

10 Broadridge Lane Statement

My Name is Babatunde Shittu, I Live in Lutherville-Timonium and I am a Husband and father.

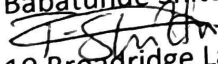

My family has lived in Lutherville-Timonium for 2 years. Our house is directly behind the hemp farm and a fence only separates us. We fully did our research before buying in 2018. We found out that the farm behind us had been a tree farm for many years and we bought our property with the beautiful serene in mind as well as it being a very safe Neighborhood.

Like so many of my Neighbors, My Family has been forced to breathe the horrible smell coming from the hemp farm right behind us. We have had to deal with allergies and eye irritations because of the Nasty smell from the farm. We are unable to breathe in fresh air and open the windows. Our clothes smell horribly as well as inside of our cars. It is truly bad. For Instance, My neighbor has not been able to enjoy the pool because of the horrible and nauseating smell from the hemp farm.

My Neighbors and I believe the government should protect us and the environment from the hemp smell, as we do not know what we are breathing in. Common courtesy for humanity should prevail in situations like this. We believe Hemp can and should be grown away from residential areas and we should not be subjected to the health risks of breathing in Hemp in our Community. We should be protected and Please keep our young children in mind. They are not able to play outside in the safe Neighborhood because of the horrible smell.

Please enact a Law that prohibits and restricts Hemp from being grown in residential Areas.

Kind Regards,

Babatunde Shittu
