the current and prospective condition of the State's economy. Historically, this has been in the form of a recommended growth limit. More recently, however, efforts to close the structural budget gap have been the focus of the committee's recommendations. The full list of the committee's prior recommendations and legislative action on the operating budget are reflected in the table in **Appendix 1**. Since its inception 35 years ago, the recommendation of the committee has been adhered to by the legislature in all but 1 year.

Often, growth in personal income is used as a proxy for the State's economic performance. The committee notes that operating spending in relation to the State's economy, as measured by the personal income statistic, has fluctuated between 6.7% and 7.6% over the past 30 years. The unprecedented increases under the Bridge to Excellence in Public Schools Act raised spending as a percentage of income during the period of 2004 to 2008. By 2009, the ratio reached 7.5%, the highest level since 1991, in part, due to falling income. Conversely, rising income and reduced State spending caused the ratio to drop to 7.1% in 2010; the rate has fluctuated between 7.1% and 7.5% since.

The committee's statutory responsibility is to consider spending in relation to the State's economy. In its review of the State's economy, the committee considered income and wealth factors in developing a broad understanding of Maryland's economic position. In determining the spending recommendation, the committee has considered economic performance, revenue estimates, and current and future budget requirements.

## **Economy**

Since the recession ended, Maryland has generally underperformed relative to the nation as a whole with employment growth below the United States in each year from 2011 to 2017. Payrolls increased by less than 1% in both in 2013 and 2014 but accelerated to 1.5% in 2015. The increase, while slower than the U.S. growth, reflects the strongest employment growth in the State since 2005. In 2016, economic growth slowed slightly, but the gap between Maryland and the national economy narrowed. The improvement did not continue in 2017. Maryland employment growth further decelerated to 1.0%, and the rate of growth slowed substantially over the course of

## *2018 Spending Affordability Committee Report*

2017. The data available for 2018 shows employment growth of 0.8% through the first 10 months of the year. Wage income grew 3.6% in the first half of 2018.

In September, the Board of Revenue Estimates (BRE) issued a revised economic forecast for Maryland, its first since March 2018. BRE revised the economic outlook largely in line with recent performance. Employment growth for 2018 was revised down slightly from 0.8% to 0.7%, and 2019 was increased from 0.5% to 0.8%. In December 2018, BRE took 2018 employment growth back to 0.8% but made no other changes to its employment forecast. The 2018 estimated personal income growth was increased from 3.6% to 3.7% due mostly to revisions of non-wage income.

### **Revenues**

Fiscal 2018 general fund revenues were above the estimate by \$339 million, or 2.0%. General fund revenues totaled \$17.4 billion in fiscal 2018, an increase of 4.0% over fiscal 2017. The overattainment was due mostly to the personal income tax, the insurance premiums tax, and the sales tax. General fund personal income tax revenues were above the estimate by \$218.7 million and grew 5.4% over fiscal 2017.

Fiscal 2019 general fund revenues through October are up 3.0% over fiscal 2018, with ongoing revenue up 5.1%. In September, BRE increased their estimate for fiscal 2019 general fund revenues by \$331.6 million, or 1.9%. The personal income tax estimate was revised up by \$177.8 million. In December, BRE reduced the general fund estimate for fiscal 2019 by \$18.4 million, or -0.1%, in light of the revised economic assumptions and the year-to-date performance. BRE lowered their general fund revenue estimate for fiscal 2020 by \$55.3 million (0.3%).

### **Budget Requirements**

Taking into consideration the revenue projections by BRE in December 2018, the committee is currently projecting an ending general fund balance of \$776.4 million at the close of fiscal 2019. This projected balance reflects a larger than anticipated fiscal 2019 starting balance driven by stronger than anticipated revenue attainment as well as minimal anticipated spending shortfalls requiring fiscal 2019 general fund deficiency appropriations of \$35.5 million.

Significant deficiencies include fiscal 2018 shortfalls for Medicaid due to lower than budgeted special fund attainment that are anticipated to carry forward into fiscal 2019; longstanding liabilities in the Developmental Disabilities Administration (DDA) related to disallowed federal fund claims; anticipated fiscal 2019 salary enhancements that were not included in the fiscal 2019 budget; and growth in certain mandates and entitlements, notably Medicaid substance use disorder treatment costs. However, the overall level of projected deficiency needs is significantly tempered by projected fiscal 2019 surpluses in the Department of Public Safety and Correctional Services (DPSCS) through turnover savings despite the need for higher overtime, favorable enrollment and service delivery trends in Medicaid, and favorable per diem placement trends in the Department of Juvenile Services.

### *2018 Spending Affordability Committee Report*

The baseline estimate for fiscal 2020 projects general fund growth of 7.8% over fiscal 2019 when capital and reserve fund appropriations are included, 4.6% excluding capital and reserve fund appropriations. The fiscal 2020 general fund ending balance is projected to be \$122.8 million.

Outside of capital and reserve fund appropriations that grow by \$37.5 million and \$528.4 million, respectively, general fund budget growth includes \$339.5 million in aid to local governments, an increase of 5.4%, of which \$313.5 million is for education and library aid. Included in the growth in education and library aid is \$125.0 million to supplement education funding as approved by voter referendum in November 2018. Entitlement growth is anticipated at \$174.4 million, or 4.7%, \$165.0 million of which is in the Medicaid program. Growth in Medicaid is driven by statutory changes to the federal matching rate for the Affordable Care Act expansion and Maryland Children's Health Program populations, modestly higher enrollment levels, provider rate increases, and a decline in available special fund revenue.

In terms of State agency spending, the baseline assumes \$328.6 million in general fund growth. Personnel costs, excluding higher education, account for \$121.3 million of this growth. The baseline assumes a 1% general salary increase for fiscal 2020 effective July 1, 2019, with a general fund cost of \$23.1 million, plus regular increment increases totaling \$42.1 million. The baseline also annualizes fiscal 2019 general salary increases at a cost of \$31.4 in general funds.

Other significant State agency costs include general fund support for the University System of Maryland (USM) to cover growth in base costs (primarily for personnel) not supported by tuition and Higher Education Investment Fund revenue (\$129.5 million), rate increases and placement costs in DDA (\$43.9 million), and funding for legislation passed in the 2018 session (\$41.4 million). These increases are partially offset by expected declines in spending, most significantly on the inmate medical contract in DPSCS (\$12.9 million), mandated operating support for the University of Maryland Capital Region Medical Center (\$12.0 million), and one-time Sunny Day support for Amazon (\$10.0 million).

The committee projects that the State will close fiscal 2020 with a balance of \$1,369.7 million in the Revenue Stabilization Account (Rainy Day Fund), which represents 7.4% of general fund revenues. The statutorily mandated appropriation for fiscal 2020 will be \$537.7 million.

Current baseline projections estimate the General Fund to have a cash balance of \$122.8 million at the close of fiscal 2020 and a slight structural shortfall of \$18.9 million. As shown in **Exhibit 1**, which provides both the cash and structural balance projections for the General Fund through fiscal 2024, the picture is forecasted to deteriorate beyond fiscal 2020.

