DEPARTMENT OF LEGISLATIVE SERVICES
OFFICE OF POLICY ANALYSIS
MARYLAND GENERAL ASSEMBLY

Victoria L. Gruber
Executive Director

Ryan Bishop
Director

June 2023

The Honorable Bill Ferguson, President of the Senate
The Honorable Adrienne A. Jones, Speaker of the House of Delegates
Members of the Maryland General Assembly

Dear President Ferguson, Speaker Jones, and Members:

State law requires the Department of Legislative Services to annually prepare a report that summarizes the effect of the preceding legislative program on State and local governments. In accordance with this requirement, we are pleased to submit the following report, *Effect of the 2023 Legislative Program on the Financial Condition of the State*.

This document is divided into five chapters.

Chapter 1 highlights the major components of the fiscal 2024 operating budget (**House Bill 200/Chapter 101**).

Chapter 2 summarizes the fiscal 2024 capital budget program, including the 2023 capital budget bill (**House Bill 201/Chapter 102**).

Chapter 3 identifies enacted legislation from the 2023 session other than **House Bill 200** and **House Bill 201** that affects State revenues or expenditures. The revenue and expenditure effects of the legislation are summarized, as are the number of regular and contractual positions required to implement the legislation.

Chapter 4 identifies enacted legislation from the 2023 session that affects local governments. This chapter also identifies State mandates on units of local government and provides an overview of State aid to local governments.

Chapter 5 identifies 2023 bills vetoed by the Governor for policy reasons and the bills' associated fiscal impact if they had been enacted.

Fiscal Effects of the 2023 Legislative Program

The fiscal 2024 budget (operating budget bill), House Bill 200 (Chapter 101) of 2023, provides approximately \$63.1 billion in appropriations for fiscal 2024 – a decrease of approximately \$932.8 million (1.5%) from fiscal 2023, after accounting for a net \$2.3 billion in fiscal 2023 deficiency appropriations and an additional \$482 million in spending added across both years by supplemental budgets. The appropriations consist of 43% in general fund spending, 30% in federal fund spending, 18.9% in special fund spending, and 8.0% in higher education revenue spending. Federal funds continue to account for a large percentage of the budget despite a \$1.8 billion reduction in appropriated funds, while increased use of funds from the Blueprint for Maryland's Future Fund to support K-12 education enhancements contribute to the nearly 3 percentage point increase in the proportion of the budget supported by special funds. State agency operations constitute the largest area of spending, accounting for 42.2% of the total budget.

The Maryland Consolidated Capital Bond Loan (MCCBL) of 2023 (capital budget bill), House Bill 201 (Chapter 102), authorizes \$1.219 billion in general obligation (GO) bonds for capital spending. The overall capital budget program passed by the General Assembly for fiscal 2024 totals \$6.97 billion, consisting of the \$1.219 billion in GO bonds authorized under the MCCBL of 2023, \$2.73 billion for the transportation program, \$2.514 billion in pay-as-you-go (PAYGO) funding, \$447 million in Built to Learn revenue bonds, \$29.1 million funded with attained bond premium proceeds, and \$30.0 million in academic revenue bonds for the University System of Maryland authorized by House Bill 735 (Chapter 160).

Consistent with recommendations of the Spending Affordability Committee, the fiscal 2024 budget provides an estimated fiscal 2024 structural surplus of \$150 million and a \$367 million cash balance. An estimated balance of \$2.5 billion is projected for the Rainy Day Fund. The fiscal 2024 budget also allocates over \$1.2 billion in general fund PAYGO toward capital investments, \$900 million toward future education reform implementation costs, and \$100 million toward transportation needs.

While the overall fiscal effect of enacted legislation other than the fiscal 2024 operating and capital budget bills cannot be fully quantified due to certain fiscal impacts that could not be reliably estimated, the impacts of 2023 legislation that have been quantified in fiscal and policy notes total to a net decrease in general fund revenues of \$169.5 million and a net increase in general fund expenditures of \$273.1 million in fiscal 2024, for an overall negative general fund impact of \$442.6 million. Special fund revenues increase by a net amount of \$63.8 million, and special fund expenditures increase by a net amount of \$54.7 million in fiscal 2024. Federal fund revenues increase by a net of \$111.7 million, and federal fund expenditures increase by a net of \$114.0 million in fiscal 2024. In addition, fiscal and policy notes in which personnel impacts were able to be quantified include an overall net increase of 207.5 regular and contractual positions in fiscal 2024.

**Total of Quantified General Fund Impacts of 2023 Legislation
(Exclusive of the Operating and Capital Budget Bills)**

	<u>FY 2024</u>	<u>FY 2025</u>	<u>FY 2026</u>	<u>FY 2027</u>	<u>FY 2028</u>
General Fund					
Revenues	(\$169,543,571)	(\$188,851,713)	(\$178,549,212)	(\$121,416,723)	(\$132,130,750)
General Fund					
Expenditures	\$273,096,512	\$280,344,579	\$165,243,933	(\$338,309,032)	\$167,837,328
Net General					
Fund Impact	(\$442,640,083)	(\$469,196,292)	(\$343,793,145)	\$216,892,309	(\$299,968,078)

Most of the quantified expenditure impacts of enacted 2023 legislation are already reflected in the fiscal 2024 budget. However, of the impacts that have been quantified in fiscal and policy notes, \$40.8 million in general fund expenditure increases are not accounted for in the fiscal 2024 budget and may result in deficiency appropriations for the affected agencies in the next budget bill or the need for agencies to absorb the added costs into their existing budgets. In the case of special and federal fund expenditure increases that are not reflected in the enacted budget, State agencies may add special and federal funds through the budget amendment process and, in certain cases, the expenditure impacts are offset by corresponding revenue increases.

**Fiscal 2024 Quantified Expenditure Increases Resulting from 2023 Legislation
Not Included in the Budget**

<u>General Funds</u>	<u>Special Funds</u>	<u>Federal Funds</u>
\$40,789,360	\$111,856,123	\$13,863,023

Although not contributing to the totals shown above, each enacted bill with an unquantified impact is listed in Chapter 3 with an indication of whether it is expected to have a positive or negative impact on the budget. All estimates of the impacts of 2023 legislation (aside from the operating and capital budget bills) are based on the assumptions stated in the fiscal and policy notes for the bills.

Finally, Chapter 4 includes a discussion of State aid to local governments and briefly describes the impacts on local governments of legislation enacted in 2023 other than the operating and capital budget bills. As shown in Chapter 4, State aid to local governments will total \$10.3 billion in fiscal 2024, which represents a \$888.5 million (9.4%) increase over fiscal 2023. Consistent with prior years, local school systems receive the largest portion of State aid.

Chapter 1. Operating Budget

- Overview
- Budget in Brief
- Framing the Session: 2022 Interim Activity
- Governor's Spending Plan as Introduced
- Legislative Consideration of the Budget
- By the Numbers

Overview

Higher than anticipated revenues continued to place the State in a strong fiscal position going in to the 2023 session. Cooperation between the Legislative and Executive branches was a theme that carried throughout the session, as the General Assembly sought to exercise its new constitutional authority to add to the executive budget. Recognizing that the sizable general fund balance was partially dependent on unreliable revenue sources and acknowledging the potential risks of high inflation and a possible recession, spending by both the Administration and the legislature during the 2023 session was focused on strategic investments in improving State services and the State workforce, capital infrastructure, and mitigating future demands on the general fund.

