¹The calls for service (CFS) come from CAD Resource. These numbers do not reflect actual reports that are written. These numbers are the calls that come in to Communications and result in an officer responding to a scene for any given nature.

²The number of arrests come from RMS. If one person is arrested for DUI, and the officer finds heroin on the arrestee from the search incident to arrest, this one arrest will count for one DUI arrest *and* one drug arrest, even though only one person was arrested. In other words, the arrest stats should be interpreted as follows:

EXAMPLE: In 2019, four (4) people were charged with DUI.

³The demoflush numbers come from the Planning and Development Department.
