Analysis of the FY 2019 Maryland Executive Budget, 2018

Capital Program

Quick Look at Fiscal 2019 Capital Budget and Potential Legislative Considerations

Fiscal 2019 Capital Budget Totals \$1.733 Billion

- **Debt Components:** \$995.0 million of new general obligation (GO) bonds plus another \$5.2 million of GO bonds recycled from de-authorizations, \$24.0 million of Academic Revenue Bonds (ARB), and \$150.0 million of revenue bonds to be issued by the Maryland Department of the Environment (MDE) to fund various drinking and water quality projects.
- **Pay-as-you-go (PAYGO) Components:** \$20.3 million in general funds includes \$8.9 million for the Sustainable Communities Tax Credit, \$6.0 million budgeted in the Dedicated Purpose Account for repayment of diverted transfer tax funds for the Department of Natural Resources (DNR) Critical Maintenance Program as required by Chapter 10 of 2016, and \$4.9 million for the Public School Construction Program. The PAYGO portion of the capital program is also supported with \$470.2 million in special funds and \$67.9 million in federal funds.

Funding Highlights and Other Considerations

- **GO Bond Authorization Levels Are Consistent with the Capital Debt Affordability Recommendation but Below Spending Affordability Limits:** Proposed new GO bond authorization amount is \$80.0 million below the level recommended by the Spending Affordability Committee (SAC) for fiscal 2019 and \$500.0 million below the SAC recommendation through the five-year *Capital Improvement Program* (CIP) covering fiscal 2019 through 2023.
- **General Fund Support of the Capital Program Remains Constrained:** The fiscal 2019 baseline assumed the use of \$78.4 million in general funds, as compared to the \$20.3 million in the fiscal 2019 budget as introduced.
- **Mandate Funding Relief:** Several provisions in the Budget Reconciliation and Financing Act (BRFA) of 2018 (SB 187) amend mandates on the capital program, which result in \$58.0 million of general funds that are contingently reduced in the budget.
- **No Funding for Local Initiatives:** Traditionally, the Governor's capital budget includes an earmark for the funding of local initiatives selected by the House of Delegates and the Senate. As introduced, the fiscal 2019 budget provides no funding earmarked, and the 2018 CIP programs no funding for local initiatives through the five-year planning period covering fiscal 2019 through 2023.

Fiscal 2019 Capital Program

Exhibit 1 shows the level of capital investment from fiscal 2009 through the proposed fiscal 2019 budget. All funds included, the fiscal 2019 capital program, excluding transportation, totals \$1.733 billion.

Exhibit 1
Capital Funding by Major Source
Fiscal 2009-2019
(\$ in Millions)

GO: general obligation
 PAYGO: pay-as-you-go

Source: Department of Budget and Management

Debt Components

- **GO Bonds:** GO bond authorizations for the 2018 session total \$1.000 billion, comprised of \$995.0 million in new authorizations and \$5.23 million in the reprogramming of de-authorizations proposed in the bill. The budget no longer includes bonds for the Qualified Zone Academy Bond (QZAB) program, which was not re-authorized by Congress.
- **Revenue Bonds for Environmental Water Quality and Drinking Water Programs:** The budget authorizes \$150.0 million of revenue bond debt to be issued by MDE to provide loans to local governments to fund water quality projects administered by MDE through the Water Quality Revolving Loan Fund (WQRLF). Actual issuances will take place when the cash flow needs of approved local government projects require reimbursement by MDE. Since the source of payment for this debt is the principal and interest payments from the loan proceeds, the debt is not considered a debt of the State or counted in the debt affordability calculations. Last session, the budget included \$300.0 million in revenue bond authorization (\$200.0 million for the WQRLF and \$100.0 million for the Drinking Water Revolving Loan Fund (DWRLF)). Recognizing the funds in the budget submission provided MDE the authority to commit financing. In the most recent round of project solicitations, the department received \$1.4 billion in drinking water and water quality funding and financing requests.
- **ARBs:** Additional debt authorizations include \$24.0 million of ARBs for University System of Maryland (USM) projects, which is \$7.0 million less than was authorized last session. The decrease is consistent with language added to Chapter 471 of 2015 (which increased authorization levels by \$20.0 million above what was programmed for fiscal 2016), to accelerate the funding for USM projects. This resulted in the restructuring of planned out-year ARB authorizations to keep the total level of authorizations the same.