Governor Wes Moore introduced a fiscal 2024 budget that provided 4.3% general fund growth while maintaining a Revenue Stabilization Account (Rainy Day Fund) balance equal to 10% of general fund revenues. As part of his fiscal plan, the Governor proposed modest tax relief legislation and placed an emphasis on revitalizing the State employee workforce, investments in transportation and education, and a commitment to service. At the 2023 session, the legislature passed nearly \$206 million in tax relief for fiscal 2024 along with other legislation that reflected legislative priorities. The fiscal 2024 budget provides \$1.2 billion in capital investments, saves \$900 million to meet future commitments to implementing education reform, fulfills all mandates, and provides State employees with over \$1.0 billion in compensation enhancements. Final action on the budget leaves an estimated general fund cash balance of \$367 million at the end of fiscal 2024, in addition to \$2.5 billion in the Rainy Day Fund. The legislature once again met all the recommendations of the Spending Affordability Committee (SAC).

Budget in Brief

House Bill 200 (Chapter 101) provides approximately \$63.1 billion in appropriations for fiscal 2024 – a decrease of approximately \$932.8 million (1.5%) from fiscal 2023, after accounting for a net \$2.3 billion in fiscal 2023 deficiency appropriations and an additional \$482 million in spending added across both years by supplemental budgets. **Exhibit 1.1** illustrates fiscal 2024 spending by fund source and purpose. General funds constitute the largest portion of the State budget, accounting for 43%, or \$27.1 billion, of the total fiscal 2024 legislative appropriation. Federal funds continue to account for approximately 30% of all spending despite a \$1.8 billion reduction in appropriated funds. Increased use of funds from the Blueprint for Maryland's Future Fund to support K-12 education enhancements is a significant contributor to the nearly 3 percentage point increase in the proportion of the budget supported by special funds (18.9%). Higher education revenues provide the remaining 8.0% of the budget. State agency operations constitute the largest area of spending, accounting for 42.2% of the total budget, followed by entitlements (26.6%) and aid to local governments (18.3%). Remaining appropriations fund pay-as-you-go (PAYGO) capital spending, debt service on State general obligation (GO) bonds, and appropriations to the Reserve Fund.

Exhibit 1.1
Maryland's \$63.1 Billion Fiscal 2024 Budget

Where It Comes From: Budget by Fund Source

Where It Goes: Budget by Purpose

PAYGO: pay-as-you-go

Source: Department of Legislative Services

General fund appropriations decrease by \$884.9 million, or 3.2%, when compared to the fiscal 2023 adjusted working appropriation. The net reduction is driven by comparatively less cash available than in the current fiscal year, thus resulting in nearly \$1.1 billion less in spending for general fund PAYGO to support capital projects that would otherwise be funded through GO bonds and \$1.3 billion less appropriated to the State Reserve Fund accounts. Despite these significant decreases, general fund support for State agencies grows by \$791.5 million (7.9%), largely reflective of significant investments in personnel in an effort to revamp the State employee workforce through compensation enhancements and the addition of 735 positions, along with growth in provider rate increases for health care and other service providers, investments in behavioral health infrastructure, and the creation of two new executive agencies. Funding for the Medical Assistance Program (Medicaid) and other entitlements increases by nearly \$493 million, or 10.2%, primarily due to the need to backfill for the loss of enhanced federal funds received during the COVID-19 pandemic. Aid to local governments grows by \$248.8 million, or 3.1%, to fund statutory education formulas, increases for community colleges, and growth in disparity grant funding.

Special fund spending increases by nearly \$1.9 billion, or 18.7%, compared to the fiscal 2023 working appropriation. The increased use of special funds from the Blueprint for Maryland's Future Fund used to support education aid programs accounts for over \$620 million of the increase. Funding for the transportation program increases by nearly \$600 million, split between the operating and capital programs. Approximately one-third of the special fund growth reflects increases to nontransportation special fund PAYGO, including additional transfer tax revenues for environmental PAYGO projects and the availability of \$310 million from the Fiscal Responsibility Fund to support K-12 and higher education capital spending.

Federal fund spending reflected in the budget decreases by a net \$1.8 billion, or 8.7%, with reductions to federal support of entitlement programs accounting for nearly 91% of the decrease. The end of the federal enhanced Medicaid match provided during the COVID-19 pandemic and subsequent anticipated enrollment decline due to the redetermination process that will occur over the fiscal year is the primary driver of the \$1.6 billion in reduced federal entitlement spending in fiscal 2024. The \$431 million decrease in assistance payments is largely driven by the Pandemic Electronic Benefit Transfer benefits, which are not budgeted in fiscal 2024, and a lower benefit due to the end of enhanced pandemic benefits through the Supplemental Nutrition Assistance Program (SNAP). Approximately \$100 million is budgeted across fiscal 2023 and 2024 from the federal Infrastructure Investment and Jobs Act (IIJA), although the State anticipates receiving over \$8.0 billion through the legislation over the next five years. The transportation capital program accounts for more than \$6.7 billion of the spending between fiscal 2023 and 2028, including \$1.4 billion in enhancements; however, the majority of the spending is expected to occur in the out-years of the forecast. At the time of writing, anticipated State funds through the federal Inflation Reduction Act are indeterminate; as such, the fiscal 2024 budget does not acknowledge any funding enhancements available through that legislation.

Current unrestricted and current restricted funding for State public four-year institutions and Baltimore City Community College in the fiscal 2024 budget totals \$7.4 billion. This reflects a net increase of \$194.2 million compared to the fiscal 2023 working appropriation, largely the

result of an increase in State funding related to general salary increases. General fund support increases by \$291.6 million, or 14.2%, over fiscal 2023, and the budget assumes in-state tuition rates will rise by 2%.

With respect to personnel, the size of the regular State workforce increases by 735 positions to 82,582 regular positions in fiscal 2024. The budget provides most State employees a 2% cost-of-living adjustment (COLA) and increments effective July 1, 2023. Law enforcement union members are provided with a 5% COLA and increments effective July 1, 2023.

Framing the Session: 2022 Interim Activity

Fiscal 2022 closed with another year of extraordinary revenue generation, as shown in **Exhibit 1.2**, with final general fund revenues exceeding estimates by nearly \$1.6 billion, or 7%. Although three of the four major revenue sources overperformed, personal income tax revenues accounted for nearly two-thirds of the total overattainment, particularly nonwithholding income tax revenues from capital gains. The Board of Revenue Estimates (BRE) attributed the elevated revenues to the unprecedented federal stimulus funding provided in response to the COVID-19 pandemic and higher inflation leading to increased sales and use tax revenues. State agencies also contributed to the higher than anticipated closing balance by reverting nearly \$200 million at the close of the fiscal year.

Exhibit 1.2 Fiscal 2022 Closeout (\$ in Millions)

	<u>2022</u>

Fiscal 2022 closeout was the first year of implementation for the revenue volatility cap calculation designed to protect the State against heavy reliance on nonwage revenue sources that can fluctuate significantly from year to year. Over \$870 million in nonwithholding overattainment in fiscal 2022 was redirected according to the statutory distributions detailed in **Exhibit 1.3**. The additional \$500 million distribution to the Rainy Day Fund increased the fiscal 2022 balance to approximately 7% of general fund revenues and provided an additional \$310 million in supplemental PAYGO funding in fiscal 2024.

