DH0104A Camp Fretterd Access Control Point \$ 553,000

Amend the following language:

Camp Fretterd Access Control Point. Provide funds to begin design and construction of a new access control system, provided that \$100,000 of this authorization may not be encumbered or expended until the Military Department submits a report to the budget committees on the status of renovations to the Freestate Challenge Academy (FCA) facilities. This report shall detail the project funding plan, including all State and federal fund sources already secured or identified as potential sources, the design and construction timeline, and any associated project expenditures already incurred. The report should also detail the efforts, if any, the department has made to include this project as part of its annual capital budget request submission to the Department of Budget and Management. The report shall be submitted by July 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment (Baltimore County)

Explanation: This action restricts funding for the Camp Fretterd Access Control Point project until the Military Department submits a report on the FCA renovation project occurring outside the department’s Capital Improvement Plan.

MA01
Maryland Department of Health

Committee Narrative

Report on the Impact of the Facilities Master Plan (FMP): The Maryland Department of Health’s (MDH) new FMP recommended the closure and transitioning of services away from certain current State facilities over the next 20 years. However, the FMP was largely silent on the implications of this plan for community providers, overall capacity in the State, and current MDH employees. The committees request that MDH submit a report further considering the impact that the recommendations in the FMP will have in terms of reducing the State’s overall bed capacity, the extent to which community providers are currently able to increase their capacity to meet service needs, and any additional resources that MDH is able to provide to community providers during the transitioning period above what is outlined in the FMP. MDH should further provide consideration to how current MDH staff will be able to maintain State service during the transition away from current facilities, what opportunities for further State employment would currently be offered to MDH employees, and any amendments to the existing State Personnel Article to better facilitate realignment of MDH staff from facilities with services being reduced or transferred to those with longer term employment opportunities.

Committee Narrative

Report on Meeting 2% Target: Reducing the deferred maintenance backlog is a priority of the University System of Maryland (USM) Board of Regents and the Chancellor. USM’s policy sets a target that institutional spending on facilities renewal should equal 2% of the replacement value of State-supported facilities. While some institutions have met the goal, other institutions have made progress but still fall short of the target. Therefore, the committees request that for those institutions that have not met the goal in fiscal 2021 and 2022 that the University System of Maryland Office (USMO) submit a report on each institution’s plan to meet the target by fiscal 2025 and provide an annual status report on each institution’s progress toward meeting the target. The report should be submitted by December 31, 2022.

Committee Narrative

Report on Facilities Renewal Policy: Currently, St. Mary's College of Maryland (SMCM) does not have a Board of Trustees policy on facilities renewal that would address the backlog of deferred maintenance projects. In order to ensure that SMCM is taking measures to address its backlog, SMCM should adopt a facilities renewal policy modeled after the University System of Maryland's policy, which establishes an overall spending target on facilities renewal based on the replacement value of State facilities 10 years and older and incremental steps to achieve the target. SMCM should submit the adopted policy to the committees by December 31, 2022.

Morgan State University

Committee Narrative

Report on Meeting 2% Target: In November 2020, Morgan State University’s (MSU) Board of Regents (BOR) adopted a facilities renewal policy that establishes a target that funding for facilities renewal would be equal to 2% of the current replacement value of all facilities. However, this policy applies to all facilities including auxiliary and does not separate university spending and replacement value for State and non-State facilities. In order to ensure that MSU is making progress in addressing its maintenance backlog for its State facilities with the greatest need, BOR should revise its policy to reflect the 2% spending target be based on the replacement value of State facilities over 10 years old. In order to determine if progress is being made toward its goal, MSU should report to the committees in its annual facilities renewal report the total replacement value of its State facilities; the amount spending toward the 2% target; and expenditures on facilities renewal of State facilities broken down by source of funds, including institutional and general obligation bond funds.

Committee Narrative

Issuance of Debt for Rear Dock Renovation Project: The Maryland Food Center Authority (MFCA), a nonbudgeted State agency, acts as a landlord for tenants at the Maryland Wholesale Produce Market, among other facilities. Key goals of MFCA include maintain safe, sanitary, and efficiency facilities. MFCA is planning to undertake a three-year project to enclose dock space at the Wholesale Produce Market and add refrigeration to ensure cold chain compliance for tenants due to anticipated food safety regulations and existing tenant requests. MFCA is authorized under State law to issue debt. These issuances do not require approval of the General Assembly but do require approval by the Board of Public Works. In addition, to the State support through general obligation bonds as included in the Maryland Consolidated Capital Bond Loan of 2022, MFCA plans to use cash and potentially issue debt to support the project. MFCA indicates that it is researching with counsel the use of bonds for this project. The committees are interested in the use of MFCA issued debt for this project and request that MFCA submit a report on the final determination regarding the issuance of MFCA debt for this project including the amount and timing of any planned issuances

Committee Narrative

Local Jail Population Report: The committees request that fiscal 2022 local jail average daily population (ADP) data be provided by the Department of Public Safety and Correctional Services (DPSCS). In addition to the Annual Summary of Maryland Local Jail Statistics, which shows ADP data by county, DPSCS should provide the following for each local jail or detention center:

- operational capacity at the end of each month, making note of specialized population beds that cannot be used by general population inmates;
- the ADP for each month, separated by male and female offenders;
- the number of days each facility exceeded operational capacity each month; and
- the peak inmate population at each facility per month.

Section 1 – Bond Premium

ZF0105 Section 1 – Bond Premium \$ 0

Add the following language:

(11) Notwithstanding § 8-122.1 of the State Finance and Procurement Article, the principal amount of any loan authorized under this Act shall be reduced by the cash proceeds, excluding any accrued interest, received for the State bonds and allocated by the Comptroller to the loan.

Explanation: This language clarifies that the allocation of premium to a loan authorized under this Act will result in the reduction of the authorized principal amount of that same loan. This is necessary as the amount authorized under this Act includes anticipated estimated premium in the amount of \$210 million. Under §8-122.1 of the State Finance and Procurement Article, the authorized principal amount would only be reduced upon allocation of proceeds of the bonds constituting the principal amount of the bonds issued.
