The Honorable Kumar P. Barve
Chairman, House Environment and Transportation Committee
251 House Office Building
Annapolis MD 21401

***RE: Letter of Information – House Bill 519 - Transportation – Toll Discount Plans –
Francis Scott Key Bridge***

Dear Chairman Barve and Committee Members;

The Maryland Department of Transportation (MDOT) and the Maryland Transportation Authority (MDTA) take no position on House Bill 519 but offer the following information for the Committee's consideration.

House Bill 519 would require the Maryland Transportation Authority (MDTA) to offer a Commuter Toll Discount Plan that allows 25 crossings of the Francis Scott Key Bridge (FSK) within a period of 45 days for a fee of \$35.

The MDTA currently offers a significant commuter discount for frequent users of all MDTA facilities. Specific to the FSK Bridge, Harbor Tunnel, and Fort McHenry Tunnel, the discount plan provides 50 trips for \$70 on the FSK Bridge, Harbor Tunnel, and Fort McHenry Tunnel and must be used within 45 days. Under the current commuter plan, if a commuter uses all 50 trips, the commuter pays only \$1.40 per trip across these facilities – a commuter savings of 65% of the cash rate.

The plan required under House Bill 519 would result in a revenue loss of approximately \$2.0 million and \$2.5 million in FY 2021 and FY 2022, respectively. The projected fiscal impact includes the additional loss in toll revenues associated with drivers diverting from the Baltimore Harbor Tunnel and Fort McHenry Tunnel to the FSK Bridge.

Since 1971, the MDTA has been responsible for constructing, managing, operating and improving the State's eight toll facilities, as well as for financing new transportation projects under its purview (such as the Harry W. Nice/Senator Mac Middleton Bridge in Charles County). In accordance with MDTA's Trust Agreement with bondholders, toll revenues are first pledged to pay debt service for bonds that are used to fund major transportation projects at existing and new facilities.

The Honorable Kumar Barve
Page Two

MDTA's bond rating is currently the highest of any toll authority in the country, and rating agencies have stated in the past that one of the main reasons for that is that the MDTA has maintained its statutory independence. The MDTA is governed by a nine-member board of directors, with the Secretary of Transportation serving as Chair. The organization is entirely reliant on tolls collected from its users as the MDTA does not receive any state General Fund or

Transportation Trust Fund dollars. Thus, legislation impacting the revenues and operations of MDTA could have a negative effect on the credit worthiness of the MDTA, lead to higher debt costs, and ultimately will affect the ability of the MDTA to take on new major infrastructure projects at its existing facilities or new facilities.

The Maryland Department of Transportation and the Maryland Transportation Authority respectfully request the Committee consider this information when deliberating House Bill 519. Should you have any further questions, please feel free to contact the Department.

Respectfully submitted,

Bradley Ryon
Manager, Government Relations
Maryland Transportation Authority
