All entries represent ONLY a subset of the flights that I was able to record. It does not reflect the totality of flights over our home day and night.

ALL DAY LONG, directly over our home

1-2 minutes apart and fly directly over my house

Tacoma, United States

noz Marin, San Juan, Puerto Rico

these late night entries are likely the freight carriers that don't need to fly at low altitudes for passenger comfort

Cargo flights are flying the lowest! Why??
Because NextGEN

do, United States

We have no down time

This is EVERY DAY

My kids are awakened EVERY night

AND very early EVERY morning

ago Midway, United States
