**Updates on State Sign Language Interpreter Licensing Requirements:** Chapters 269 and 270 of 2023 (Maryland Sign Language Interpreters Act) required the State Board of Sign Language Interpreters to establish and publish licensing requirements for sign language interpreters by July 1, 2024. While proposed regulations were submitted for public comment in June 2025, the Office of the Deaf and Hard of Hearing (ODHH) announced in November 2025 that the development of regulations was being paused due to concerns raised during the public comment period. The committees request that ODHH submit two reports on regulation development and implementation, discussing:

- concerns raised during the public comment period that necessitated the pause in regulation development;
- any statutory changes recommended by the Governor's new working group;
- progress toward establishing State sign language licensing requirements and projected timeline for publishing the requirements; and

**Explanation:**

As of December 31, 2025, 4 positions within the Office of the Deaf and Hard of Hearing (ODHH) were vacant, leading to a vacancy rate of 57.1%. **Supporting Older Adults with Resources Program Implementation Plan:** In accordance with Chapters 33 and 34 of 2025, the Maryland Department of Aging (MDOA) is undergoing a process of consolidating three major community services programs into the Supporting Older Adults with Resources (SOAR) program. The legacy programs combine \$20.1 million of general funds and provide services to almost 4,000 participants to support them to live independently. The committees request that MDOA provide a report on its final transition plan for implementing the SOAR program, including:

- the status of consolidating administration of the legacy programs;
- the SOAR implementation timeline, noting the timing of completed tasks and target dates for any remaining consolidation tasks;
- details on how funding will be allocated to local Area Agencies on Aging;
- discussion and estimates of administrative cost savings from the consolidation;
- participant eligibility requirements to receive services;

The Maryland Department of Aging's (MDOA) annual MFR submission includes indicators reflecting goals to (1) enable older adults to remain in their homes with a high quality of life for as long as possible; (2) to prevent abuse, neglect, and exploitation of older adults; (3) to empower older adults to stay active and healthy; and (4) to provide mobility to Marylanders of all ages while protecting the environment. As the SOAR program will be MDOA's largest state-funded community services program, measures should be added to assess the program's performance. The committees request that MDOA create new performance measures for the SOAR program, including annual participant counts, to be included in the MFR submission with the fiscal 2028 budget.

**Measures Implemented to Reduce Case Backlogs:** The Maryland Commission on Civil Rights (MCCR) has faced persistent challenges in case processing that have been primarily attributed to staffing limitations, contributing to delays and a backlog of cases awaiting assignment. The committees request that MCCR submit a report outlining any measures implemented to reduce case backlogs, including:

- the status of filling vacant positions related to both the new positions in fiscal 2026 and other vacant positions, and the impact of filling vacant positions on the case backlog and case assignment timeliness;
- metrics tracking case resolution outcomes, including average processing time, number of cases closed, and proportion of cases resolved within established benchmarks;
- a discussion of operational improvements, including any changes in workflow, investigator caseloads, or coordination with involved parties and any impacts these changes have had on case backlogs; and

**Report on Staffing at State Hospital Facilities:** As of December 31, 2025, 90% of vacant positions in the Maryland Department of Health (MDH) Administration programs were located at State hospital facilities (494.6 vacancies). Each of the five adult psychiatric hospital facilities in the State operate at near-full capacity and maintain a waiting list. The fiscal 2026 and 2027 budgets include significant funding for overtime costs at hospital facilities. In addition, recent concern regarding pediatric hospital overstay resulted in a funding increase of \$3 million to expand bed space at the John L. Gildner Regional Institute for Children and Adolescents (JLG RICA) facility beginning in fiscal 2026. To better understand the staffing challenges at State hospital facilities and the steps MDH has taken to fill vacant positions, the committees request that the department prepare a report with data as of June 30, 2026. The report should include:

- the number of vacant and filled positions at each of the State's five adult psychiatric hospital facilities and the two youth psychiatric hospital facilities;
- the average length of employment of staff at each facility;
- the number of staff needed to avoid overtime shifts among existing employees at each facility;
- the number of MDH staff and the number of Department of Juvenile Services staff necessary to operate the proposed facility for children at JLG RICA;
- the primary reasons employees give for leaving a State hospital facility; and

- (2) the number of filled and vacant positions at the unit as of June 1, 2026;
- (3) the cost of staffing the additional beds in fiscal 2026 to date as of June 1, 2026;

The report shall be submitted by July 15, 2026, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:**

The fiscal 2026 Budget Bill restricts \$3 million in general funds to be used only to address pediatric hospital overstay. The Maryland Department of Health (MDH) indicated that it would use the funding to increase staff for additional beds at JLG RICA. In fiscal 2026, MDH transferred 31.0 vacant positions from the Thomas B. Finan Hospital Center to staff the overstay unit at JLG RICA. However, as of March 1, 2026, all of these positions remain vacant. This language restricts funds pending submission of a report on the timeline for filling vacancies, how the beds will be staffed and made available, as well as how the restricted funding has been used to expand the facility’s capacity.