Structural Balance	406	-18	-664	-1,024	-1,281	-1,368

## Recommendations

In light of the considerations discussed earlier, the committee proposes the following recommendations for the 2019 session:

### 1. Operating Budget Spending Limit and Sustainability

The spending affordability process was put in place in 1982 with the goal of calibrating the growth in State spending to growth in the State's economy. In implementing that objective, a unique method of classifying and accounting for State spending was developed and has been periodically revised as circumstance has required. For the past several years, the traditional establishment of a growth limit has been replaced with recommendations to reduce the structural deficit that developed as a result of plummeting revenues, substantial short-term federal assistance, and extensive reliance on one-time budget balancing actions experienced in the first part of the past decade.

Significant efforts have been undertaken since fiscal 2011 to close the structural imbalance. Most recently, improved revenue projections, coupled with slower expenditure growth, have created a short-term favorable fiscal position for the State. However, long-term stresses still exist that create a sizeable imbalance in the out-year forecast for the General Fund, even before accounting for any recommendations from the Commission on Innovation and Excellence in Education. Although a cash surplus and minimal structural shortfall are projected for fiscal 2020, current estimates indicate the structural deficit of \$664 million in fiscal 2021 growing to almost \$1.4 billion by fiscal 2024. Ongoing operating spending growth is forecast to outpace revenue growth by 1.6 percentage points annually.

**As such, the committee recommends that the fiscal 2020 general fund budget maintain structural balance and that appropriations subject to the spending affordability limit shall be limited to growth of no greater than 3.75% over those approved at the 2018 session.** This level of growth provides for a spending increase of \$1,019 million over the previous session's spending. **In addition, the committee recommends that, with the exception of actions taken**

**on the recommendations of the Commission on Innovation and Excellence in Education, the General Assembly minimize the impact of legislation passed at the 2019 session on the structural deficit forecast for fiscal 2021 and subsequent years.**

## **2. Fund Balances**

The committee anticipates that achievement of structural balance in fiscal 2020 will result in a closing general fund balance well in excess of \$100 million and a Rainy Day Fund balance of \$1,370 million, which is 7.3% of ongoing general fund revenues. With large structural budget deficits forecast for subsequent years, some respected economic forecasters predicting a recession within the next two years, and the Commission on Innovation and Excellence in Education expected to recommend significant new ongoing investments in education, the State faces substantial out-year budget challenges. **To help mitigate these challenges, the committee recommends that the Governor and General Assembly prioritize the preservation of cash reserves at the 2019 session. To achieve this goal, the committee recommends:**

- **a minimum ending fiscal 2020 general fund balance of \$100 million;**
- **a Rainy Day Fund balance of at least 6.0% of general fund revenues; and**
- **the allocation of any remaining cash balances to reserves and one-time spending.**

## **3. Capital Budget**

### **A. General Obligation Debt**

In its 2018 report, the Capital Debt Affordability Committee (CDAC) recommended limiting general obligation (GO) bond authorizations to \$995 million each year through fiscal 2024. This is consistent with the recommendation made by CDAC in each of its 2015 through 2017 reports with the purpose of slowing the growth in debt service costs and preserving additional debt capacity for the future.

Although the CDAC recommendation is advisory and the committee has differed in its recommendation in recent years, the committee does support the CDAC debt affordability criteria, which limits debt service to 8% of State revenues and debt outstanding to 4% of State personal income. The committee also supports the objective to slow the growth in debt service costs and reduce the debt service to revenue ratio. The committee remains concerned, however, that the CDAC recommendation to freeze authorizations through fiscal 2024 will make it difficult for the State to fund the capital infrastructure investments already programmed in the CIP due to recent increases in construction inflation.

The CDAC debt affordability objectives can be achieved while providing an increase in new GO bond authorizations to account for construction inflation. In each of the last three years, the committee has recommended increasing the authorization for the planning period by 1% annually. This 1% annual growth rate would equate to an authorization level of \$1,085 million for

## *2018 Spending Affordability Committee Report*

the 2019 session. This moderate growth rate limits increases in GO bond authorizations to projected State property tax revenue increases. Since general funds and other State revenues are projected to increase at an annual rate in excess of 1%, this reduces the ratio of debt service to revenues in the out-years.

**The committee recommends the authorization of \$1,085 million in new GO bonds for the 2019 session. In addition, for planning purposes, out-year annual authorizations should be limited to 1% growth so that capital spending does not increase at a greater rate than State property tax revenue, which is the primary revenue source supporting debt service. The proposed limit keeps the State well within the CDAC debt affordability criteria. The committee further recommends the prudent use of general fund PAYGO, particularly for programs and projects that would require the issuance of more expensive taxable bonds, to supplement the capital program while maintaining a limit on the growth in GO bond authorizations.**

**The committee also recommends that the State conduct a comprehensive assessment of the condition of State facilities.** For many years, the State has relied on self-reporting by State agencies to evaluate the State's facility renewal and facility maintenance needs. The application of uniform criteria and established asset management best practices by trained staff would provide the Governor and General Assembly with much needed insight into the actual facility maintenance and renewal needs at State facilities as well as identify facilities that are near or past their useful life.

### **B. Higher Education Debt**

USM intends to issue up to \$34 million in academic debt for fiscal 2020. This is \$10 million more than was authorized for fiscal 2019 but is consistent with the amount programmed in the 2018 CIP for fiscal 2020. This level of issuance will result in a debt service ratio within the 4.5% of current unrestricted funds and mandatory transfers criterion recommended by the system's financial advisers.

**The committee concurs in the recommendation of CDAC that \$34 million in new academic revenue bonds may be authorized in the 2019 session for USM.**

### **C. Debt Affordability Committee Report**

Under current law, CDAC is required to submit its recommendations to the Governor and General Assembly on or before October 1 of each year. In addition to its review of debt, the committee's analysis requires careful consideration of State revenues. BRE generally issues its official revenue estimates late in September each year. The State Treasurer's Office (STO) is concerned that the timing of the board's approval of the revenue estimates leaves little time for the debt affordability analysis to be completed. Discussions between the Department of Legislative Services, STO, the State Comptroller's Office, and the Department of Budget and Management (DBM) concluded that extending the deadline to October 20 is reasonable. **The Spending Affordability Committee recommends the adoption of legislation at the 2019 session to extend the CDAC deadline to no later than October 20.**

#### 4. State Employment

Personnel costs comprise almost 20% of the State's operating budget. The committee expects a State workforce of 80,932 in fiscal 2020, 642 more positions than in fiscal 2007, the year prior to the start of the economic recession. The increase primarily reflects positions created at institutions of higher education, which increased by almost 4,000 positions to 26,770 over the time period. In comparison, the State's Executive Branch workforce has declined by an almost equal amount from 53,364 in fiscal 2007 to an anticipated 49,360 in fiscal 2020. During this time period, the Judicial Branch increased by 653 positions to an expected total of 4,051 positions in fiscal 2020.