PAYGO Capital

Exhibit 2 shows the level of capital PAYGO investment from fiscal 2009 through the proposed fiscal 2019 budget. The PAYGO component of the capital program, comprised of general, special, and federal fund capital appropriations in the operating budget bill, totals \$558.4 million.

Exhibit 2
PAYGO Capital Funding
Fiscal 2009-2019
(\$ in Millions)

PAYGO: pay-as-you-go

Source: Department of Budget and Management

- General Funds:** The use of general funds in support of the capital program is constrained by projected structural budget deficits, which limit the availability of general fund support for the capital program. In total, the budget provides only \$20.3 million in general fund PAYGO, including \$8.9 million for the Sustainable Communities Tax Credit program, \$6.0 million in the Dedicated Purpose Account for repayment of diverted transfer tax funds for the DNR Critical Maintenance Program as required by Chapter 10 of 2016, and \$4.9 million for the Public School Construction Program to replace QZAB funds. As introduced, the Governor’s fiscal 2019 budget includes \$78.3 million in general fund PAYGO, of which \$58.0 million is contingently reduced through various provisions in the BRFA of 2018.

Capital Budget Fiscal Briefing

- **Special Funds:** Comprised primarily of funds from the Bay Restoration Fund (BRF), the WQRLF, the DWRLF, transfer-tax-funded programs, and the Department of Housing and Community Development (DHCD) grant and loan programs, special funds total \$470.2 million.
- **Federal Funds:** The capital program is supported with \$67.9 million of federal funds, much of which supports water quality and drinking water loan program grants and loans, and programs administered by DHCD.

Fiscal 2019 Compared to Fiscal 2018 Capital Program

Exhibit 3 compares fiscal 2018 and the proposed fiscal 2019 capital program funding by major fund source.

Exhibit 4 further illustrates, by major funding category, where the proposed fiscal 2019 capital investments will be targeted as compared to the fiscal 2018 capital program.

Exhibit 4
Fiscal 2019 Proposed Capital Program Compared to Fiscal 2018 Program
By Major Funding Category
 (\$ in Millions)

Source: Department of Budget and Management

Exhibits 5 and 6 compare programmed funding levels in the 2017 CIP relative to the revised funding levels in the 2018 CIP. **Appendix 1** shows the top funded capital projects and programs for fiscal 2019 by major fund source. **Appendix 2** summarizes the capital program by function, and **Appendix 3** provides a list of the projects included in the proposed fiscal 2019 capital budget.

Major Investments by Category

- State Facilities:** \$20.5 million for the Department of General Services Facility Renewal Program; \$12.0 million to complete the construction of the new Catonsville District Court; \$10.5 million for the Public Safety Communication System (the State’s estimated \$336.0 million investment will conclude in fiscal 2020).
- Health/Social:** \$19.0 million for the University of Maryland Capital Regional Medical Center (UMCRM), formerly known as the Prince George’s Regional Medical Center (statute mandates the State’s commitment for fiscal 2019 at \$48.0 million – a provision in the BRFA contingently reduces \$29.0 million in general funds budgeted in the Board of Public Works (BPW) and shifts this to fiscal 2021); \$12.0 million for University of Maryland Medical System (\$10 million for the final installment of a \$50.0 million commitment to the construction of a new Ambulatory Care facility and other infrastructure-related projects, and \$2.0 million for infrastructure improvements to the R Adams Cowley Shock Trauma Center); \$5.5 million for private hospitals through the Maryland Hospital Association; and \$5.0 million for the Johns Hopkins Cell Therapy Center.