SAC Recommendations

As described below, SAC's December 2022 report to the Governor made recommendations concerning the fiscal 2024 spending limit, use of fund balances, State employment, and the Transportation Trust Fund (TTF).

Spending Limit and Sustainability

Unprecedented levels of federal aid and stronger than anticipated revenues continued to put the State in a better than anticipated fiscal position going into the 2023 session, but the potential for a recession and a diminishing structural balance in the out-years remained of concern. As a result, the committee recommended that a \$100 million structural surplus be maintained in fiscal 2024 to allow for significant investment in State services and the State workforce while safeguarding against future uncertainty.

Fund Balances and Use of Surplus

The availability of significant cash surpluses after assuming a 10% balance in the Rainy Day Fund presented the opportunity for the State to continue to invest resources toward unmet needs and priorities; however, recognizing that the surplus was largely the result of an historically unreliable revenue source and the potential for an economic downturn, SAC recommended that a minimum balance of \$350 million be retained in the General Fund at the close of fiscal 2024 and that a balance equal to 10% of general fund revenues be retained in the Rainy Day Fund. Any remaining surplus funds should largely be directed toward one-time spending on capital infrastructure and one-time investments in the State workforce, education, and transportation needs.

Personnel

Historically high vacancy rates and understaffing for critical classes of positions despite recent salary increases led SAC to recommend that the Administration restaff and adequately fund State government.

Transportation

Chapters 27 and 563 of 2022 expanded the required annual SAC recommendations to include a recommended fund balance for TTF and a recommended minimum expenditure level for system preservation by the Maryland Department of Transportation (MDOT). The 2022 interim report was the first year of including such recommendations. With MDOT having identified a 10-year shortfall of nearly \$4 billion between programmed spending for state of good repair and needed spending, SAC recommended a target fiscal 2024 closing balance of \$200 million and that system preservation funding total at least \$1.2 billion.

Governor's Spending Plan as Introduced

As introduced, the Governor's budget plan for the current fiscal year assumed \$64.1 billion in total spending, including \$28.2 billion in general funds, which left an estimated closing general fund balance of \$2.3 billion in fiscal 2023. This spending included a net \$2.3 billion in deficiency appropriations, including \$2.0 billion in federal funds reflecting additional stimulus aid along with funding for SNAP assistance and other entitlement programs. General fund deficiencies added a

net \$186.1 million to the working appropriation, with added funding for debt service, general fund support for entitlements, employee salary increases, and costs associated with the implementation of legislation largely offset by nearly \$690 million in general fund savings associated with the continuation of the enhanced Medicaid match through fiscal 2023.

The fiscal 2024 budget plan proposed \$62.9 billion in total spending, reflecting a nearly \$1.1 billion (1.8%) decrease from the fiscal 2023 spending plan. General fund spending declined by more than \$1.2 billion, or 4.4%, largely due to the one-time \$2.3 billion appropriation to the Rainy Day Fund in fiscal 2023 that was not provided in the allowance. With the Rainy Day Fund balance maintained at 10% of general fund revenues in fiscal 2024, **House Bill 202 (Chapter 103)**, the Budget Reconciliation and Financing Act (BRFA), included a provision to eliminate the required fiscal 2024 appropriation. The Governor's budget plan redirected \$1.0 billion of the statutory appropriation to the Rainy Day Fund to instead be earmarked to support \$500 million in future education costs funded through the Blueprint for Maryland's Future Fund and \$500 million for investments in transportation capital projects. The remaining \$61.4 million of the required appropriation was contingently reduced and accounted for in the Administration's projected closing fund balance. Funding for K-12 education increased by over \$700 million in the allowance, attributable to an unexpected surge in the number of students qualifying for free and reduced-price meals (FRPM).

The Administration's legislative package proposed to have a net impact of \$204 million in reduced general fund revenue and \$243.6 million in increased general fund spending, with the most significant expense associated with accelerating planned rate increases for health care providers to align with an accelerated implementation of a \$15 minimum wage. Modest targeted tax relief consisted of two pieces of legislation proposing to exempt additional military retirement income from the income tax, establish a more robust child tax credit, and remove the sunset on temporary enhancements to the earned income tax credit scheduled to terminate after fiscal 2023. The combined \$204 million in lost revenues in fiscal 2024 was estimated to reach \$230 million by fiscal 2028.

The budget, as introduced, met all the SAC spending goals by providing an \$820 million closing general fund balance and the equivalent of 10% of general fund revenues in the Rainy Day Fund. The Governor's allowance also maintained structural balance by leaving an estimated surplus of \$337 million. **Exhibit 1.4** details the Governor's original general fund spending plan for fiscal 2023 and 2024.

Legislative Consideration of the Budget

The 2023 session and legislative consideration of the fiscal 2024 budget was historic in being the first budget since 1915, following approval of a constitutional amendment in November 2020, that allowed the legislature to directly increase appropriations for Executive Branch agencies. With a new Administration in place, the legislature opted to implement its new authority by working closely with the Governor on its priorities. **Exhibit 1.5** summarizes final legislative action on the fiscal 2023 and 2024 budgets, which included submission of two supplemental budgets from the Administration, a revenue write-down, consideration of budget reconciliation and other legislation, and the implementation of the new process for reflecting

legislative priorities. The sum of these actions leaves an estimated closing general fund balance of nearly \$2.4 billion in fiscal 2023 and \$367 million in fiscal 2024.

Source: Department of Legislative Services

Legislative initiatives enacted during the 2023 session had a modest impact on fiscal 2024 general fund revenues. Actions on the Administration’s tax relief package result in a reduction in general fund revenues of approximately \$184 million in fiscal 2024, with additional legislation passed by the General Assembly providing select income tax credits further reducing revenues by \$22.2 million. Additionally, **House Bill 556 (Ch. 254)/Senate Bill 516 (Ch. 255)** are anticipated to generate approximately \$17.8 million in additional revenue through application of the sales and use tax on recreational cannabis. **House Bill 824 (Ch. 651)** is also expected to generate nearly \$5.3 million in additional revenue in fiscal 2024 from increased handgun permit fees.

Following submission of the budget in January 2023, the Governor submitted two supplemental budgets, summarized in **Exhibit 1.6**, which added a net of just over \$500 million across the current and budgeted fiscal years, including a net \$187.0 million in general fund spending.

Exhibit 1.6
Summary of Supplemental Budget Spending by Fund
(\$ in Millions)

<u>Supplemental Budget</u>	<u>General Funds</u>	<u>Special Funds</u>	<u>Federal Funds</u>	<u>Reimbursable Funds</u>	<u>Total</u>
No. 1	\$0.03	-\$41.8	\$11.4	\$1.1	-\$29.3
No. 2	187.0	112.0	213.6	19.0	531.6
Total	\$187.0	\$70.2	\$225.0	\$20.1	\$502.3

Source: Department of Legislative Services

Supplemental Budget No. 1 had minimal overall impact, with a net reduction in spending totaling \$29.3 million. The supplemental budget was largely needed to correct formulaic errors in the disparity grant and select education aid formulas impacted by revised net taxable income data. Supplemental Budget No. 2, with the provision of \$531.6 million in total spending and 271 new positions, was more reflective of the Administration further crafting funding initiatives supported by the Governor and supporting policies identified by the legislature during the course of the session, including the provision of \$32 million in general fund PAYGO for nonprofit organizations with capital needs, nearly \$70 million in additional salary increases for State employees, the realignment of funding for the Maryland Corps Program to the newly established Department of Service and Civic Innovation, and the relocation of the Maryland 529 program to the State Treasurer's Office.