Since the economic recession in fiscal 2008, there has been a steady increase in vacant positions in Executive Branch agencies, despite cost containment actions to abolish vacant positions. Vacancies increased by 659 positions over the course of the past year, from 5,300 positions in October 2017 to 5,959 positions in October 2018 (increasing the Executive Branch vacancy rate from 10.7% to 11.2%, respectively). The committee is concerned that a significant number of these vacancies are within agencies that have been identified as chronically understaffed. In particular, vacant positions within DPSCS increased by 503, bringing the agency's total vacancies to 2,253, or 21.6%. Correctional officers account for 57% of those vacant positions.

The committee is concerned that a number of critical classes of positions in State agencies are understaffed, such as correctional officers, which could adversely impact public safety and care for vulnerable populations. **Given the high vacancy rate in DPSCS, the committee recommends that DBM authorize a one-grade increase for correctional officer salaries in order to improve recruitment and retention. The committee continues to encourage the Governor to act expeditiously to fill positions in understaffed agencies and work to remove hiring barriers for positions with recruitment and retention difficulties.**

2000 <sup>1</sup>	6.90%	803.0	6.87%	800.0
2001 <sup>2</sup>	6.95%	885.3	6.94%	884.6
2002	3.95%	543.2	3.40%	468.1
2003	2.50%	358.2	0.94%	134.1
2004	4.37%	635.2	4.33%	629.0
2005 <sup>3</sup>	6.70%	1,037.1	6.69%	1,036.3
2006 <sup>3</sup>	9.60%	1,604.7	9.57%	1,599.0
2007	7.90%	1,450.0	7.51%	1,378.4
2008	4.27%	848.7	4.16%	826.8
2009 <sup>4</sup>	0.70%	145.7	0.19%	39.2
2010 <sup>4</sup>	0.00%	0.0	-3.00%	-626.9
2011	Reduce FY 2012 structural deficit by 33⅓%		36.90%/46.00% <sup>5</sup>	
2012	Reduce FY 2013 structural deficit by 50.0%		50.60%	
2013	Reduce FY 2014 structural deficit by \$200.0 million			-211.2
2014	4.00%	937.8	2.76%	646.4
	Reduce FY 2015 structural deficit by \$125.0 million			-126.1
2015	Reduce FY 2016 structural deficit by 50.0%		68.27%	
2016	4.85%	1,184.2	4.55%	1,111.2
2017	Reduce FY 2018 structural deficit by at least 50%		90.19%	
2018	Eliminate 100% of the FY 2019 structural deficit		100%	

<sup>1</sup>2000 legislative action does not reflect \$266 million of Cigarette Restitution Fund (CRF) appropriations. CRF dollars were excluded because it had not previously been available to the State. The 2000 growth rate, including CRF dollars, was 9.16%.

<sup>2</sup>Methodology revised effective with the 2001 session.

<sup>3</sup>The committee initially approved a limit of 5.70% for 2005 and 8.90% for 2006.

<sup>4</sup>Legislative action calculation includes federal funds under the American Recovery and Reinvestment Act of 2009 used in lieu of ongoing general fund spending.

<sup>5</sup>Spending reduction/total reduction.

GAAP: generally accepted accounting principles

<sup>(1)</sup> From the Board of Revenue Estimates, March 2018, with adjustments for actions at the 2018 legislative session.

<sup>(2)</sup> Includes revenues from the courts, interest earnings, hospital patient recoveries, and other miscellaneous revenues.

<sup>(3)</sup> The Budget Reconciliation and Financing Act (BRFA) of 2013 (Chapter 425) established a distribution of transfer tax revenues to the General Fund for fiscal 2014 to 2018. Chapter 10 of the 2016 session reduced the distribution in fiscal 2018 by \$40.0 million.

<sup>(4)</sup> The Comptroller's annual analysis of the local income tax reserve account determined that the account was overfunded at the end of fiscal 2016 by \$47.4 million.

<sup>(5)</sup> The BRFA of 2017 (Chapter 23) distributed to the General Fund in fiscal 2018 casino revenues that would normally go to the Small, Minority and Women-Owned Businesses Account.

<b>Total Revenues</b>	<b>\$4,394.0</b>	<b>\$4,524.9</b>	<b>\$130.8</b>	<b>3.0%</b>	<b>5.7%</b>

(1) Data reflects sales tax revenue remitted to the Comptroller from August through October that were collected by retailers from July through September.

(2) Includes revenues from the courts, interest on investments, miscellaneous revenues, and hospital patient recovery revenues from Medicare, insurance, and sponsors. Fiscal 2018 includes \$5.0 million in casino revenue representing money that would normally go to the Small, Minority, and Women-Owned Businesses Account but was diverted to the General Fund per the Budget Reconciliation and Financing Act (BRFA) of 2017 (Chapter 23). Fiscal 2018 also includes \$46.0 million in transfer tax revenue. Fiscal 2019 reflects a transfer of \$40 million from general fund personal income tax collections to the Commission on Innovation and Excellence in Education Fund as required by the BRFA of 2018 (Chapter 10).

<sup>(1)</sup> Fiscal 2019 and fiscal 2020 reflect revenues of \$62.9 million and \$99.1 million, respectively, from out of state retailers following the Supreme Court decision allowing states to require those sellers to collect and remit the sales tax (*South Dakota vs. Wayfair*).

<sup>(2)</sup> Corporate filing fees decline in fiscal 2020 due to implementation of Chapters 323 and 324 of 2016 which exempts companies that participate in the Maryland Small Business Retirement Savings Program and Trust or otherwise offer a retirement savings arrangement from the annual filing fee for corporations and business entities.

<sup>(3)</sup> Estate tax revenues decline due to Chapter 612 of 2014 which raised the unified credit over a number of years and Chapter 15 of the 2018 which sets the credit at \$5 million beginning in calendar 2019.

<sup>(4)</sup> The Budget Reconciliation and Financing Act (BRFA) of 2013 (Chapter 425) established a distribution of transfer tax revenues to the general fund for fiscal 2014 to 2018. Chapter 10 of 2016 reduced the distribution in fiscal 2017 by \$20.0 million and in fiscal 2018 by \$40.0 million.

<sup>(5)</sup> The BRFA of 2017 (Chapter 23) distributed to the general fund casino revenues that would normally go to the Small, Minority and Women-Owned Businesses Account in fiscal 2018.

<sup>(6)</sup> The BRFA of 2018 (Chapter 10) distributed \$200 million of personal income tax revenues to the Commission on Innovation and Excellence in Education Fund created by the bill.

<sup>(7)</sup> Chapters 4/550 of 2017 as amended by the BRFA of 2018 requires the Board of Revenue Estimates, beginning with fiscal 2020, to calculate an adjustment to the general fund revenue estimate based on the share of revenues from non-withholding personal income tax payments relative to the historical average.

Note: Other includes revenues from the courts, hospital patient recoveries, interest earnings and other miscellaneous revenues. The September estimate has been adjusted in both fiscal 2019 and 2020 to reflect additional miscellaneous revenue related to a court ruling.

SMWOBA: Small, Minority, and Women-Owned Businesses Account

RTFRA: Race Tracks Facility Renewal Account

<sup>(1)</sup> The December estimate for fiscal 2020 reflects a reduction in Education Trust Fund (ETF) revenue as a result of an increase in the licensee shares approved by the Maryland Lottery and Gaming Commission in December 2018. The Commission increased the licensee share of video lottery terminal revenues at the Live!, Horseshoe and Hollywood casinos effective July 1, 2019. The change increases the licensee share at Live! from 49% to 51%, at Horseshoe from 46% to 49% and at Hollywood from 39% to 44%. In the absence of these changes, total revenues to the ETF would have been revised up in fiscal 2020 by \$8.4 million relative to the September estimate.