Capital Budget Fiscal Briefing

- **Environment:** \$446.0 million for various programs and projects that address water quality, drinking water, and BRF projects; \$58.9 million for Stateside Program Open Space (POS); \$52.4 million for local POS; \$25.0 million for Rural Legacy; \$27.4 for DNR Critical Maintenance and Park Development projects; \$15.0 million for Waterway Improvement Fund projects; and \$49.0 million for the Agricultural Land Preservation Program.
- **Public Safety:** \$5.0 million to begin the demolition of buildings at the Baltimore City Correctional Complex. Funding for the replacement of both the men's and women's detention facilities, estimated at \$450.0 million to complete and a central component of the Department of Public Safety and Correctional Services most recent Facility Master Plan, were both removed from the State's capital plan in the 2017 CIP submission. Over the past two years, the populations of both the men's and women's facilities have been moved to other facilities within the complex and to the Jessup Correctional Institute. The budget also provides \$7.3 million for State participation in local jail projects.
- **Education:** \$361.5 million for public school construction. This includes \$309.0 million in GO bond funds for the traditional school construction program, which is \$29.0 million more than was programmed in the 2017 CIP. The traditional public school construction program is further enhanced with \$4.9 million in general funds to replace bond funds lost when the U.S. Congress did not re-authorize the QZAB program. In addition, the budget provides \$40.0 million for the Local School Systems with Significant Enrollment Growth and Relocatable Classrooms program, as stipulated in Chapter 665 of 2016. Public school construction funding also includes \$7.6 million for the Aging Schools Program of which \$6.1 is distributed through the formula set forth in Section 5-206 of the Education Article and \$1.5 million is earmarked for the Dr. Roland N. Patterson Building at the KIPP Public Charter School in Baltimore City. The budget also provides \$3.5 million for the Nonpublic Aging Schools Program (funded since fiscal 2014).
- **Higher Education:** \$222.4 million for USM (including \$58.7 million to continue the construction funding for the Towson University New Science Facility, \$57.8 million to complete the construction funding for the University of Maryland Baltimore County Interdisciplinary Life Science Building, \$28.4 million to start the construction of a new building at the Southern Maryland Regional Higher Education Center, and \$23.1 million to complete the construction of the Shady Grove Education Center); \$46.1 million to continue the construction funding for the New Student Services Building at Morgan State University; \$60.1 million for the Maryland Higher Education Commission Community College Facilities Grant Program; and \$13.0 million to support capital grants to private colleges.
- **Housing:** \$28.5 million for Project Creating Opportunities for Renewal and Enterprise (C.O.R.E.) and \$40.0 million for Rental Housing.
- **Local Projects:** The budget provides \$21.1 million for local projects selected by the administration but NO funds for legislator-sponsored local projects.

Capital Budget Fiscal Briefing

The actions of the General Assembly in the two previous sessions produced a number of mandated initiatives, new projects introduced as pre-authorizations, expected acceleration of programmed funding for a number of projects, and expressions of legislative intent. **Exhibit 7** reflects the anticipated impact of these additional pressures and a summary of how the Governor's fiscal 2019 capital budget addressed these pressures within the \$995 million level of GO bonds proposed by the Governor.

Items of Interest

GO Bond Authorization Levels Are Consistent with the Capital Debt Affordability Recommendation but Below Spending Affordability Limits