BRE revised its fiscal 2023 and 2024 general fund revenue estimates in March 2023. In response to continued concerns regarding a potential recession and a faster than anticipated slowing of Maryland's economy and revenues, BRE revised the revenue estimates downward by a combined \$477.6 million across the two fiscal years. In recognition of this write-down, the Administration included \$39.3 million in general fund reductions in the submission of Supplemental Budget No. 2, and legislative actions resulted in \$147.5 million in general fund reductions to the working appropriation and nearly \$1.5 billion in total fund reductions to the fiscal 2024 budget, of which \$1.2 billion was general funds.

Legislative Priorities

As shown in **Exhibit 1.7**, the legislature reallocated more than \$1.1 billion to directly fund legislative priorities across the State in fiscal 2024. This included nearly \$385 million in general fund PAYGO spending for capital projects, including \$232.1 million shifted from the capital budget to create additional GO bond capacity for legislative priorities. The legislature also repurposed \$400 million of the \$500 million earmarked to fund future transportation projects to instead cover implementation costs associated with education reform. Actions in the budget continue to provide MDOT with \$100 million in set aside funds, plus the authority to utilize \$100 million in Rainy Day Fund balance, to support environmental studies and required State matches on federally funded projects. Approximately \$97.5 million of the \$1.1 billion in general fund additions is allocated to fund legislation enacted during the 2023 session. In response to concerns regarding shortfalls in funding used to support the State's emergency services network and trauma centers, the budget also provides \$25.5 million in one-time general fund support to the Maryland Emergency Medical System Operations Fund and \$9.5 million in assistance specifically for trauma centers, while the commission established through **House Bill 675 (Ch. 341)/Senate Bill 493 (Ch. 342)** explores the adequacy of current funding sources.

Final Actions Related to SAC

Maintaining Structural Balance

SAC had recommended that the fiscal 2024 general fund budget provide a closing structural surplus of \$100 million. Final revenue and spending actions by the General Assembly resulted in a structural surplus of \$150 million in fiscal 2024. **The structural budget goal for fiscal 2024 was met.**

General Fund and State Reserve Fund Balances

Per the recommendations to maintain a fiscal 2024 cash balance of at least \$350 million, a minimum of 10% balance in the Rainy Day Fund, and direct the use of cash surplus toward

one-time investments in capital infrastructure, education, and transportation, legislative actions resulted in (1) an estimated closing fund balance of \$367 million; (2) an estimated Rainy Day Fund balance of \$2.5 billion, or 10%, of estimated general fund revenues compared to the December 2022 revenue estimate; and (3) over \$1.2 billion in general fund PAYGO allocated to capital investments, \$900 million toward future education reform implementation costs, and \$100 million toward transportation needs. **Final action on the fiscal 2024 budget met the SAC recommendations.**

State Employment

In response to the recommendation acknowledging the challenges of recruiting and retaining State employees, the budget approved by the legislature includes \$929 million for the following salary actions:

- a 2% COLA effective July 1, 2023, and increments for most State employees;
- a 5% COLA and increments for employees represented by the State Law Enforcement Officers Labor Alliance effective July 1, 2023; and
- funding for annual salary reviews (ASR) that increased salaries for nearly 6,000 positions across State government in classifications with particularly high vacancy rates.

In addition, the budget as introduced by the Governor also included 576 new Executive Branch positions, Supplemental Budget No. 2 added 271 further positions, and legislative action added 12 positions, for a total of 859 new positions. **The personnel goals for fiscal 2024 were met.**

Transportation

The fiscal 2024 budget as enacted includes \$1.3 billion for system preservation and a target closing balance of \$325 million for TTF compared to the SAC goals of at least \$1.2 billion for system preservation and a \$200 million closing balance. The TTF forecast includes gradual increases in the target closing balance in response to increased federal aid for the transportation capital program, much of which is provided on a reimbursable basis. **The transportation goals for fiscal 2024 were met.**

Outlook for Future Budgets

As shown in **Exhibit 1.8**, fiscal 2024 is projected to end with a fund balance of \$367 million and ongoing revenues exceed ongoing spending by \$150 million. A \$418 million structural deficit is anticipated for fiscal 2025. Structural challenges prevail for the remainder of the forecast period culminating in a \$1.8 billion deficit in fiscal 2028. Between fiscal 2024 and 2028, ongoing revenues, which are projected to grow at an average annual rate of 3.3%, are outpaced by the increase in ongoing spending, which grows at an average annual rate of 5.1%. Cash shortfalls projected for fiscal 2026 and 2027 can be addressed by shifting planned PAYGO

capital to bonds and making modest reductions to planned operating spending or drawing the Rainy Day Fund below 5% of general fund revenues. The fiscal 2028 cash shortfall far exceeds the cash remaining in the Rainy Day Fund necessitating significant spending reductions and/or increased revenues.

Source: Department of Legislative Services

The cash and structural budget outlook deteriorates substantially in fiscal 2028 due to the costs of ongoing K-12 education enhancements outpacing the availability of special funds in the Blueprint Fund. The Blueprint Fund is expected to close fiscal 2024 with a fund balance approaching \$2.9 billion. This fund balance coupled with annual Blueprint revenues of about \$1.4 billion is sufficient to maintain current Blueprint support for K-12 education and fund most of the increases in K-12 costs for fiscal 2025 through 2027. By the end of fiscal 2027, the Blueprint Fund surplus is exhausted resulting in substantial K-12 costs shifting to the general fund in fiscal 2028.

Legislation passed during the 2023 session decreases revenues by \$884 million and increases spending by \$500 million for the five-year period ending with fiscal 2028. Legislation affecting revenues with a projected five-year impact of \$50 million or more includes:

- **Senate Bill 516/House Bill 556 (Chapters 254 and 255)** establish the regulatory framework for adult use cannabis and establish a sales and use tax applicable to adult-use cannabis. Under the Acts, general fund revenues increase by \$17.9 million in fiscal 2024 (Supplemental Budget No. 2 recognized \$15 million of this amount), \$31 million in fiscal 2025, \$51 million in fiscal 2026, \$68 million in fiscal 2027, and \$79 million in fiscal 2028.
- **House Bill 2 (Chapter 513)** authorizes a subtraction modification against the Maryland income tax for specified union dues paid by an individual during the taxable year. Under the Act, general fund revenues decrease between \$10 million and \$12 million each year.
- **Senate Bill 553/House Bill 554 (Chapters 613 and 614)** enhance the existing military retirement income tax subtraction modification by increasing the maximum amount of military retirement income received by an individual that may be exempted from Maryland income tax. Under the Acts, general fund revenues decrease between \$11 million and \$13 million each year.
- **Senate Bill 552/House Bill 547 (Chapters 3 and 4)** extend the temporary expansions to the Maryland earned income credit that were enacted in 2021 and also eliminate an existing limit on the value of the State refundable earned income credit for individuals without qualifying children. In addition, the Acts permanently extend and alter eligibility for the State child tax credit originally enacted in 2021. Under the Acts, general fund revenues decrease by \$172 million in fiscal 2024, \$176 million in fiscal 2025, \$179 million in fiscal 2026, \$183 million in fiscal 2027, and \$187 million in fiscal 2028.