<sup>(2)</sup> The Budget Reconciliation and Financing Act of 2017 (Chapter 23) diverted the distribution that normally goes to the SMWOBA to the General Fund in fiscal 2018 and to the ETF in fiscal 2019 and 2020. The distribution is 0.75% of gross video lottery terminal revenues at the Rocky Gap facility and 1.5% at all other casinos.

**Fiscal 2020-2024**  
**(\$ in Millions)**

	<u>2020</u>	<u>2021</u>	<u>2022</u>	<u>2023</u>	<u>2024</u>
<b>Ongoing Funding</b>					
Education Trust Fund Revenues*	\$125	\$250	\$375	\$540	\$545
<b>One-time Funding</b>					
Commission on Innovation and Excellence in Education Fund**	\$200				

\* Funds must be used as supplemental funding for K-12 Education and may include school construction.

\*\* Funds must be used to implement final recommendations of Commission. Funds may be spent in a single year or over multiple years.

# Potential Uses of Fund Balance

---

## **Bolster Reserves**

- Leave balance in Rainy Day Fund of 6% to 7% of general fund revenues, better positioning State to respond to an economic downturn and the budget challenges forecast for fiscal 2021 to 2024.

## **One-time Infrastructure Spending**

- Fund taxable debt with cash rather than bonds.
- Use pay-as-you-go to expand capital program in fiscal 2020 or replace general obligation bonds.
- Fund comprehensive study of facilities maintenance/renewal needs.

## **Fund One-time Costs Associated with the Recommendations of the Commission on Innovation and Excellence in Education**

- Training for State and local school system leadership, senior staff, principals, and teachers.
- Information technology upgrades/enhancements.
- Development of expanded curriculum/syllabi/professional development, *etc.*

## **Address Unfunded Liabilities**

- Other Post Employment Benefits = \$11.4 Billion
- Workers' Compensation = \$400 Million
- Allocating small sum will have minimal impact absent a multi-year funding plan.

## Part 4

---

### **Fiscal 2020 Baseline Budget Estimate**

## Potential Fiscal 2019 General Fund Deficiencies Are Mostly Offset by Projected Underspending in Medicaid, Public Safety, and Juvenile Services (\$ in Millions)

---

<p><b>Fiscal 2018 Deficiencies:</b> Medicaid, lower than budgeted special fund attainment (\$42.0 million), higher substance use disorder treatment costs (\$3.0 million), and higher enrollment in the Maryland Children's Health Program (MCHP) (\$0.2 million); State Department of Assessments and Taxation (SDAT) funding for various tax credits (\$7.5 million); Office of the Public Defender operating costs (\$1.3 million); and Department of Information Technology (DoIT) operating costs and security contracts (\$1.1 million).</p>	\$55.1
<p><b>Long-term Liabilities:</b> Developmental Disabilities Administration federal fund audit disallowance (\$34.2 million) and refunds of improperly collected fiscal 2014 contribution to care payments (\$1.2 million).</p>	35.4
<p><b>Fiscal 2019 Salary Enhancements:</b> April 1, 2019 \$500 one-time bonus (\$25.3 million) and 0.5% general salary increase (\$5.1 million).</p>	30.3
<p><b>Mandates and Entitlements:</b> Medicaid, primarily higher costs for substance use disorder treatment (\$15.7 million), and enrollment growth in MCHP (\$1.2 million); SDAT Homeowners Tax Credit estimated funding need (\$6.7 million); and Department of Human Services foster care costs based on revised caseload, placement mix, and the implementation of Chapters 815 and 816 of 2018, which reduce recipient contribution to care requirements (\$5.2 million).</p>	28.8
<p><b>Operating Expenses:</b> DoIT operating costs and security contracts (\$1.1 million) and Stadium Authority operating subsidy for the Baltimore City Convention Center (\$0.5 million).</p>	1.6
<p><b>Fiscal 2019 Overfunding:</b> Public Safety and Correctional Services turnover savings (\$72.3 million) partially offset by increased overtime costs (\$26.0 million); Medicaid favorable enrollment trends and higher use of managed care (\$63.0 million); and Department of Juvenile Services favorable trends in per diem placements (\$6.4 million).</p>	-115.7
<p><b>Total Deficiencies</b></p>	<b>\$35.5</b>

## Fiscal 2020 Baseline Budget Forecast Assumptions

### Baseline Budget Concepts

- The baseline budget is an estimate of the cost of government services in the next budget year based on a set of assumptions. Assumptions include that current laws, policies, and practices are continued; federal mandates and multi-year commitments are observed; legislation adopted at the prior session is funded; and full-year costs of programs, rate increases, and any other enhancements started during the previous year are included.
- Major inflation assumptions include natural gas (4.3%), medical care and medicine/drugs at State facilities (3.7%), utilities/electricity (3.2%), postage (2.4%) food (2.2%), and gas and oil (-7.4%).
- Employee compensation costs include:
  - annualization of fiscal 2019 salary increases (January 1, 2019 2.0% general salary increase and April 1, 2019 0.5% general salary increase);
  - a general salary increase of 1.0% effective July 2019 and funding for employee increments on the regular July-January schedule;
  - employee and retiree health insurance costs increase slightly based on available fund balance and savings under the recent pharmacy contract (1.1%); and
  - employee retirement costs increase slightly due to higher than projected membership in the reformed plan, average returns being close to expectations, and lower than projected salary growth (0.9%).
- The higher education grant is calculated primarily on growth in mandatory costs and assuming a 3.0% tuition increase.

### Caseload Assumptions

	<u>FY 2018</u>	<u>FY 2019</u>	<u>FY 2020</u>	<u>% Change FY 2019-2020</u>
Pupil Enrollment*	852,520	860,806	866,977	0.7%

<sup>(1)</sup> Includes the Heritage Structure Rehabilitation Tax Credit Reserve Fund.

Note: The fiscal 2018 working appropriation includes \$52.0 million in targeted reversions, \$35.0 million in anticipated reversions, \$116.3 million in deficiencies and legislative reductions to the deficiencies. The fiscal 2019 adjusted legislative appropriation reflects \$35.0 million in anticipated reversions and estimated deficiencies of \$35.5 million. In fiscal 2019, the legislature reduced the budget by \$69.9 million but provided authorization for those funds to be used for a variety of purposes. Spending the \$69.9 million is at the discretion of the Governor.

