

Dear Members of Congress,

My name is Sharon Holley and I am a senior citizen and homeowner in Western Baltimore County. As a homeowner my home is in need of weatherization that I cannot afford. A friend suggested that I call Green and Healthy Homes to see if they were able to help me. I did and qualified for their weatherization program, but upon inspection it was discovered that I am in need of a new roof and also mold abatement and would not be able to get the weatherization until those issues were addressed. As a senior citizen, although still employed, I cannot afford to take care of them myself.

That is why I am writing you to ask that you pass HB 982, which would make additional funds available to ensure individuals like myself are able to benefit from weatherization and energy efficiency programs.

Thank you for your consideration,

Sharon Holley