Legislation affecting spending with a projected five-year impact of \$50 million or more is limited to:

- **Senate Bill 828/House Bill 988 (Chapters 258 and 259)** modify the Family and Medical Leave Insurance Program by altering key administrative deadlines, technical definitions, and components of the program's administration. The start dates for required contributions

and benefit payments are delayed by one year to October 1, 2024, and January 1, 2026, respectively. Under the Acts, general fund spending increases by \$22 million in fiscal 2025 and between \$36 million and \$39 million per year in fiscal 2026 to 2028.

Budget Reconciliation and Financing Legislation

As summarized in **Exhibit 1.9, House Bill 202 (Chapter 103)**, the BRFA, results in a net increase of \$8.5 million in total fund spending in the fiscal 2024 budget plan. General fund expenditures increase by \$49.3 million combined in fiscal 2023 and 2024, while special fund expenditures decrease by \$40.8 million.

BRFA: Budget Reconciliation and Financing Act

Source: Department of Legislative Services

Expenditure Impacts

Four provisions impact spending in the fiscal 2024 budget. The most substantial impact results from a provision that reduces, in fiscal 2024 only, the Medicaid deficit assessment by \$50 million. The Medicaid deficit assessment is imposed on hospitals and used as special funds to support the Medicaid program. Absent these funds, additional general funds are required to meet the anticipated expenditures in Medicaid. Two actions in the budget are contingent on the provision, including a special fund reduction of \$50 million and a general fund appropriation of the same amount. Although it is unusual for the BRFA to provide a net increase in spending, this is a part of a series of actions being undertaken to assist in bringing Maryland back in compliance with Medicare savings and expenditure growth targets required under the Total Cost of Care model.

Under Chapters 717 and 718 of 2021, refunds related to recalculated Homeowner's Tax Credits were paid from the Local Reserve Account. The Local Reserve Account was required to be repaid over a 15-year period under the chapters. A provision in the BRFA relieves this requirement. Instead, when combined with existing funding in the fiscal 2023 budget, a deficiency appropriation of \$7.3 million in general funds provides adequate funding to fully repay the Local Reserve Account. While increasing spending in fiscal 2023, over the 15-year period beginning in fiscal 2023, there is no net impact on spending as future expected repayments are no longer required. The deficiency appropriation and a fiscal 2024 general fund reduction of \$529,836 that represented the required second year of repayment funding are contingent on this provision.

An additional provision withdraws \$7.5 million in general funds in fiscal 2023 from the Department of Human Services for public benefits due to lower than anticipated caseloads.

The BRFA also authorizes the use of \$9.25 million of the Maryland Gas Expansion Fund for repair of existing natural gas infrastructure in the Washington Gas service territory. The fund was created as a required condition of the merger between Altagas Ltd. and Washington Gas Light Company and was to be used for the expansion of natural gas. Section 19 of **House Bill 200 (Chapter 101)** added a \$9.25 million special fund appropriation for this purpose to the Maryland Energy Administration.

Miscellaneous Provisions

The BRFA also contains four provisions that do not directly impact spending but authorize transfers or repurpose spending or clarify and alter requirements.

- Relieves the requirement to appropriate certain fiscal 2022 general fund surplus to the Rainy Day Fund. As introduced, the fiscal 2024 budget included a \$61.4 million general fund reduction to the appropriation for the Rainy Day Fund, as well as the transfer of \$500 million to the Blueprint for Maryland's Future Fund and \$500 million to the Dedicated Purpose Account (DPA) for future transportation projects, contingent on this provision. The General Assembly directly reduced the \$61.4 million in general funds, rather than the reduction being contingent on the provision. In addition, the

General Assembly deleted the funds that would have been transferred to the DPA for future transportation projects and instead added \$100 million directly to the DPA for certain transportation activities and an additional \$400 million to support future education costs. The initial \$500 million transfer to the Blueprint for Maryland's Future Fund remains contingent on this provision.

- Authorizes the Governor to transfer by budget amendment unexpended appropriation from fiscal 2023 initially intended for Baltimore County to acquire Stevenson University's Greenspring Campus to instead be used for two libraries (Woodlawn Library and Essex Library).
- Delays the date by which a portion of the Bainbridge Naval Training Center must be transferred to the Department of Natural Resources from June 1, 2023, to June 1, 2025.
- Provides flexibility in the specialties for which University School of Medicine faculty is required to be assigned to the University of Maryland Capital Region Medical Center for the purpose of providing clinical care.

By the Numbers

A number of exhibits summarize legislative budget action, as described below.

Exhibit 1.10, the fiscal note on the budget bill, depicts the Governor's allowance, funding changes made through two supplemental budgets, legislative additions and reductions, and final appropriations for fiscal 2023 and 2024 by fund source. The Governor's original request provided for \$62.9 billion in fiscal 2024 expenditures and \$2.4 billion in fiscal 2023 deficiencies.

Supplemental budgets provided a net of \$482.2 million in additional spending across fiscal 2023 and 2024, of which nearly \$187 million was general funds and \$225 million was federal funds. Legislative actions on the budget and BRFA resulted in a net reduction of \$450.2 million across both budget years. The legislature made nearly \$1.2 billion in general fund reductions to the fiscal 2024 allowance, adding back more than \$1.1 billion to fund targeted priorities. When all actions are considered, the fiscal 2024 legislative appropriation reflects a \$932.8 million decrease from the adjusted fiscal 2023 working appropriation. **Exhibit 1.11** through **Exhibit 1.15** provide detail for the budget changes by major expenditure category by fund.

Grand Total	\$21,033.8	\$28,023.4	\$27,138.6	-\$884.9	-3.2%

⁽¹⁾ Includes the Historic Revitalization Tax Credit Reserve Fund.

⁽²⁾ The fiscal 2023 working appropriation for the Reserve Funds excludes \$378.8 million budgeted in the Dedicated Purpose Account (DPA). That amount is included in various other categories to reflect the purpose of the spending. It also excludes \$1.1 billion budgeted in the DPA for PAYGO capital spending, which is included in the Capital line on this chart.

⁽³⁾ Reversions include \$75 million in unspecified reversions in fiscal 2023 and \$45 million in unspecified reversions in fiscal 2024 as well as specified reversions of \$2.5 million in fiscal 2023 and \$1.0 million in fiscal 2024 from the Department of Service and Civic Innovation due to Chapter 99 of 2023.

Note: The fiscal 2023 working appropriation reflects \$134.9 million in deficiencies and supplemental deficiencies plus \$170.5 million in reversions including \$95.5 million in targeted reversions. In fiscal 2023, the General Assembly reduced the appropriation to the Revenue Stabilization Account by \$69 million but provided authorization for those funds to be used for a variety of purposes. The working appropriation reflects this reallocation.

- Transfer Tax Funded Programs

Fiscal 2024 Capital Budget

The General Assembly passed a fiscal 2024 capital program totaling \$6.970 billion, including \$2.730 billion for the transportation program through the *Consolidated Transportation Program* (CTP). Apart from the CTP, the program totals \$4.240 billion: \$1.219 billion is funded with general obligation (GO) bonds and another \$29.1 million is funded with attained bond premium proceeds authorized in **House Bill 201 (Chapter 102)**, the Maryland Consolidated Capital Bond Loan (MCCBL) of 2023; \$2.514 billion is funded on a pay-as-you-go (PAYGO) basis in the operating budget; \$447 million for school construction projects is funded with revenue bonds through the Built to Learn program; and \$30 million for University System of Maryland facilities is funded with Academic Revenue Bonds authorized in **House Bill 735 (Chapter 160)**. The budget also includes \$231 million for fiscal 2023 PAYGO deficiency appropriations, including \$219 million of general funds appropriated to replace funding for projects in fiscal 2023 that were originally funded with bond premium proceeds that were not attained.

