MA01
Maryland Department of Health

Committee Narrative

Springfield Hospital Center Property Uses: The committees are interested in the future of the State-owned property at the Springfield Hospital Center. The Maryland Department of Health (MDH) is completing a facilities master plan that will identify surplus land and building stock throughout the State-run hospitals. Following the completion of the facilities master plan, MDH should convene with the Department of General Services (DGS), the Maryland Police and Correctional Training Commissions (MPCTC), the Maryland Department of Planning, the Maryland Historical Trust, and surrounding community stakeholders to prepare a report that adopts guiding principles for the redevelopment of surplus State property on the grounds of the Springfield Hospital Center. These principles should encourage the creation of a comprehensive plan for the full utilization of the site that:

- eliminates the short- and long-term costs to the State for infrastructure maintenance, security, and any other capital or operating costs wherever possible;
- encourages methods of property sale and transfer that maximizes the return to the State, taking into account any costs associated with potential environmental remediation;
- is consistent and coordinated with Smart Growth efforts and programs of State government; and
- minimizes damage to historic, cultural, and natural resources or environmentally sensitive lands and encourages rehabilitation of available historic buildings.