**Explanation:**

Since fiscal 2021, MDH has admitted fewer than 30% of NCR/IST patients within 10 days of a court order, and in fiscal 2025, MDH placed patients an average of 56 days following a court order. The fiscal 2027 budget includes a fiscal 2026 deficiency appropriation of \$1.5 million in general funds for fines related to exceeding the 10-day placement requirement. Between fiscal 2021 and 2022, the number of court orders that MDH received from the Judiciary increased by 30.2%. Since then, the numbers have increased annually. The committees are interested in MDH’s role in detecting serious health conditions among young children. In December 2025, the U.S. Department of Health and Human Services added metachromatic leukodystrophy and Duchenne Muscular Dystrophy to the Recommended Uniform Screening Panel (RUSP). Per statute, MDH is required to include these disorders in its newborn screening panel within 18 months of being added to RUSP (June 2027). **Report on Reimbursable Fund Spending in Behavioral Health Medicaid:** Fiscal 2026 and 2027 are the first in recent years in which reimbursable funds have been budgeted in the Behavioral Health Medicaid program (M00Q01.10). In both years, these funds are available from the Community Services program budget for behavioral health investments. These funds support the following Medicaid-eligible services: mobile crisis; crisis stabilization; and school-based behavioral health services as well as spending for the Centers for Medicare and Medicaid reentry waiver. While the monthly data submitted on service utilization and spending includes most of these services as of fiscal 2026, it is unclear how the department will report utilization and spending for the reentry waiver. The committees are interested in understanding how reimbursable funding in this program will be reported and tracked to facilitate analysis of utilization trends and estimations of funding needs. The Behavioral Health Administration should submit by July 31, 2026, a report which includes:

- description of how spending on the reentry waiver is recorded and tracked;

**Explanation:**

Chapters 286 and 287 of 2023 established the Behavioral Health Workforce Investment Fund to support the education, training, recruiting, and retaining of behavioral professionals and paraprofessionals in Maryland. The legislation also required the Maryland Health Care Commission (MHCC) to publish a behavioral health workforce study, which found that the State has 18,200 fewer behavioral health workers than needed to meet the State’s need as of calendar 2024. To date, BHA has not added money to this fund, nor implemented any recommendations from MHCC’s study. **Explanation:**

BHA transitioned to a new Administration Services Organization (ASO) on January 1, 2025. The Maryland Department of Health and the new contractor, Carelon, have provided two reports with information about the transition, challenges that have arisen, and how issues have been addressed. During the first year of the transition, issues with data transfer between the previous ASO and Carelon have occurred, leading to the incorrect categorization of some claims and minor delays in paying out claims. This language restricts funds pending the submission of a report with updates on the transition.

**Report on Financing for Long-acting Injectable Medication:** Long-acting injectable (LAI) medications are used to treat psychosis or as mood stabilizers in individuals living with serious and persistent mental illness (SPMI). LAIs may help individuals with SPMI maintain treatment consistency and reduce hospitalization. In Maryland, LAI services are reimbursed under the hospital rate, set by the Maryland Health Services Cost Review Commission (HSCRC). The committees are interested in the feasibility of financing these treatments as outpatient Medicaid services through a State Plan Amendment (SPA) or Medicaid waiver. The committees request that the Maryland Department of Health (MDH) Medical Care Programs Administration, in conjunction with the Behavioral Health Administration and HSCRC, submit a report that includes:

Adopt

- whether MDH and HSCRC have evaluated the potential for carving LAIs out of the hospital daily rate, including any impacts on operations, the rate setting processes, and federal considerations;
- the process by which MDH could establish a SPA for LAI services for Medicaid enrollees in Maryland and how it would interact with the hospital daily rate set by HSCRC;
- the projected impact of carving out LAI services on behavioral health spending through the Medicaid program and hospital finances;

Further provided that, relating to dedicated hours, effective July 1, 2026, the Developmental Disabilities Administration (DDA) within the Maryland Department of Health (MDH) shall implement the following policy when implementing cost containment action that enforces dedicated hours policy. Dedicated hours may be accessed when the participant has an assessed medical or behavioral need and an approved behavioral support plan or nursing care plan that justifies the need, or a daytime residential support need as described below. This policy is intended to ensure that, in all other circumstances, such as community integration, appointments, and other circumstances that do not meet the assessed need criteria, shared hours are exhausted before dedicated hours are accessed. Dedicated hours may support more than one participant only when doing so meets each participant’s assessed needs, and the participants are retired, transitioning between meaningful day services, recovering from a health condition, or receiving fewer than 30 hours of meaningful day services per week.