Exhibit 2.1 provides a summary of the capital program by uses and sources, and **Exhibit 2.2** provides a detailed list of capital projects and programs by function and fund source. The attached link to the Maryland General Assembly webpage provides a list of the *miscellaneous capital grants, including legislative bond initiative projects* funded in both the operating and capital budget bills of the 2023 session.

Capital Budget Outlook

The fiscal 2024 capital program passed by the General Assembly is \$120 million more than the amount originally introduced by the Governor. This expansion is consistent with the recommendations of the Spending Affordability Committee, which included a general statement that the budget surplus be used to support PAYGO capital needs to supplement GO bonds, offset the impact of construction inflation, and provide funds for one-time infrastructure investments including legislative bond initiatives.

Overall, for GO bond proceeds, the final budget includes an additional \$12.0 million made available through the deauthorization of prior authorized bonds and \$29.1 million of attained bond premium proceeds made available from the March 2023 GO bond sale. For PAYGO, the general fund component decreased by \$44.4 million after accounting for several adjustments. These adjustments include:

1. \$384.8 million of general funds added by the legislature in Section 19 of the operating budget bill, of which \$100 million used unallocated funds earmarked for legislative priorities in the budget as introduced. Of this amount, \$232.2 million funds projects originally budgeted with GO bond funds but moved from the bond program to make room for legislative priorities in the capital budget bill, and \$10.4 million reflects reductions made to Department of Housing and Community Development programs to instead provide specified grants in Section 19;
2. \$81.1 million added through Supplemental Budget No. 2; and
3. a reduction of \$400 million from the \$500 million budgeted in the Dedicated Purpose Account to support the State match for future federal transportation grant awards. As enacted, the budget provides \$100 million to support the State match for future federal grant awards and to fund environmental studies for the Red Line and Southern Maryland Rapid Transit Projects. The Governor is also authorized to transfer by budget amendment an additional \$100 million from the Rainy Day Fund for transportation purposes.

Special funds increase by \$19 million most notably through the addition of \$12.0 million in Supplemental Budget No. 2 for infrastructure improvements at Martin State Airport.

Federal funds increase by \$104.6 million over the amount originally budgeted. Of this amount, \$95 million supports broadband infrastructure made available through the federal Infrastructure Investment and Jobs Act (IIJA). This is in addition to the \$76 million of IIJA funds budgeted in the Water Quality and Drinking Water revolving loan programs administered by the Maryland Department of the Environment.

Exhibit 2.3 and **Exhibit 2.4** illustrate the budget as introduced compared to the budget as passed by fund source and major funding category, excluding \$2.730 billion for the transportation program provided through the CTP. **Exhibit 2.5** illustrates the allocation of PAYGO general funds.

GO Bond Preauthorizations

The MCCBL of 2023 includes \$629.7 million of GO bond authorizations that will not take effect until fiscal 2025 and \$272.1 million that will not take effect until fiscal 2026 and 2027. Of the \$629.7 million preauthorized for fiscal 2025, \$395.6 million either continues the funding for existing State construction contracts or allows projects expected to be contracted during fiscal 2024 to proceed without the full amount of the construction authorization provided in the fiscal 2024 budget. The remaining \$234.1 million expresses the General Assembly's support of State and local projects, including \$100 million to support the potential relocation of the Federal Bureau of Investigation headquarters to Maryland. **Exhibit 2.6** shows the preauthorizations for fiscal 2025 through 2027 included in the MCCBL of 2023.

Additional Actions

House Bill 1298 (Chapter 141) includes amendments to prior authorizations that, among other changes, extend matching fund deadlines, extend deadlines for expending or encumbering funds, alter the purposes for which funds may be used, modify certification requirements, rename grant recipients, and alter project locations.

Higher Education

The overall State-funded portion of the fiscal 2024 capital program for all segments of higher education is \$483.6 million. Of the total funding, public four-year institutions receive \$387.8 million, or 80.2%, of funding; independent institutions receive \$14.3 million, or 2.9%, of funding; and community colleges, including Baltimore City Community College (BCCC), receive \$81.5 million, or 16.9%, of funding that includes \$17.6 million for the facilities renewal grant program and \$9.4 million for BCCC. **Exhibit 2.7** shows the fiscal 2024 capital funding by public four-year institution and segment.

Public School Construction

As illustrated in **Exhibit 2.8**, the fiscal 2024 budget provides \$1.092 billion for school construction programs including \$3.5 million for nonpublic schools. The largest funded program is the traditional Public School Construction Program that receives \$485.0 million, comprised of \$268.5 million of special funds from the Fiscal Responsibility Fund and \$216.5 million of

general funds. The largest fund source is revenue bonds with \$447.2 million estimated to be issued by the Maryland Stadium Authority as authorized by the Built to Learn Act, which is in addition to the approximately \$700 million approved in fiscal 2022. This reflects a revised bond issuance total for this program of approximately \$1.7 billion, subject to market conditions. The legislature also reallocated \$90 million for the Healthy School Facility Fund from GO bonds to general funds.

Transfer Tax Funded Programs

Programs traditionally funded by the transfer tax received a substantial increase in fiscal 2024. This is due to general funds mandated by Chapter 39 of 2022 (Great Maryland Outdoors Act) and an increase in the transfer tax revenue overattainment from fiscal 2022 that is budgeted in fiscal 2024. The revenue overattainment applied to fiscal 2024 is \$122 million compared to the \$48.5 million that was applied to fiscal 2023. The transfer tax revenue estimate itself decreased from \$306.5 million in fiscal 2023 to \$286.1 million in fiscal 2024.

Fiscal 2024 Funding

As shown in **Exhibit 2.10**, these changes altered both the amount and the components of funding for the traditionally transfer tax-funded programs. Not reflected in the exhibit is \$106.9 million of general funds mandated by Chapter 39 for the two new programs, the Park System Critical Maintenance Fund and Park System Capital Improvement and Acquisition Fund.

GO: general obligation

¹ The Baltimore City Direct Grant of \$10.0 million and the Program Open Space – Public Access Program of \$19.2 million are both components of the \$95.0 million transfer tax regular and overattainment special funds leaving \$65.8 million for Program Open Space State land acquisition. The \$3.0 million in federal funds reflects Land and Water Conservation Fund grants that may also be used for Program Open Space Local purposes.

² The Capital Development transfer tax regular and overattainment special funds are allocated as follows: Natural Resources Development Fund (\$32.5 million), of which \$13.2 million is for Maryland Environmental Service's Water and Wastewater Projects at State Parks; Ocean City Beach Maintenance (\$1.0 million); and Critical Maintenance Program (\$5.5 million).

³ The Rural Legacy Program general fund repayment funding of \$5.4 million is mandated by Chapter 39 of 2022 (Great Maryland Outdoors Act).

⁴ The Agricultural Land Preservation general fund repayment funding of \$16.6 million is mandated by Chapter 39. The other special funds reflect \$10.5 million in county participation funding.

