Residential Electricity & Gas Supply
Billing Information - Reports

Comparing Residential Retail Electricity Supplier Offers

Renewal and Green Offers Versus Standard Offer Service Offers

There are retail electric supply offers in Maryland Utility service areas that offer a less expensive alternative to the utility's standard offer service price. There are also offers that provide the customer with 100% renewable energy, underscoring the notion that consumers can choose to pay more for a renewable product. This information is found on the Maryland Public Service Commission website - several of those pages are included in this written testimony to provide an example of what the consumer sees when reviewing the price-to-compare within utility territories.

BGE

Standard Supply Service: 0.0737kwh

There are 29 Retail Electricity Supply Offers below Standard Supply Service.

A snapshot of these offers:

AEP Energy, Inc.	\$0.0599
Ambit Northeast, LLC	\$0.0709
American Power and Gas of MD LLC	\$0.0589

100% Green and Renewable Offers (20)

The information provided below is solely the responsibility of the retail electricity suppliers. The Maryland Public Service Commission does not enter the price data, has not verified its accuracy, and is not responsible for any losses due to incorrect information provided by the suppliers. Because the offers and prices are subject to change (particularly with variable rate offers), customers are urged to **verify pricing, terms, and conditions** before signing a contract with a retail energy supplier.
