

Testimony of Joe DiMarco

House Bill 1545 - Electric Generation - Transition From Fossil Fuels - Carbon Dioxide Emissions Rate and Transition Account

My name is Joe DiMarco, and I work at the Chalk Point Generating Station and I am here today to voice my opposition to HB1545.

Genesis 1 New International Version (NIV)

The Beginning

1 In the beginning God created the heavens and the earth. 2 Now the earth was formless and empty, darkness was over the surface of the deep, and the Spirit of God was hovering over the waters.

3 And God said, "Let there be light," and there was light. 4 God saw that the light was good, and he separated the light from the darkness. 5 God called the light "day," and the darkness he called "night." And there was evening, and there was morning—the first day.

6 And God said, "Let there be a vault between the waters to separate water from water." 7 So God made the vault and separated the water under the vault from the water above it. And it was so. 8 God called the vault "sky." And there was evening, and there was morning—the second day.

9 And God said, "Let the water under the sky be gathered to one place, and let dry ground appear." And it was so. 10 God called the dry ground "land," and the gathered waters he called "seas." And God saw that it was good.

As you can see by the scriptures God created this earth and all its resources on the earth for mankind. God is all knowing and all powerful. He not only knew what mankind would use these resources for he knows that they would be beneficial to mankind.

For anyone to suggest that God the “Creator’ of ALL things is not powerful enough to protect the environment from his creation (mankind), that person doesn’t know God and what He is capable of.

You see God created “Climate Change” in the beginning of time in the form of Winter, Spring, Summer and Fall. Scientist have been trying to say that humans are responsible for what they used to call it Global Cooling, then they changed their narrative to Global Warming and ultimately to Climate Change, in order to meet their end game. You now have scientist coming out exposing the flaws of Climate Change and I urge you to go on You Tube and search “Patrick Moore – The Sensible Environmentalist” and watch the 20 minute video. I think you will be surprisingly educated on this matter.

The problem with listening to the Climate scientist is that they are paid to prove the so-called global warming, which means if they disprove global warming they actually put themselves out of work. You’ve heard the saying Follow the money, well that is exactly what needs to be done in this instance. The climate change hoax is very profitable...

I leave you with this last scripture...

Isaiah 40:25-28 New International Version (NIV)

25 “To whom will you compare me?

Or who is my equal?” says the Holy One.

26 Lift up your eyes and look to the heavens:

Who created all these?

He who brings out the starry host one by one
and calls forth each of them by name.

Because of his great power and mighty strength,
not one of them is missing.

27 Why do you complain, Jacob?

Why do you say, Israel,

“My way is hidden from the Lord;
my cause is disregarded by my God”?

28 Do you not know?

Have you not heard?

The Lord is the everlasting God,
the Creator of the ends of the earth.

He will not grow tired or weary,
and his understanding no one can fathom.

This Old Testament scripture states that God is All powerful and All knowing
and that He will continue to sustain the climate.

Thank You for your time and for reading my words,

Joe DiMarco