⁵ The fiscal 2024 allowance included the required \$10.0 million in general fund repayment funding for the Next Generation Farmland Acquisition Program mandated by Chapter 39. The General Assembly reduced this funding by \$6.0 million and added it back for the Maryland Agricultural and Resource-Based Industry Development Corporation's core loan program due to the level of interest during the high interest rate environment.

Note: The Maryland Park Service's allocation of \$59.5 million, comprised of \$41.1 million in transfer tax regular funds and \$18.3 million in transfer tax overattainment special funds, is not shown in the exhibit. The exhibit also does not show the general fund appropriations mandated by Chapter 39 for the two new special funds: Park System Critical Maintenance Fund (\$70.0 million); and Park System Capital Improvement and Acquisition Fund (\$36.9 million).

Chapter 4. Local Government

- State Aid to Local Governments
- Summary of State Mandates
- Legislation Affecting Local Government Revenues
- Legislation Affecting Local Government Expenditures

State Aid to Local Governments

Overview

State aid to local governments will total \$10.3 billion in fiscal 2024, representing a \$888.5 million, or 9.4%, increase over fiscal 2023. Direct aid will increase by \$842.7 million, and State funding for retirement payments will increase by \$45.8 million. As in prior years, local school systems will receive the largest total increase in State funding, though not in terms of percentage change. **Exhibit 4.1** compares State aid by governmental entity in fiscal 2023 and 2024.

Exhibit 4.1
State Aid to Local Governments

Major Legislative and Budgetary Actions

The General Assembly passed several measures during the 2023 session that altered State aid to local governments (**Exhibit 4.2**). County and municipal governments receive the majority of these enhancements. Additional funding is provided to assist Baltimore City and Kent County in covering the local appropriation for the local school system (local education effort grant). Both jurisdictions are experiencing sizeable, mandated increases in their local funding requirements under the Blueprint for Maryland's Future (Blueprint). Other major enhancements include \$4.5 million for the Maryland Meals for Achievement program, \$3.0 million to enhance teacher salaries at nonpublic schools serving special education students, and \$2.0 million to cover salary costs for program coordinators responsible for the implementation of the Blueprint.

Exhibit 4.2
State Aid Enhancements – Legislative and Budgetary Actions
Fiscal 2024

<u>Aid Program</u>	<u>Funding Amount</u>
Maryland Meals for Achievement	\$4,500,000
Nonpublic Placements	3,000,000
Blueprint Coordinators	2,000,000
School Waste Compost	250,000
Gwynn Park High School	60,000
<i>Subtotal – Education Aid</i>	<i>\$9,810,000</i>
Local Education Effort	\$10,250,000
Baltimore City Artscape	1,500,000
Emergency Rental Assistance	1,000,000
Baltimore City Parks and Recreation	200,000
<i>Subtotal – County-Municipal Aid</i>	<i>\$12,950,000</i>
Total Enhancements	\$22,760,000

Changes by Program

State aid to local governments increases for all jurisdictions in fiscal 2024. **Exhibit 4.3** summarizes the distribution of direct aid by governmental unit and shows the estimated State retirement payments for local government employees. **Exhibit 4.4** shows total State aid in fiscal 2023 and 2024 by program. A more detailed discussion of the changes in State aid in fiscal 2024 follows the exhibits.

Primary and Secondary Education

State aid to public schools will total \$8.7 billion in fiscal 2024, an increase of \$704.9 million over fiscal 2023, and includes \$7.9 billion in direct aid and \$768.6 million in retirement payments. Public schools account for the vast majority of State funding to local governments, representing approximately 84% of total State aid.

Blueprint legislation, including Chapter 771 of 2019, Chapters 36 and 55 of 2021, and Chapter 33 of 2022, established new programs and updated education funding formulas. The legislation results in substantial anticipated annual increases in State aid to public schools for several years to come. The great majority of the \$704.9 million increase in fiscal 2024 is driven by funding increases in four major formula aid programs as well as one-time hold harmless grants, as discussed below.

Foundation funding increases by \$108.9 million in fiscal 2024, due largely to a 4.0% increase in the per pupil funding amount and a 0.5% increase in full-time equivalent (FTE) enrollment. The fiscal 2024 budget also includes \$34.5 million in foundation special hold harmless grants, preventing substantial decreases in direct State education aid for any local school system, including \$30.4 million for Baltimore City Public Schools and \$4.1 million for Allegany County Public Schools.

Compensatory education funding increases by \$390.9 million in fiscal 2024, due mostly to a 33.6% increase in free and reduced-price meal (FRPM) student enrollment. This increase in the FRPM count is due to an alternative approach in identifying eligible students and not necessarily related to a downturn in the income status of the student's family. The Commission on Innovation and Excellence in Education recommended that Medicaid eligibility be used to determine FRPM eligibility once the Maryland State Department of Education and the Maryland Department of

Health have the necessary memorandum of understanding and information systems in place. This is the first time that this approach has been used to determine FRPM eligibility.

The General Assembly also passed legislation with significant implications for State aid for public schools. **House Bill 448 (Chapter 648)** requires a nonpublic school in which a child receiving special education services is placed to pay its teachers a salary that is equivalent to the local school salaries, phased in as specified over three years, beginning in fiscal 2024. Consequently, State expenditures increase by an estimated \$3.5 million in fiscal 2024 and by an estimated \$11.4 million in fiscal 2028. The local government share of nonpublic placements also increases under the legislation. The fiscal 2024 State budget provides \$148.6 million in State aid for nonpublic placements (a \$7.2 million increase), including \$3.0 million for the State's share of increasing salaries of nonpublic school special education teachers.

Senate Bill 559 (Chapter 628) increases mandated annual funding by \$4.5 million, from \$7.6 million to \$12.1 million, for the Maryland Meals for Achievement In-Classroom Breakfast Program, beginning in fiscal 2025. The fiscal 2024 budget similarly includes an additional \$4.5 million for this purpose, contingent upon enactment of this legislation. Consequently, public school food service State aid increases by \$4.5 million, to a total of \$20.3 million in fiscal 2024.

Local Libraries

State aid to local libraries will total \$91.7 million in fiscal 2024, an increase of \$2.3 million, which includes \$70.1 million in direct aid and \$21.6 million in retirement payments. Local libraries account for approximately 1% of total State aid to local governments, with funding targeted to local library systems, regional resource centers, and the State Library Resource Center in Baltimore City.

The State provides funding to local library systems through a formula that determines the State and local shares of a minimum per capita library program. Per capita funding is \$17.90 in fiscal 2024 and is set to increase to \$19.10 annually, beginning in fiscal 2027. Fiscal 2024 funding totals \$45.7 million. In addition, Baltimore City continues to receive \$3.0 million annually to support expanded operations as it has since fiscal 2018. The State also provides State library network funding in the form of per capita funding to regional resource centers (\$9.39 per capita in fiscal 2024) and for the State Library Resource Center (\$1.97 annually). Regional resource per capita funding is set to increase annually until reaching \$9.99 by fiscal 2027. State library network funding totals \$21.4 million in fiscal 2024, an increase of \$473,700.