### General Fund Operating Expenditures Growth Fiscal 2019 Adjusted Legislative Appropriation to Fiscal 2020 Baseline (\$ in Millions)

DDA: Developmental Disabilities Administration  
 ETF: Education Trust Fund  
 HE: Higher Education  
 USM: University System of Maryland

## Components of General Fund Budget Change (\$ in Millions)

### Summary of Budget Growth Compared to Adjusted Legislative Appropriation

	<u>Dollars</u>	<u>Share of Growth</u>
Ongoing Requirements/Entitlements	\$535.8	62.0%
State Agency Costs	328.6	38.0%
<b>Growth in Operating Budget, Including Anticipated Deficiencies</b>	<b>\$864.5</b>	
Pay-as-you-go (PAYGO)	\$37.5	
Appropriation to Reserve Fund	528.4	
Reversions	0.0	
<b>Total Baseline Increase in State Expenditures</b>	<b>\$1,430.3</b>	
Deficiency Appropriations	-\$35.5	
<b>Total</b>	<b>\$1,394.8</b>	

### Ongoing Requirements/Entitlements

Education and Library aid formulas and other grants including Chapter 357 of 2018 that authorized the Constitutional Amendment establishing gaming revenues as supplemental education funding (\$125.0 million), Chapter 361 of 2018 requiring level funding for preschool expansion (\$15.0 million), Chapter 556 of 2018 Head Start (\$1.2 million), and Chapter 560 of 2018 State Free Feeding Program (\$1.1 million)		\$313.5
Medical assistance including mandated 3.5% behavioral provider rate increase (\$10.0 million) and Chapter 621 of 2018 Pilot Adult Dental Program (\$2.5 million)		165.0
Debt service		22.0
Community college formula plus miscellaneous grants		18.8
Foster Care payments including need to offset lower cost of care contributions as a result of Chapters 815 and 816 of 2018 (\$1.9 million), lower federal funds due to the end of the Title IV-E waiver, and caseload changes		8.5
Disparity grant formula		7.0
Local health department funding		1.4
Other entitlements and local aid		-0.4

### State Agency Costs

#### Statewide Personnel Expenses (Excluding Higher Education):

Merit pay (increments)		\$42.1
Annualization of January 1, 2019 1.0% and April 0.5% general salary increases		31.4
General salary increase (1.0%)		23.1
Employee retirement (0.9%)		17.2
Health insurance (1.1%)		7.5

**Impact of 2018 Legislation**

Chapter 554 of 2018 Maryland Community College Promise Scholarships	\$15.0
Chapter 148 of 2018 Public Safety and Violence Prevention Act	7.0
Chapter 18 of 2018 2020 Census Grant Program	5.0
Chapter 147 of 2018 Baltimore City Safe Streets Initiative	3.6
Chapters 209 and 210 of 2018 Crisis Response Grant Program	3.0
Chapters 566 and 567 of 2018 Cyber Warrior Diversity Program	2.5
Chapter 590 of 2018 Medical Research Funding	2.5
Chapter 578 of 2018 Cybersecurity Incentive Tax Credits	2.0
Chapter 698 of 2018 State Lakes Protection and Restoration Fund	1.2
Chapter 558 and 559 of 2018 Thrive by Three Fund	1.1
Chapters 731 and 732 of 2018 Financial Consumer Protection Act	1.0
Chapter 597 of 2018 Leadership with Honor Scholarship Program	1.0
Chapter 358 of 2018 Computer Science Curriculum and Professional Development	1.0
Chapter 786 of 2018 Veteran Employment and Transition Success Program	0.5
Chapter 595 of 2018 Film Production Activity Tax Credit	-5.0

**Other Major Agency Programmatic and Operating Expenses:**

University System of Maryland: General funds required to cover growth in base costs not provided for through tuition and Higher Education Investment Fund revenue	\$125.0
Developmental Disabilities Administration: Fiscal 2020 expansion (\$20.7 million), 2% provider rate increase (\$13.2 million), and annualization of fiscal 2019 expansion (\$9.9 million)	43.9
Major Information Technology Development Projects	7.4
Sellinger Formula for Aid to Private Colleges and Universities	5.3
Morgan State University: Growth in State operating grant support	4.6
Behavioral Health Administration: Behavioral health services for the uninsured including mandated 3.5% provider rate increase	4.2
Maryland Higher Education Commission: Educational Excellence Awards	2.5
Judiciary: New judges and associated personnel (\$1.2 million), and operating costs at Catonsville Courthouse (\$0.9 million)	2.2
Maryland State Arts Council grant increase	1.7
Juvenile Services: Provider rate increases (2%)	1.2
School Construction: Removal of one-time school facility assessment	-4.9
Public Safety: Savings derived from increased turnover that more than offset higher overtime	-6.2
Juvenile Services: Savings from favorable trends in per diem placements	-6.4
Commerce: Lower than anticipated demand for the More Jobs for Marylanders Tax Credit	-9.0
Removal of one-time Amazon Sunny Day fund support	-10.0
University of Maryland Capital Region Medical Center: Scheduled reduction in mandated operating support	-12.0
Public Safety: Savings from inmate medical contract	-12.9
Other	-6.1

**Reserve Fund and PAYGO**

PAYGO: Chapter 561 of 2018 Healthy School Facility Fund	\$30.0
PAYGO: Chapters 639 and 640 of 2018 Continuing the Creating Opportunities for Renewal and Enterprise Partnership Fund	30.0
PAYGO: Re-basing the Baltimore Regional Neighborhood Initiative and SEED Community Development Anchor Institution Fund	5.0
PAYGO: Chapters 687 and 688 of 2018 Community Colleges Facility Renewal Grant Program	3.0
PAYGO: Other changes	-1.5
PAYGO: University of Maryland Capital Region Medical Center	-29.0
Reserve fund: Unassigned fiscal 2018 fund balance per statute including \$50 million for the pension sweeper	485.5
Reserve fund: Required fiscal 2020 Program Open Space Repayment	42.9
<b>Total</b>	<b>\$1,394.8</b>

### Medicaid – Why General Funds Grow Fiscal 2019-2020 (\$ in Millions)

- The federal matching rate for the Affordable Care Act expansion population falls from 93.5% to 91.5% in fiscal 2020, resulting in an increase of \$60.1 million in general funds. The federal matching rate for the Maryland Children’s Health Program falls from 88.0% to 79.4% in fiscal 2020, resulting in an increase of \$29.8 million in general funds.
- Special fund availability declines, primarily as a result of the planned \$40 million drop in the Medicaid deficit assessment.
- The fiscal 2020 baseline assumes mandated rate increases of 3.5% for behavioral health services, 3% for discretionary provider rates, and 2% for regulated services and includes the impact of the mid-year calendar 2018 Managed Care Organization (MCO) rate increase (2%) and the calendar 2019 MCO rate increase (-1.7%).
- Enrollment growth is expected to be only 1.8% in fiscal 2019 over fiscal 2018, slowing to 1.5% in fiscal 2020 with total enrollment just over 1.4 million. Most of the enrollment growth is in eligibility groups with an enhanced match.

# Medicare Part D Transition

---

## Projected Savings to the State Transition of Medicare-eligible Retirees to Medicare Part D Fiscal 2020-2021

	<u>2020</u> <u>Savings</u>	<u>2021</u> <u>Savings</u>
Medicare-eligible Rx Claims Savings	\$104.5	\$223.6
Loss of EGWP Revenue	-38.9	-83.2
Loss of Medicare-eligible Retiree Premiums	-9.5	-20.3
Loss of Federal Payment to General Fund	-6.4	-12.8
<b>State Cost Savings</b>	<b>\$49.7</b>	<b>\$107.3</b>
<b>General Fund Cost Savings</b>	<b>\$27.3</b>	<b>\$59.2</b>

EGWP: Employer Group Waiver Plan  
Rx: prescription drug

\*Prescription drug claims net of rebates.