As shown in **Exhibit 8**, the level of new GO bond authorization included in the fiscal 2019 capital budget is \$80.0 million below the level recommended by SAC and \$500.0 million below the SAC recommendation through the five-year CIP covering fiscal 2019 through 2023. The 2017 SAC recommendation, the same recommendation made by the committee in each of the two previous reports, limits the growth in new GO bond authorizations at 1% annually based on the \$1.045 billion authorized in the 2015 session resulting in a recommendation of \$1.075 billion for the 2018 session. As illustrated in Exhibit 8, in recent years, the Governor and SAC have not agreed on the level of proposed new GO bond authorizations. In fiscal 2016, for instance, the SAC recommendation was \$100.0 million higher than what was proposed by the Governor; but the final authorization level split the difference, in part, because the capital budget bill included the use of \$48.3 million of bond premium proceeds. For fiscal 2017, again the Governor and SAC disagreed on the authorization level by \$60.0 million. While the final 2016 session authorization level was consistent with the Governor's proposed \$995.0 million, the final authorization level included the recognition that the capital budget was supplemented with \$122.0 million in general funds, which was in keeping with a recommendation made by SAC in its 2015 report, which called for the use of a portion of the then projected general fund balance in the furtherance of infrastructure spending. The amount of general fund support for the capital program was later reduced to \$62.3 million through a reduction made by BPW and other targeted reversions. The final 2017 session authorization was at the higher SAC level of \$1,065 million. **Appendix 4** shows recently recommended and final new GO bond authorization levels.

Exhibit 8
2018 Capital Improvement Program and SAC Recommended
New General Obligation Bond Authorization Levels
Fiscal 2016-2023
(\$ in Millions)

SAC: Spending Affordability Committee

Source: Department of Budget and Management, *Capital Improvement Program*, January 2018; Spending Affordability Committee Report, December 2017

The State's debt affordability limits require debt service costs not to exceed 8.0% of the revenues supporting them. **Exhibit 9** shows that the debt service to revenue affordability ratio forecast using the higher SAC GO bond authorization recommendation is affordable through the planning period.

Exhibit 9
Debt Service to Revenue Ratios
Fiscal 2018-2023

<u>Year</u>	<u>\$995 Million Annual Authorizations</u>	<u>2017 SAC Recommended Annual Authorizations</u>
2018	7.81%	7.81%
2019	7.82%	7.82%
2020	7.67%	7.68%
2021	7.68%	7.70%
2022	7.83%	7.87%
2023	7.82%	7.89%

SAC: Spending Affordability Committee

Source: Spending Affordability Committee; Capital Debt Affordability Committee; Department of Legislative Services

Inflation in the Construction Market Reduces the Spending Power of Future Authorization Levels

Past capital budgets have recognized that capital projects are subject to inflationary pressures and that the population of Maryland tends to increase over time. The inflationary pressures can erode capital spending, while additional population tends to increase the demand for projects. When the Capital Debt Affordability Committee (CDAC) increased the capital program's annual escalation to 3% in its 2006 report, it did so to recognize a 2% increase to offset inflation and a 1% increase to provide for increased demand attributable to population growth. As shown in **Exhibit 10**, at a 2% annual construction inflation, the value of \$995 million is effectively reduced to \$919 million by fiscal 2023, a loss of \$76 million. The 2% rate used by CDAC is a conservative measure of annual construction inflation. Regionally, for the period covering calendar 2016 through 2017, construction inflation grew annually at 4.0%.

Exhibit 10
GO Bond Authorization Levels – Impact of Annual Construction Cost Inflation
Fiscal 2019-2025
(\$ in Millions)

GO: general obligation

Note: This estimates a 2.0% annual construction inflation rate. Construction inflation increased at an average annual rate of 1.6% for the period covering calendar 2012 through 2015. For the two years covering calendar 2016 through 2017, constructions increased at an average annual rate of 4.0%.

Source: Bureau of Labor Statistics Producer Price Index for Materials and Components of Construction

Construction Cost Inflation

As shown in **Exhibit 11**, year-over-year regional construction inflation is trending upward. Construction inflation in the Baltimore/Washington region increased at an average annual rate of 4.0% in calendar 2016 and 2017 compared to just 1.6% for the period covering calendar 2012 through 2015. In calendar 2017 alone, regional construction inflation increased 7.2%.