Community Colleges

State aid to local community colleges will total \$476.3 million in fiscal 2024, an increase of \$41.0 million, which includes \$430.3 million in direct aid and \$46.1 million in retirement payments. Community colleges account for 4.6% of total State aid to local governments. The Cade funding formula is the main source of State funding in support of community colleges. The formula is based on a percentage (29%) of the current year's State aid to selected four-year public

higher education institutions and the total number of FTE students at the community colleges. The total is then distributed to each college based on the previous year's direct grant, enrollment, and a small-size factor.

Local Health

The State provides funds to support the delivery of public health services, including child health, communicable disease prevention, maternal health, family planning, environmental health, and administration of local health departments. The funding formula is adjusted annually for inflation and statewide population growth for the second preceding fiscal year. The annual adjustment is generally allocated to each county based on its percentage share of State funds distributed in the previous fiscal year. The need to address a substantial change in community health needs as determined by the Secretary of Health may also affect allocations of the annual adjustment. In fiscal 2024, State funding for local health departments will total \$115.8 million, which accounts for 1.1% of total State aid. This funding amount includes \$60.8 million under the formula and \$55.0 million in supplemental funding.

Transportation

The Maryland Department of Transportation provides capital transportation grants to local governments based on the amount of revenue allocated to the Gasoline and Motor Vehicle Revenue Account (GMVRA). This funding is allocated to local governments through the local highway user revenues program. In fiscal 2024, funding to local governments is based on 15.6% of total GMVRA revenues. Allocations to counties and municipalities are based on the percentage of road miles and vehicle registrations within each local jurisdiction. Baltimore City receives a larger share of local highway user revenues than other jurisdictions because the State does not conduct highway maintenance or construction within the city (except for portions of I-95). In fiscal 2024, local highway user revenues will total \$331.4 million, a \$57.2 million increase over the fiscal 2023 amount. Of this amount, county governments will receive \$78.6 million, municipal governments will receive \$51.0 million, and Baltimore City will receive \$201.8 million.

The State budget also includes \$14.2 million in funding for a bus rapid transit system in Montgomery County, which continues funding that began in fiscal 2023. Local governments will also receive \$4.3 million for elderly and disabled transportation services and \$1.4 million in support for paratransit services, which reflect constant funding from the prior year.

Public Safety

State aid for public safety programs will total \$217.7 million in fiscal 2024, which represents a \$3.6 million decrease from the prior year. This decrease is primarily attributable to the removal of several one-time grants.

Maryland's counties and municipalities receive grants for police protection through the police aid formula. The police aid formula allocates funds on a per capita basis, and jurisdictions

with a higher population density receive greater per capita grants. Municipalities receive additional grants based on the number of sworn officers. State funding for police aid will total \$75.8 million in fiscal 2024, representing a slight decrease over the fiscal 2023 amount due to minor decreases in population. The State budget includes, for the second year, an additional \$45.9 million in enhanced police aid funding to address violent crime, with this funding allocated based on each jurisdiction's share of total violent offenses committed in the State.

Local law enforcement agencies receive additional State funding through targeted crime grants, which will total \$52.5 million in fiscal 2024, a decrease of \$2.75 million due to the removal of one-time funding for cross jurisdictional task forces and for local police departments to purchase license plate readers. The fiscal 2024 budget includes funding for one new statewide initiative to support warrant apprehension efforts and to reduce the number of outstanding warrants.

State funding for county 9-1-1 systems, which consists of funding from the State 9-1-1 fee and 25% of the prepaid wireless E 9-1-1 fee, is level funded in fiscal 2024, at \$28.4 million. Local governments will also receive \$15.0 million for fire and rescue aid in fiscal 2024, which reflects constant funding from the prior year.

Disparity Grants

The disparity grant program provides funding to low-wealth jurisdictions where per capita local income tax revenue is below 75% of the statewide average. Based on the statutory formula, Baltimore City and nine counties (Allegany, Caroline, Cecil, Dorchester, Garrett, Prince George's, Somerset, Washington, and Wicomico) qualify for disparity grants. In fiscal 2024, disparity grant funding will total \$220.2 million, which represents a \$58.9 million increase from the prior year.

Gaming Impact Grants

From the proceeds generated by video lottery terminals (VLT) at video lottery facilities in the State, generally 5.5% is distributed to local governments in which a video lottery facility is operating. In addition, 5.0% of table game revenues are distributed to local jurisdictions where a video lottery facility is located. In fiscal 2024, gaming impact grants total \$108.0 million, an increase of \$793,500 over fiscal 2023 levels.

Other Grants

The fiscal 2024 budget includes several one-time grants to local governments. Local education effort grants are provided to two local governments for the purpose of funding the local appropriation to the public school system. Baltimore City will receive \$10.0 million, and Kent County will receive \$250,000. Grants totaling \$1.5 million and \$200,000 are also provided to Baltimore City to support the 2023 Artscape Festival and a middle school basketball league.

The Neighborhood Revitalization program within the Department of Housing and Community Development provides local communities, nonprofit and community development

organizations, and small businesses with access to resources that leverage new investment for priority Smart Growth initiatives. The fiscal 2024 budget enhances funding for this program in the amount of \$1.0 million to provide a grant to Prince George's County to support an emergency rental assistance fund for seniors.

Summary of State Mandates	
Community Colleges	3
Cybersecurity	1
Education	4
Elections	3
Finances and Taxes	1
Personnel	1
Public Safety	1
Total	14

Mandate is defined as a directive in a bill requiring a local government unit to perform a task or assume a responsibility that has a discernible fiscal impact on the local government unit (*Maryland Annotated Code*, State Government Article, § 2-1501(c)). In the following sections, legislation that imposes a State mandate is marked accordingly.

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
Legislation Affecting All/Multiple Local Jurisdictions			
SB 3/HB 271	9-8-8 Trust Fund – Funding (Ch. 260/Ch. 261)	Potential significant increase in reimbursement revenues for behavioral health crisis response services.	No
SB 61	Property Tax Credit – Public Safety Officer (Ch. 559)	Potential decrease in county and municipal property tax revenues.	No
SB 141/HB 180	Income Tax – Subtraction Modification for Adoption Expenses – Alterations (Ch. 550/Ch. 551)	Local income tax revenues decrease by \$54,000 annually.	No
SB 224/HB 230	Department of the Environment – Zero-Emission Medium- and Heavy-Duty Vehicles – Regulations (Clean Trucks Act of 2023) (Ch. 96/Ch. 97)	Potential grant revenues (duplicative of impact for HB 550).	No
SB 226	Criminal Law – Child Pornography – Accessing and Intentionally Viewing (Ch. 759)	Minimal fine revenues.	No
SB 228/HB 614	Department of Aging – Long-Term Care and Dementia Care Navigation Programs (Ch. 667/Ch. 668)	Beginning in FY 2025, State funding for area agencies on aging that are units of local government.	No

Chapter 5. Vetoed Legislation

- Vetoed Legislation

Vetoed Legislation

The following are 2023 bills that were vetoed by the Governor for policy reasons. The fiscal impact of the legislation is summarized below.

SB 217/HB 472 Transit – Commuter Bus Service – Procurement

Maryland Transit Administration (MTA) operations would have potentially been affected to the extent the bill resulted in more complex procurements for commuter bus service. Any effect on State expenditures could not be reliably estimated, as it would have been dependent on the bills' effects on the competitiveness of procurements for commuter bus service and on the factors used by MTA as the basis for award of contracts procured using competitive sealed proposals. State revenues would not have been affected. Local government operations and finances would not have been affected.