Source: Department of Budget and Management; Department of Legislative Services

- Transition of Medicare-eligible retirees to Medicare Part D will result in an annual cost savings of \$59.2 million in fiscal 2021. Savings will grow in the out-years due to the elimination of prescription drug claims costs.
  
- **Other Post Employment Benefits (OPEB) liability of the State decreased from \$16.1 billion to \$9.7 billion in July 1, 2011, as a result of the 2011 Pension Reform. The decrease was primarily due to the elimination of State-provided post-Medicare prescription drug coverage. As of July 1, 2017, the State’s OPEB liability was \$11.4 billion.**
  
- In September 2018, a lawsuit was filed in Baltimore City Circuit Court to challenge the planned transition beginning in January 2019.
 

*“If the plaintiffs are successful, the result would significantly increase Maryland’s OPEB liability and cast doubt on the degree of legal flexibility wielded by states to change retiree health benefits, a credit negative.”* – Moody’s Investors
  
- In October 2018, a federal judge granted a temporary restraining order and preliminary injunction, delaying the transition to Medicare Part D until a decision came on the lawsuit.

## Transportation Trust Fund Forecast (cont.)

---

### Observations

- Revenues and spending in the Maryland Department of Transportation (MDOT) draft fiscal 2019-2024 Transportation Trust Fund (TTF) forecast are \$518 million higher than in the fiscal 2018-2023 TTF forecast. Tax and fee revenue increases \$428 million, and other revenue sources add an additional \$90 million compared with MDOT's previous forecast. On the expenditure side, higher projected debt service, operating expenses, and the ramp up of Availability Payments to the Purple Line concessionaire combine to increase spending by \$884 million. This more than offsets the revenue increase and results in a reduction to the State-funded capital program of \$716 million compared to the previous forecast.
- Chapters 330 and 331 of 2018 converted transportation aid to local governments from a share of revenues (Highway User Revenues) to mandated capital grants and also increased local aid to an amount equivalent to 13.5% of revenues credited to the Gasoline and Motor Vehicle Revenue Account (previously 9.6%). This increase sends an additional \$340 million to local governments.
- The Department of Legislative Services' (DLS) fiscal 2019-2024 TTF forecast varies only slightly from the MDOT draft forecast.
  - Tax and fee revenue in the DLS forecast is \$124 million less than MDOT assumes in its draft forecast, primarily due to a slower rate of growth in motor fuel sales.
  - The DLS fiscal 2020 baseline estimate for operations is \$47 million higher than the MDOT forecast due largely to higher pension contributions and estimated salary increases for union employees that will be set through collective bargaining or binding arbitration.
  - The DLS forecast assumes a reduction in bond issuances of \$44 million, in fiscal 2020 only, in order to maintain minimum debt service coverage ratios. The impact of lower revenues, higher operating expenses, and lower bond issuances results in an estimated State capital program that is \$154 million less over six years than that in the MDOT draft forecast.

## Draft Consolidated Transportation Program

---

- Programmed spending in the draft fiscal 2019-2024 *Capital Transportation Program* (CTP) is \$1.2 billion (8.3%) higher than in the fiscal 2018-2023 CTP. The State program (which excludes mandated local grants) is \$72.2 million lower in the draft CTP compared to the prior year program.
  - MDOT has requested \$793 million in general funds to support the new mandated grant to the Washington Metropolitan Area Transit Authority (WMATA). To the extent that general funds are not provided, MDOT will have to reduce programmed spending to make room in the CTP for the WMATA grant.
-

<b>Total</b>	<b>\$14,815.4</b>	<b>\$16,044.9</b>	<b>\$1,229.5</b>	<b>8.3%</b>

CTP: Consolidated Transportation Program

WMATA: Washington Metropolitan Area Transit Authority

Source: Maryland Department of Transportation, 2018-2023 final Consolidated Transportation Program, 2019-2024 draft Consolidated Transportation Program

---

- The \$1.0 billion increase for WMATA comprises the new capital grant (\$835 million), debt service on series 2017 and 2018 bonds (\$107.3 million), and mandated increases to the base capital grant (\$101.6 million).
- The \$887.7 million reduction in State Highway is nearly evenly split between funding for major projects and funding for safety, congestion relief, and community enhancement projects.
- Mass transit funding decreases by \$151.6 million, but this reflects declining spending on the Purple Line light rail project for which construction is scheduled to be complete in fiscal 2023. If Purple Line spending is excluded, mass transit spending increases by \$168 million largely due to increased funding for system preservation and for Metro and light rail safety improvements.

