

SB 853 Education-Voluntary Ethical Special Education Advocate Certificate Program-Support-
Rosemary Barry

As an educator with more than 4 decades of experience working with special needs children, it is imperative that SB 853 gets passed. While my 2 adult children did not need these services, parents and other caretakers need any extra help that they can receive. Eventually these children will become adults and, hopefully, productive members of our community. To accomplish that goal, they need all the resources and help while they are on their journey through their educational experiences in Maryland.

Thanks for your help in passage of this bill. It is a vital component in the lives of these children.