**Exhibit 11
Annual Construction Cost Inflation
Calendar 2011-2017**

Source: Bureau of Labor Statistics; Engineering New-Record

- Escalation Rates Used in Cost Estimating:** The State’s capital planning process accounts for the impact of construction inflation in establishing long-term project cost estimates used in the CIP. For projects included in the 2018 CIP, the Department of Budget and Management has set the annual escalation rate at 3.5% calendar 2018 through 2023, an increase of 0.5% over the rate used in last sessions CIP.
- School Construction Project Costs:** From fiscal 2007 through 2015, the Public School Construction Program construction cost allowance only increased at an average annual rate of 1.0%. However, from fiscal 2016 through the rate used by the Interagency Committee on School Construction for projects in the 2018 CIP, the square foot rate increased at an average annual rate of 8.4%.

GO Bonds for Private Use

The Internal Revenue Code limits the use of tax-exempt bonds for private activity use to no more than 5% of the tax-exempt bonds of any issuance to a maximum of \$15 million per issuance. For this reason, the State traditionally funds capital programs with high levels of private activity use with general fund PAYGO funds. However, it is not unusual in periods of economic difficulty for the State to move programs traditionally funded with general fund PAYGO into the GO bond funded portion of the capital program, which the State has done in recent years. While this allows general funds to be used for other budget priorities, it has resulted in the need for the Treasurer to issue taxable bonds in recent bond issuances, which cost more than tax-exempt bonds.

Exhibit 12 shows that the fiscal 2019 capital budget includes \$97.5 million in private activity authorizations. Out-year private loan authorizations from fiscal 2018 through 2022 total \$383.0 million. This represents a continued reliance on GO bond funds to support projects and programs that are traditionally supported with general fund PAYGO appropriations. The use of general funds is very limited in the Governor’s fiscal 2019 capital budget program and through the five-year CIP planning period; and to the extent the revenue situation likely precludes the significant use of general funds in the budget, it is most likely that the State will have to fund these private activity programs with taxable debt, which is more expensive than tax-exempt issuances.

General Fund Support for the Capital Program and Mandates

General Fund Support for the Capital Program Remains Constrained: The fiscal situation continues to limit general fund support of the capital program. As illustrated in **Exhibit 13**, the fiscal 2019 baseline assumed the use of \$78.4 million in general funds as compared to the \$20.3 million in the fiscal 2019 budget as introduced. Three components comprise the majority of the difference:

- **Project C.O.R.E.:** Consistent with the 2017 CIP, the fiscal 2019 baseline assumed \$28.5 million in general fund support for Project C.O.R.E. in Baltimore City. This initiative is GO bond funded at \$28.5 million in the fiscal 2019 budget.
- **Transfer Tax Repayment:** In accordance with Chapter 10 of 2016 and in accordance with the repayment plan established by the Administration in the 2017 CIP, the fiscal 2019 baseline assumed that transfer tax revenues used to fund POS would be augmented with \$37.9 million in general funds. As introduced, \$6.0 million is budgeted in the Dedicated Purpose Account to fund the DNR Critical Maintenance Program.
- **QZAB:** The budget provides \$4.9 million in general funds for the Public School Construction Program to replace GO bonds programmed in the CIP when the U.S. Congress did not re-authorize the QZAB program. The general funds are not bound by the same requirements that governed the federal QZAB program.

Capital Budget Fiscal Briefing

Mandate Funding Relief: Several provisions in the BRFA of 2018 (SB 187) amend mandates on the capital program, which result in \$58.0 million of general funds that are contingently reduced in the budget. **Exhibit 14** shows the how mandates on the capital program are treated in the budget.