## **Part 8**

### **Capital Program and State Debt Policy**

# Capital Program

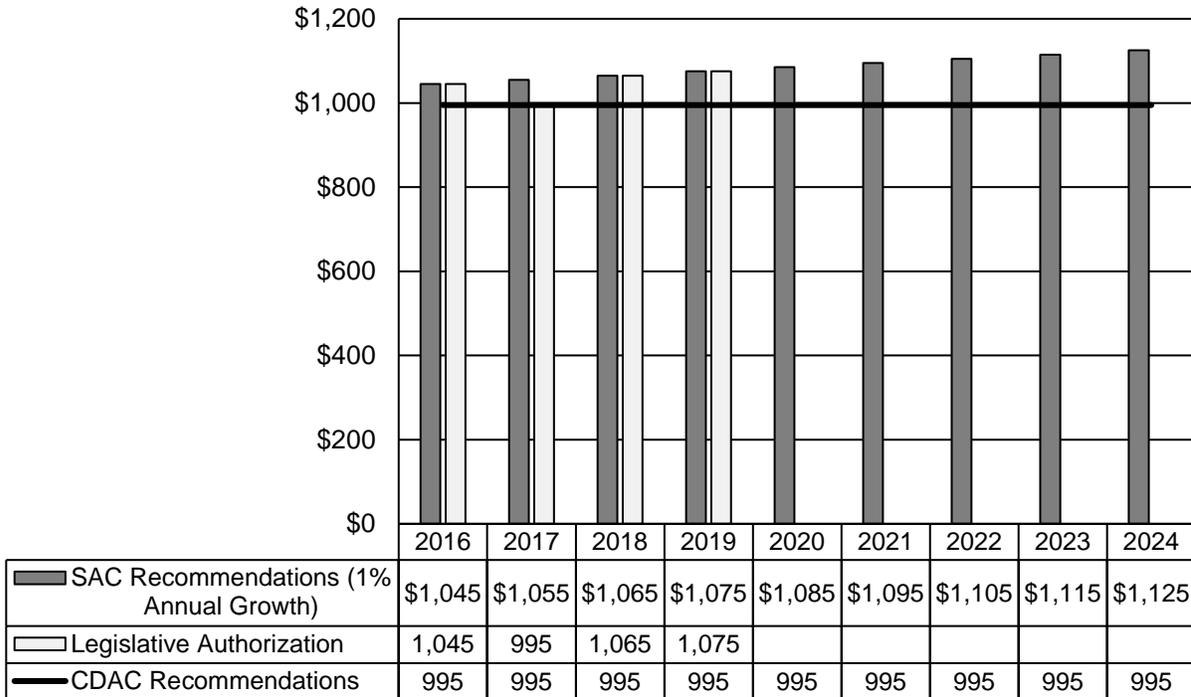

---

## GO Bond Fund Outlook

- **Capital Debt Affordability Committee (CDAC) Recommends Annual \$995 Million General Obligation (GO) Bond Authorization Level:** The October 2018 CDAC recommendation would keep new GO bond authorizations at \$995 million annually through the planning period and continues the policy of scaled back annual authorizations. The 2017 Spending Affordability Committee (SAC) recommendation established a limit on new GO bond authorizations that increased by 1% on a year-over-year basis. This moderate growth rate limits increases in GO bond authorizations to less than the projected State property tax revenue increases.
  - The SAC recommendation would provide \$90 million more than the CDAC recommendation in fiscal 2020 and \$550 million more over the five-year planning period.
  - The higher SAC authorization level could be used to fund legislative commitments and help offset some of the impact of construction inflation.

## Capital Program (cont.)

### 2015-2018 CDAC and 2015-2017 SAC Recommended GO Bond Authorization Levels Fiscal 2016-2024 (\$ in Millions)

CDAC: Capital Debt Affordability Committee  
 GO: general obligation  
 SAC: Spending Affordability Committee

Note: The fiscal 2016 capital program was supplemented with the use of \$48 million in bond premiums, increasing the amount of new new bond proceeds made available to the capital program to \$1,043 million, and the fiscal 2019 capital program was supplemented with \$68 million in bond premiums, increasing the amount of net new bond proceeds made available to the capital program to \$1,143 million. The fiscal 2017 capital program was supplemented with \$122 million in general funds of which \$42.9 million fenced off in the State Reserve Fund was never appropriated, and \$16.8 million was reduced by actions of the Board of Public Works.

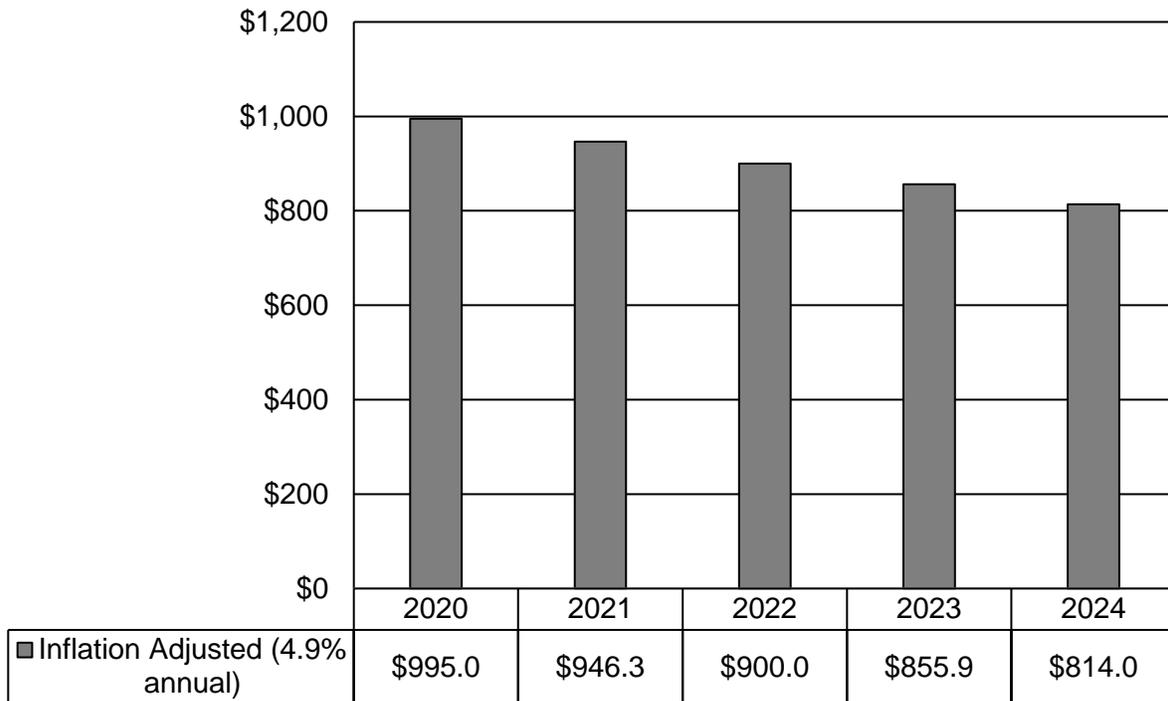

Source: 2015 through 2018 Capital Debt Affordability Committee report; 2016 and 2017 Spending Affordability Committee report.

## Capital Program (cont.)

---

- Impact of Construction Inflation on Bond Authorization Levels:** The CDAC’s 2018 recommendation, which is consistent with the levels programmed in the Governor’s 2018 *Capital Improvement Program* (CIP), does not include an annual inflation adjustment. Although the 2017 SAC recommendation provides for a 1% annual growth in GO bond authorizations, it is still well below the growth in the regional measure of construction inflation, which has averaged 4.9% from January 2016 through August 2018. Until the more recent policy to hold new annual GO bond authorizations at \$995 million, CDAC policy was to include a 3% annual increase to account for construction inflation and population growth.
-

---

## Capital Program (cont.)

### GO Bond Authorization Levels Are Insufficient to Meet Commitments

Capital commitments exceed the levels of GO bonds currently programmed in the 2018 CIP and recommended by CDAC by \$312 million for fiscal 2020 and by \$1 billion through fiscal 2023. The higher SAC recommended levels and some prudent use of general fund pay-as-you-go (PAYGO) would allow the State to meet more of its commitments.

### GO Bond Commitments Made in 2018 Exceed Programmed Authorization Levels Fiscal 2020-2023 (\$ in Millions)

CDAC: Capital Debt Affordability  
 CIP: *Capital Improvement Program*  
 GO: general obligation  
 SAC: Spending Affordability Committee

Note: Recent SAC policy established a limit on new GO bond authorizations that increase by 1% on a year-over-year basis. This moderate growth rate limits increases to below projected State property tax revenue increases, which reduces the ratio of debt service to revenues in the out-years.

## Capital Program (cont.)

- Increased Demand for General Fund Support for the Capital Program:** The fiscal 2020 baseline budget assumes the use of \$140.9 million in general funds compared to the \$65.5 million appropriated in the fiscal 2019 budget and \$53.9 million programmed in the CIP for fiscal 2020. The Department of Legislative Services general fund forecast for the period covering fiscal 2020 through 2023 assumes \$439.6 million of general fund PAYGO compared to just \$177.6 million programmed in the CIP.