DDA will approve dedicated hours without considering the use of shared hours when:

This training will include, but is not limited to, detailing DDA’s federal and State approval criteria, its enforcement of federal requirements, and its utilization reviews of shared hours.

Further provided that since the Maryland Department of Health has had four or more repeat audit findings in the most recent Medical Care Programs Administration (MCPA) fiscal compliance audit issued by the Office of Legislative Audits (OLA), \$250,000 of this agency’s administrative appropriation may not be expended unless:

- (1) MCPA has taken corrective action with respect to all repeat audit findings on or before November 1, 2026; and
- (2) a report is submitted to the budget committees by OLA listing each repeat audit finding along with a determination that each repeat finding was corrected. The budget committees shall have 45 days from the date of the receipt of the report to review and comment to allow for funds to be released prior to the end of fiscal 2027. General funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise and shall revert to the General Fund if the report is not submitted.

**Explanation:**

The Joint Audit and Evaluation Committee (JAEC) has requested that budget bill language be added for each unit of State government that has four or more repeat audit findings in its most recent fiscal compliance audit. Each agency is to have a portion of its administrative budget withheld pending the adoption of corrective action by the agency and a determination by OLA that each finding was corrected. OLA shall submit a report to the budget committees on the status of repeat findings.

**Child Support Performance Reports:** The federal government evaluates states’ performance against five measures to determine federal incentive payments: paternity establishment; support order establishment; collections on current support; cases paying toward arrears; and cost effectiveness. Recent data from the Department of Human Services (DHS) Child Support Administration (CSA) shows that the agency is stagnating in each of the five areas. Considering CSA’s transition of its primary data system, the Child Support Management System (CSMS), to make its agency’s processes and tasks more efficient, the committees are interested in understanding how this system is helping CSA achieve its performance goals.

The committees request that DHS submit three reports on performance using data as of June 30, 2026; September 30, 2026; and December 31, 2026. Each report should include the following:

- a discussion of factors affecting performance in the quarter;
- the State’s aggregate performance set against the five performance measures used to determine federal incentive payments;
- each jurisdiction’s performance set against the five performance measures used to determine federal incentive payments;
- the number of cases in each jurisdiction in the quarter; and
- specific tasks related to each of the five performance measures that are streamlined, made more efficient, or made more complicated by the CSMS.

(3)	<u>a detailed plan outlining strategies that the department is undertaking or plans to undertake to reduce the payment error rate below 10%, including a timeline for beginning and each key milestone for these strategies.</u>					

The report shall be submitted by September 1, 2026, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:**

Maryland’s SNAP payment error rate has exceeded 10% in each federal fiscal 2022 through 2024. Beginning with federal fiscal 2028, States with payment error rates exceeding 6% will be required to pay a share of SNAP costs. At Maryland’s most recent error rate, the State could qualify for a delay in this cost share, but if required to pay, it will likely be at the maximum level of 15%. In addition, Maryland was assessed penalties for the payment error rate by the U.S. Department of Agriculture for federal fiscal 2023 and 2024. These penalties were under appeal in fiscal 2026. This action restricts funds pending submission of a report on strategies to reduce the payment error rate for SNAP, including the timeline

**Section 43 Reduced Unneeded Fiscal Responsibility Funds in Fiscal 2026**

Section 43. AND BE IT FURTHER ENACTED, That funds are reduced immediately upon passage of this budget from the fiscal 2026 appropriation in the following manner:

\$59,314,476 in special funds from the Fiscal Responsibility Fund is reduced from the appropriation for program N00G00.08 Assistance Payments within the Department of Human Services that was made for the purpose of providing partial State funded Supplemental Nutrition Assistance Program benefits during the federal government shutdown.

**Explanation:**

During a State of Emergency related to the federal government shutdown, \$62 million from the Fiscal Responsibility Fund was transferred to the Department of Human Services to pay partial State-funded

Supplemental Nutrition Assistance Program benefits in that month. Due to court rulings, the federal government ultimately distributed funds for a partial benefit prior to the end of the federal government shutdown, reducing the needed funds to pay a partial benefit through State funds. As a result, DHS used only \$2,685,524 of the appropriated funds. The remainder of these funds would revert back to the Fiscal Responsibility Fund at the close of the fiscal year. The Budget Reconciliation and Financing Act of 2026 assumes that these funds are available to be transferred, along with other balance in the fund, to the general fund in fiscal 2026. This action reduces the appropriation by the amount of the unused appropriation.

**Explanation:**

Reduce the federal funds for a deficiency appropriation for the Employment and Income Verification contract. The Department of Human Services indicates that the federal funding need for this deficiency appropriation is \$4.1 million rather than the \$8.0 million provided. This action aligns the deficiency appropriation with the projected need.