- **UMCRMC:** Chapter 13 of 2016, as amended by Chapter 23 of 2017 (the BRFA of 2017), establishes a funding mandate to complete the State's \$208.0 million commitment to UMCRMC. The funding mandate would require \$48.0 million in fiscal 2019. To meet the mandate, the Governor's capital budget includes \$19.0 million in GO bonds and \$29 million in general funds budgeted in BPW. Language in the budget eliminates the general funds contingent upon the enactment of a provision in the BRFA of 2018 altering the mandate.
- **Transfer Tax Repayment Plan:** The 2018 BRFA amends the transfer tax repayment plan established by Chapter 10 of 2016. For fiscal 2019, the repayment plan requires \$21.0 million in general funds comprised of \$6.0 million for the DNR Critical Maintenance Program and \$15.0 million to be distributed through the POS formula. Language in the budget deletes the \$15.0 million to be distributed through the formula contingent upon the enactment of a provision in the BRFA of 2018 altering the mandate. The funds are budgeted in the Dedicated Purpose Account.
- **Housing and Community Development Mandates:** The Governor is mandated to fund the Baltimore Regional Neighborhood Initiative program at \$12.0 million in fiscal 2019. To meet the mandate the capital budget includes \$3.0 million in GO bonds with another \$9.0 million in general funds contingent upon the enactment of a provision in the BRFA of 2018 altering the mandate. The Governor is also mandated to fund the Seed Community Development Anchor Institution Fund at \$5.0 million all of which is eliminated contingent upon the enactment of a provision in the BRFA of 2018 altering the mandate.

Exhibit 14
Status of Capital Budget Mandates
Fiscal 2019
(\$ in Millions)

	<u>Mandate Amount</u>	<u>Budget</u>	<u>Notes</u>
University of Maryland Capital Regional Medical Center	\$48,000,000	\$19,000,000	The remaining \$29 million needed to meet the mandate is contingently reduced. The Budget Reconciliation and Financing Act (BRFA) of 2018 shifts the \$29 million to fiscal 2021.
Program Open Space (POS) Repayment	21,000,000	6,000,000	For fiscal 2019, the repayment plan requires \$21.0 million in general funds comprised of \$6.0 million for the Department of Natural Resources Critical Maintenance Program, and \$15.0 million to be distributed through the POS formula. Language in the budget reduces the \$15.0 million to be distributed through the formula contingent upon the enactment of a provision in the BRFA of 2018 altering the mandate. The funds are budgeted in the Dedicated Purpose Account.
Baltimore Regional Neighborhood Initiative	12,000,000	3,000,000	The BRFA of 2018 removes the mandate. The remaining \$9 million needed to meet the mandate is contingently reduced.
Seed Anchor Institution Funds	5,000,000	0	The BRFA of 2018 removes the mandate. The \$5 million needed to meet the mandate is contingently reduced.

Transfer Tax Repayment

Chapter 10 of 2016 requires the repayment of \$242.2 million in past redirected transfer tax funds by fiscal 2029. The plan provides for the use of general funds as a source of repayment to be expended as special funds in the budget. The components of the repayment plan and the Governor's proposed changes to each are highlighted below. **Exhibit 15** shows the differences in the repayment plan established by the Governor in the 2017 session to that proposed in the 2018 session. In total, the revised plan proposes to defer \$31.9 million in fiscal 2019 and reprograms those funds for future years. The proposed deferral includes \$15.0 million that is reduced contingent upon a provision in the BRFA amending the mandated portion of the funding repayment schedule.

- ***Payback for Fiscal 2006 Transfer Tax (to Be Distributed through the Transfer Tax Formula):*** Chapter 10 requires \$15.0 million in each of fiscal 2019 through 2021 for a total repayment of \$45.0 million. A provision in the BRFA of 2018 amends the repayment schedule by deferring the \$15.0 million required in fiscal 2019 to 2022, essentially moving back by one year the total repayment requirement.
- ***Payback for Fiscal 2006 Transfer Tax for Critical Maintenance/Natural Resources Development Fund:*** Chapter 10 requires that \$6.0 million in each of fiscal 2019 through 2024 and \$4.0 million in fiscal 2025 for a total repayment of \$40.0 million be used to fund the DNR Critical Maintenance and Natural Resources Development Fund projects. The statutory repayment schedule remains unchanged in the fiscal 2019 budget submission.
- ***Payback for Fiscal 2016 to 2018 Transfer Tax (to Be Distributed through the Transfer Tax Formula):*** Chapter 10 requires the repayment of \$152.2 million as follows: one-third by fiscal 2021, two-thirds by fiscal 2025, and the full amount by fiscal 2029. This provision provides for some annual funding flexibility, and the fiscal 2019 budget as introduced programs this in equal installments of \$25.4 million in each of fiscal 2020 and 2021, which is revised from what the Administration programmed in the 2017 session that called for equal annual installments of \$16.9 million in each of fiscal 2019 through 2021.