### General Fund PAYGO CIP Compared to Forecast Fiscal 2020-2023 (\$ in Millions)

## Capital Program (cont.)

- Programs and Projects That Require the Issuance of Taxable Bonds Should Be Considered for General Fund PAYGO:** In periods of economic difficulty, the State has moved programs traditionally funded with general fund PAYGO to the GO bond funded portion of the capital program. While this allows general funds to be used for other budget priorities, it has resulted in the issuances of taxable bonds that cost more than tax-exempt bonds. As the State returns to a more stable general fund outlook, the programs that require the issuance of taxable bonds should be funded with general fund PAYGO. Based on current CIP programmed funding levels, \$65.9 million could be moved out of the GO bond portion of the capital budget that would free up capacity for other capital priorities.

## State Debt Policy – Affordability Ratios

---

- The Capital Debt Affordability Committee (CDAC) reviews State debt policy each year and issues a recommendation for the following legislative session by October 1.
    - CDAC’s policy is that State tax-supported debt outstanding should not exceed 4.0% of Maryland personal income.
    - State tax-supported debt service payments should not exceed 8.0% of State revenues.
  - Prior to 2015, CDAC policy was to allow 3% increases in general obligation (GO) bonds authorizations in the out-years. Current policies are more restrictive.
    - The current CDAC policy, which began in 2015, is to limit GO bond authorizations to \$995 million and maintain this limit in the out-years.
    - Current Spending Affordability Committee (SAC) policy is to limit out-year increases to 1%. This is less than the projected increase in State property tax and general fund revenues. If SAC adheres to this policy, fiscal 2020 authorizations are limited to \$1,085 million.
- 

### State Affordability Ratios Fiscal 2020-2024

<u>Year</u>	<u>Debt Outstanding to Personal Income</u>		<u>Debt Service to Revenues</u>	
	<u>CDAC</u>	<u>SAC</u>	<u>CDAC</u>	<u>SAC</u>
2020	3.45%	3.45%	7.38%	7.44%
2021	3.39%	3.39%	7.33%	7.50%
2022	3.32%	3.32%	7.44%	7.61%
2023	3.21%	3.22%	7.56%	7.75%
2024	3.13%	3.16%	7.32%	7.53%

CDAC: Capital Debt Affordability Committee

SAC: Spending Affordability Committee

## State Debt Policy – Affordability Risks

---

- Affordability risks include changes to interest rates, issuances, the definition of debt, personal income, and revenues.
  - Most of these factors pose a negligible or marginal risk.
  - However, two consecutive years of declining revenues could result in a breach in the debt service to revenue ratio. If revenues decline more than 2.7% over two years, debt service costs exceed 8% of revenues.
  - The recessions of 2001 and 2007-2009 resulted in revenue declines of 3% and 4%, respectively, over the first two years.
  - A mild or short recession does not necessarily result in a breach in revenues.
- 

### Revenues Required to Maintain Debt Service Affordability Ratios Above 8% Comparing October 2018 to the Two Most Recent Recessions (\$ in Millions)

	<b>October 2018: Base Year <u>Fiscal 2019</u></b>	<b>2007-2009 Recession: Base Year <u>Fiscal 2008</u></b>	<b>2001 Recession: Base Year <u>Fiscal 2001</u></b>
Base Year: State Supported Debt Total Revenues <sup>1</sup>	\$23,628	\$16,735	\$11,707
Minimum Affordable Revenues in Fiscal 2021 and Actual Revenues Two Years Later (Fiscal 2010 and 2003)	22,997	16,061	11,353
Total Change in Revenues	-\$631	-\$674	-\$354
Percent Change	-2.7%	-4.0%	-3.0%

<sup>1</sup> Revenues supporting State debt include general funds, State property taxes, Transportation Trust Fund revenues, Bay Restitution Funds, federal transportation funds, and certain Stadium Authority revenues, Education Trust Fund revenues, and transfer taxes.

Source: Department of Legislative Services, October 2018

---

## State Debt Policy – Share of Debt by Type of Debt

---

- Under current State debt policies, each type of debt has its own policies.
    - The Capital Debt Affordability Committee’s policy is to strictly limit general obligation (GO) bond authorizations to \$995 million.
    - The transportation debt program is fully leveraged so that its net revenues are 2.5 times debt service, which is management’s coverage limit.<sup>1</sup>
    - The other State debt is being reduced as authorizations expire or non-State debt is issued instead.
  - From fiscal 2019 to 2024, the amount of nontransportation debt outstanding (GO, Bay, and leases) declines by \$283 million, while the amount of transportation debt outstanding (transportation bonds and Grant Anticipation Revenue Vehicles) increases by \$844 million.
- 

### State Debt Outstanding Fiscal 2019 and 2024 (\$ in Millions)

<u>Type of Debt</u>	<u>2019</u>	<u>2024</u>	<u>Percent Change</u>	<u>Current Policy</u>
GO Bonds	\$9,962	\$9,837	-1.3%	The Capital Debt Affordability Committee limits debt to \$995 million indefinitely
Transportation Bonds	3,343	4,236	26.7%	Maximum leverage so that coverage ratios are at their limit
GARVEEs	49	0	-100.0%	Legislation limited issuances to only support Intercounty Connector project
Bay Restoration Bonds	253	219	-13.4%	Issuances determined by bay restoration revenues available for debt service and project size
Capital Leases	181	109	-39.8%	Issue as needed
Stadium Authority Bonds	65	13	-80.0%	Issue less State debt and instead issue debt supported by lottery proceeds
<b>Total</b>	<b>\$13,853</b>	<b>\$14,414</b>	<b>4.0%</b>	

GARVEE: Grant Anticipation Revenue Vehicles

GO: general obligation

---

<sup>1</sup> The covenant is that coverage will not fall below 2.0. It is a longstanding Maryland Department of Transportation policy to keep it at 2.5 to avoid a breach of covenant if revenues underperform or spending exceeds projections.

## State Debt Policy – Debt Service Costs

- The forecast projects increasing interest rates, reduced bond sale premiums, and a constant State property tax rate of \$0.112 per \$100 of assessable base.
- As premiums decline general fund debt service appropriations are expected to increase to \$500 million, ending this unusual period of high premiums and low general fund appropriations.
- Out-year general fund appropriations plateau at 2.5% of general fund revenues and 36% of debt service costs, which is consistent with historical averages.

### Annuity Bond Fund Forecast Fiscal 2019-2024 (\$ in Millions)

	2019	2020	2021	2022	2023	2024

## State Debt Policy – Keeping Debt Service Costs Down

- Fiscal 2018 ended with a \$590 million general fund balance. The Bureau of Revenue Estimates added \$325 million to fiscal 2019 and \$377 million<sup>2</sup> to fiscal 2020 revenues. General funds are available to support the capital program and keep debt service costs down.
- The cost of issuing \$100 million in general obligation bonds, assuming a 5% coupon rate, is \$148.4 million, which is \$10.6 million in annual debt service costs.
- Taxable bonds are more expensive. The Department of Budget and Management fiscal 2019 *Capital Improvement Plan* assumes \$66 million in taxable, private activity bonds in fiscal 2020.
- **To reduce debt service costs, the Department of Legislative Services (DLS) recommends that the State use fund balances to support capital needs and minimize reliance on GO bonds.**
- **DLS also recommends that the State fund private loan projects and programs that do not qualify for tax-exempt bonds with cash in fiscal 2020.**