Exhibit 16 shows how the capital programs funded through the transfer tax formula would be funded under three different options.

- **Option A** – reflects the capital program allocation of the full amount of budgeted transfer tax through the formula and \$37.9 million allocated under the repayment assumptions presented by the Governor in the 2017 CIP, which includes \$6.0 million for the DNR Critical Maintenance Program and \$31.9 million allocated through the transfer tax formula.

Capital Budget Fiscal Briefing

- **Option B** – reflects the capital program allocation of the full amount of budgeted transfer tax through the formula and the statutory amount required by Chapter 10 of 2016 for fiscal 2019, including \$6.0 million for the DNR Critical Maintenance Program and \$15.0 million in repayment required to be distributed through the POS formula. Language in the budget deletes the \$15.0 million contingent upon the enactment of a provision in the BRFA of 2018 altering the mandate.
- **Option C** – reflects the Governor’s proposed fiscal 2019 budget, and is comprised of the capital program allocation of the full amount of budgeted transfer tax through the formula and the additional \$6.0 million for the DNR Critical Maintenance Program as required by Chapter 10 of 2016. This illustrates the impact of removing \$31.9 million in repayment allocated under the repayment assumptions presented by the Governor in the 2017 CIP.

Pre-authorizations

The Maryland Consolidated Capital Bond Loan (MCCBL) of 2017 included \$335.8 million of pre-authorizations for funding to be authorized in the MCCBL of 2018. **Exhibit 17** lists these pre-authorizations as well as the amounts included for construction in the 2018 session capital budget bill, as introduced.

De-authorizations and Projects Removed from the CIP

Appendix 5 shows de-authorizations included in the budget as introduced. In total, the budget reduces prior authorizations by \$5.2 million with the funds recycled and authorized for different purposes, which accounts for the total authorizations of \$1.000 billion in the capital budget bill.

Exhibits 20, 21, and 22 show the geographical distribution of nontransportation capital funding.

Exhibit 20
Geographical Distribution of State Nontransportation Capital Funding
Fiscal 2009-2018 Annual Average

Note: This data represents the sum of capital projects and grant programs included in the operating and capital budgets each fiscal year. It reflects the particular projects anticipated to be funded at the time the budgets were adopted. The actual projects funded and/or the amount of funding for specific projects could have changed depending on which projects were ready to move forward and final costs. The data includes all projects regardless of funding source but excludes State university projects funded with auxiliary revenue bonds. Transportation projects are not included in this data. The county data also does not include funding categorized as “statewide,” which accounts for approximately 30% of the capital program funding for which specific projects are not identified at the time of appropriation.

CDAC: Capital Debt Affordability Committee

SAC: Spending Affordability Committee

¹ CDAC was reconvened in March 2001 and increased the limit to \$505 million.

² SAC increased the \$520 million CDAC recommendation to make room for \$200 million of previously funded projects with pay-as-you-go funds to be de-authorized and funded with general obligation (GO) bonds.

³ Although the General Assembly concurred with the recommendation to increase the 2014 session authorization by \$75 million, SAC recommended against increasing out-year authorizations by \$75 million annually.

⁴ The General Assembly did not authorize new GO bonds to the \$1,095 million limit and instead constrained the limit to \$1,045 million, although \$48 million in bond premium was used to supplement State capital spending.

⁵ The General Assembly did not authorize new GO bonds to the \$1,055 million limit and instead constrained the limit to the Governor's recommendation of \$995 million, although this included the use of \$122 million in general funds to supplement the capital program later reduced to \$63 million through the actions of the Board of Public Works and the decision by the Administration to not appropriate \$48 million of general funds restricted in the State Reserve fund for capital purposes.
